Neligh Leader: Ham Kautzman, veteran newspaper man, formerly of this section, more recently located at Waldport, Oregon, last week retired because of physical infirmities. In his goodbye he says: "My work is finished, almost, in this grim vale of woe and greed. In my life I have battled for the weak, weary and down trodden, and will go out of this life like I came into it—penniless." Old friends will read between these words much of pathos and tragedy of a human life, and friend and foe alike will sympathize with the old man, once a splendid specimen of physical manhood, as he walks, broken in body and health, "into the shadows beyond which is eternity."

PEOPLE'S MAN FOR GOVERNOR.
ALBERT H. BYRUM.

Is fighting the Administrative Code Law with its waste and extravagance. Stands for the rights of the taxpayer rather than the taxspender. Favors progressive, efficient government, but its high cost must come down. If you want relief from high taxes, Vote for Byrum.

CARD OF THANKS.

We desire to thus publicly express our sincere appreciation of the sympathy and kindness manifest by all those many friends who knew him and particularly by the residents of O'Neill and community, his old friends and neighbors, in our bereavement, the death of our beloved uncle, Moses P. Kinkaid. Their tributes to him and their hospitality to us, strangers in their midst, ever will remain a dear and cherished memory.

AGRICULTURE
I believe that agriculture is the basis of our national prosperity and that the tariff, railroads, problems, finance and all other questions should be acted upon in the light of their effect on the farmer and stock grower.

IRRIGATION
I am a strong believer in irrigation, having lived in an irrigated country my entire lifetime. I will work for the promotion and development of new irrigation projects, when desired by those immediately concerned, especially those now under consideration in Lincoln, Dawson and Buffalo counties. I believe that the government should bear a fair proportion of the expense of building reservoirs for the storage of flood waters, thus controlling them at their source, and making them an asset to the country and not a cause of danger and loss. I believe that the government should bear a part of the overhead expense of construction in proportion to the general benefit received by the nation from the transforming of an arid or semi-arid region into a food producing land of intense agriculture, thereby increasing the total national wealth. I will work for the prompt completion of Government projects now under construction and for the reduction of the annual payment to an amount consistent with the profitable operation of the farm.

"FARM BLOC"
I will join the "Farm Bloc" in Congress and work consistently at all times to build up national prosperity by strengthening the basic industry—agriculture.

GOVERNMENT AID
I will work for the increasing of the amount of Federal Loans to a maximum of \$25,000,000, the extension of the time of payment, the reduction of interest rates, and the liberalizing of all laws designed to give financial aid to the farmer and stockman to the end that they will fully serve their purpose in building permanent prosperity in agriculture.

LABOR
I was born on a farm. By hard labor I worked my way through high school and college. By personal experience and necessity I know the problem of those who work. I will give them a square deal.

"THE SERVICE MEN"
I was a soldier in the World War. I know the needs of the disabled, the unemployed and the general problems of the service men. I believe adjusted compensation to be only justice to them. I have served as their representative in the past and will continue to work for them in the future.

PROHIBITION
I am for the enforcement of and against the repeal or weakening of the Volstead Act.

FREIGHT RATES
I will work for the reduction of freight rates.

TAXATION
I believe that the process of taxation should be simplified, and that taxes can be reduced by elimination of government red tape and useless super-structure, without injuring the essential progress of government.

PROGRESS
I am a progressive in politics.

ECONOMY
I believe in economy consistent with progress.

For

United States Senator

Primary Election Tuesday, July 18th

Born in Western Nebraska and has his home and interests there. Not a member of any Omaha political faction. Interests are closely associated with farming and has always worked for agricultural development of Nebraska. Attorney General for four years. Prosecuted more than two thousand prohibition cases. Fought for Nebraska irrigation development. Enforced the banking laws. Protected the public by sustaining the uniform bread loaf law. Called grand juries and cleaned up Nebraska business. Favors amendment to Federal Reserve Banking Act to extend more liberal credit to farmers. Favors law promoting cooperative marketing. Favors law prohibiting gambling in grain. Opposes cancellation of foreign loans. Stands for reduction of freight rates. Favors laws protecting women and children. Favors reduction of taxes by reducing the cost of government. Stood steadfastly for law enforcement and clean government.

A BUSINESS COUPE FOR BUSINESS MEN

This car represents a new and important achievement in commercial transportation.

For the first time in motor car history, business men are enabled to buy a closed car, the body of which is built throughout of steel.

The advantages of this all-steel construction—reserved until now to open cars—are particularly marked in a coupe built to weather the wear and tear of hard commercial usage.

Immediately you will be impressed with the beauty and lightness of this coupe. Time will convince you of its unusual stamina. The doors snap neatly shut. Body squeaks are eliminated. Dodge Brothers enamel is baked on the surface of the steel—a permanent lustrous finish, impervious to wear.

The interior is roomy and thoughtfully equipped with every appointment necessary to the owner's comfort and all-weather protection.

Business houses that equip their salesmen with motor cars have been quick to recognize in this coupe a very unusual investment.
