MISS BEATRICE FORD SHOT IN THE BACK

A poorly displayed license number on the front of the car and the similarity of cars caused Sheriff Peter W. Duffy to fire several shots at the tires and gas tank of a Cadillac touring car that refused to halt at his command Saturday night, one bullet penetrating the rear of the car and striking Miss Beatrice Ford of Sioux City, in the back. In passing through the car the bullet was broken somewhat, apparently only pieces of the steel jacket entering her back. She was brought to town where Dr. Finley made an examination and was then taken to a hospital in Sioux City on the early train Sunday morning over the Chicago & North Western.

In the car with Miss Ford was Miss Thressa Harrington, Miss Eva Harmon and three gentlemen friends, of Norfolk.

The special bond elections held at Brunswick, Royal, Orchard, Page and Inman August 11th failed to carry. The elections were called for the purpose of finding out whether or not the different towns cared to furnish the money to equip a local electric light plant and then install a transmission line to the next town and allow the Tri-State Utilities Co. to operate the system. The Tri-State agreeing to put 20 per cent of the gross receipts into a fund to retire the bonds. The same proposition was made to the O'Neill city council but they promptly turned it down.

The accident occurred on the road near the cemetery shortly after two o'clock early Sunday morning. Miss Ford arrived in O'Neill over the Burlington about midnight Saturday night and was met by several young lady and gentlemen friends who went for a ride over the O'Neill-Spencer Highway.

The large barn and granary on the George Hansen, Jr., farm, one mile east of the Marquet church at Meek, was destroyed by fire about noon Saturday. The fire originated in the barn and had gained considerable headway before it was discovered. A light breeze was blowing from the southeast driving the heat and sparks toward the granary which soon caught on fire and was totally destroyed. The residence was also in line with the fire; the timely arrival of the neighbors, however, is perhaps responsible for the saving of the house. The origin of the fire is a mystery. Mr. Hansen had no horses in the barn for several days prior to the fire, and had not been around the barn. The granary contained considerable small grain. A small amount of insurance was carried on one of the buildings.

Sheriff Duffy received word that evening that a Buick car with bumpers and bearing a Brown county number (75) had been taken from the streets at Ainsworth and was headed toward O'Neill so he located at the cemetery corner with a rifle for the purpose of stopping the stolen car providing it came his way. In the dark it was difficult to detect the difference in the appearance of the Cadillac and the Buick wanted. The Cadillac carried a Madison number plate (7). Late word from Miss Ford is to the effect that she is not seriously injured. Miss Ford is the daughter of Mike Ford, engineer on the Burlington freight, and with her mother and brother, had come to O'Neill to spend Sunday with him.
