**HOW TO INVEST MONEY.**  
The Post Office Your Savings Bank.  
Postmaster McCarty continues to impress upon the people of O'Neill the advantages of Treasury Savings Certificates and Postal Savings as an investment as well as the best method of encouraging persons of small incomes to form the habit of thrift and saving. "The post office under this system" said a financial sage who made an investigation of the new U. S. Government Saving System, "will become the savings bank of the wage earner and the person of small salary. In many of the large cities, and in factory towns, and especially in many of the smaller towns in the rural districts, it is very inconvenient for earners of weekly wage to reach a bank after receiving their pay, but a post office is usually available. When the people fully understand that their post offices offer them modern banking facilities they will avail themselves of this modern savings system which is run for their own advantage and at no cost to them. Postal Savings and Treasury Savings Certificates offer an unusual opportunity, and the post office is ready to render these banking facilities in an efficient manner."  
Postmaster McCarty is pleased with the suggestion of the post office as the wage-earners' savings bank, and intends to make it that in fact, as long as people who are its patrons show a disposition to save. He calls especial attention to the fact that the Government is in this savings movement because the officials have become con-

vinced that only through the Government can a nation-wide campaign for savings be inaugurated and made successful. "The Government," he said, "affords an opportunity for everybody to save. Any person with ten cents can open a savings account with the Government. With ten cents a postal savings stamp can be bought at the post office. When ten stamps have been purchased and affixed to a postal savings card they can be exchanged for \$1 interest bearing postal savings certificate. Postal savings certificates to the amount of \$2,500 may be purchased by any person. Small investors can also buy Treasury Savings Stamps at \$1 each. They do not draw interest, but when 20 stamps have been acquired they can be exchanged for a \$25 Treasury Savings Certificate. These certificates are issued in denominations of \$25, \$100 and \$1,000, and sold for \$20, \$80, and \$800. They pay 4 1/2 per cent compounded semi-annually, and are exempt from state and local taxation (except estate and inheritance taxes) and from the normal Federal income tax." \*\*\*

**BLUE POLE ROAD.**  
Inman Leader: An enthusiastic meeting of boosters of the Blue Pole Highway, from Fremont to Chadron, was held at the Odd Fellows hall in Inman, Wednesday evening, for the purpose of perfecting a local organization and designating the route through this locality. A large number of local boosters were present. Mr. Blakeman, of Norfolk, T. V. Golden, of O'Neill, and Fred Gatenby, of Clearwater, were present and each delivered an interesting talk on the road question. The local organization will be known as the Blue Pole Highway Association of Inman, and starts out with a membership of thirty five each paying one dollar as membership fee. The Blue Pole Highway as originally planned is to run along the Northwestern Railroad as near as possible and this meeting was for the purpose of securing the opinion and consent of the residents along the railroad for a right of way for the new route. The route runs along the track from Ewing to within one mile of Inman on the east, the land having been donated for that purpose. On the west of Inman along the track the situation is a little more complicated in the matter of securing a right of way if the route is designated along the track the land will have to be bought.  
A committee of three besides the local director was chosen for the purpose of designating a route. The committee designated the route north of Inman four miles to connect with what is known as the Grant highway. This route is known to residents here as the Gannon road and the general sentiment of the meeting last night seems to be in favor of this route, the same may be changed before the road is permanently established.

**ANOTHER O'NEILL CASE.**  
It Proves That There's A Way Out For Many Suffering O'Neill Folks. Just another report of a case in O'Neill. Another typical case. Kidney ailments relieved in O'Neill with Doan's Kidney Pills.  
R. H. Mills, carpenter, gave the following statement June 21, 1916: "I gave a statement some time ago telling of my experience with Doan's Kidney Pills and since recommending them I have had no further need of a kidney remedy. I still have a word of praise for Doan's, however, because of the very satisfactory relief they gave me from backache and lameness in my back that I had when my kidneys were in disordered condition."  
On June 12, 1920, Mr. Mills added: "It has been ten years since I have had need of a kidney remedy and I have been strong and healthy ever since Doan's cured me."

**PLEASANT VALLEY.**  
It is getting quite warm again. Miss Helen Townsend entertained a crowd at her school house last Wednesday night by giving a negro minstrel show and box social. The show and social were each a success; the eighteen boxes sold for \$32.90.  
Mr. and Mrs. Stuart Hardigan and family from Inman spent Sunday at the Ray Asher home.  
Mrs. S. A. Page and two granddaughters, Ruth and Carol, of Page, were visitors, Saturday and Sunday, at the P. A. Grass home.  
T. E. Whitehouse, of Norfolk, spent a few days at the Ray Asher, home last week.  
Mrs. Mabel Hayne, daughter Vivian and brother, Art Duncan, accompanied by Claude Hamilton autoed to Clearwater last Sunday morning, returning late Sunday evening.  
Mr. and Mrs. Roy Stewart spent Sunday at the home of Roy's parents, Mr. and Mrs. C. M. Stewart and family, in the west end of Pleasant Valley.

**HE KEPT US OUT OF GENOA.**  
The wisdom of the Harding administration in keeping the United States out of the Genoa conference is now being demonstrated. It is another development that illustrates the good old-fashioned, common horse sense that amounts to genius and that has characterized the statesmanship and diplomacy of Warren G. Harding. Those nervous patriots who were worried at the time of the inauguration, a year ago, lest Mr. Harding should not understand foreign relations must be feeling queerly inside in the light of recent events.—Los Angeles Times.

**THE LIBERTY BOND MARKET.**  
When Warren G. Harding was campaigning in 1920 as the Republican presidential nominee, he promised that, in the event of his election, he would do all in his power to bring Liberty bonds back to par.  
Current market quotations—take a look at them, please show that he has already within about a year of his tenure, virtually fulfilled that promise. Some of the bonds are above par while the others are so close to it as to matter little, although these will be at par and within a short time.  
Now, Mr. Harding did not do this himself as an individual. He did not wave a magic wand and accomplish it. He did not go out into the stock mar-

ket and corner the Liberty bonds in order to boost their selling prices. He did it by following, faithfully and energetically, a definite program, formulated by his party, as well as by exercising wise management and sane leadership.  
It was not any one particular thing that brought about this splendid result within such a gratifying short time, but a combination of them. All, however, were predicted upon general policies designed by the Republican organization in accordance with the rockribbed doctrines that form its foundation stones. That these doctrines and policies make for success and progress and prosperity is shown by the record.—Clarksburg (W. Va.) Telegram.
