Ed O'Donnell is the latest addition to membership of the Hole-In-One Club. Donohoe, Charles Stout, Ted Cooper and Mr. O'Donnell.

The potato crop this year is one of the largest for many years. Reports come from the potato fields in the western counties that many of the fields will not be dug on account of the low prices that they are bringing on the market. The high freight rates will make the shipping of potatoes prohibitive to any great extent. The local crops of tubers in Holt county is extra large, and with a little outside assistance the demands of the county can be cared for without any trouble.

Work is progressing nicely on the new I. O. O. F. lodge rooms and the rooms will be ready for occupancy early in October is the prediction of the building committee. The entire building is 24x80 feet. The lodge room will be 24x48 feet; there are three large lockers; a large reception and ante-room, hallways and a club room 12x24 feet across the front of the building. The ceiling of the entire building will be steel. The lodge room will contain two large fans; nine windows are located on three sides of the room which insure good ventilation. The building will be heated, presumably by a steam furnace. The entire cost of the building complete with the new furniture that is now ordered and some that will be ordered soon will amount to about \$6,000.

The hunting season on ducks and geese opened Saturday morning. These game birds are very scarce in this part of the county and those who were hunting in this vicinity had poor luck. There seems to be a scarcity of ducks over in the lake districts of the southern and southwestern part of the county where in former years they were plentiful. The territory in the vicinity of Chambers and in several localities in the southern part of the county, is posted against hunters mostly because of the pot hunters who migrate from the eastern part of the state about the time the season opens, and kill off the ducks and chickens. These hunters kill more game than they can care for. The farmers of the south country are considerably "worked up" over the treatment given them by hunters who seem to care but little for the damage they do to the country by carelessly starting prairie fires which did untold damage to them last year. The foreign hunters are causing the local sports considerable trouble and there seems to be no way to remedy the difficulty except stringent action on the part of the people affected.

United States Marshal D. H. Cronin accompanied by George Keyser, deputy district attorney, of Omaha, stopped in O'Neill between trains last Friday on their way from Chadron, where they had been attending federal court.

The High School is learning a song and practicing yells in preparation for the football games. The yell leaders are Albert Herrick and Elsie Longstaff. We are expecting a large number out for each home game.

The girls in the Clothing class are making aprons to be used in their Food work next semester.

On Friday evening of last week the upper Classmen entertained the Freshmen at a party. The upper classmen entertained themselves, while inating the Freshmen.

The Freshmen boys capped and gowned were led before the judge, with Emmett Harmon acting in that august position. There they were made to swear allegiance to all the upper classmen.

A boxing match was staged between two of the finest specimens of the Freshmen class now numbering 51, Charles D. Downey and Warron Hale. The first round going to Downey, second to Hale.

Next the boys still blindfolded engaged in a football game, special mention for Jack Arbutnot, Ervin Cronin, Francis Welch with the belt going to Warren Hall, by means of which Warren was suspended in mid air and gently lowered into a tank of water. But Warren did not jump from the tank so gently as many wet coats afterwards were in evidence.

The girls were brought in a litter later and took the vow to neglect, in health and not in sickness, for good and not for bad.

After which followed the Diet of Worms, when each girl vied with her partner in eating spaghetti stew while Carroll Templeton coated their eyes Sylvia Simonson blackened the girls faces much to their dismay.

The remainder of the program followed in the Auditorium:

Piano Solo—Ralph Baker.
Vocal Solo—Elsie Longstaff.

The sixth grade pupils are studying problems in making change and in order to make the work practical they are playing store and are taking turns being store keeper and customer.

O'NEILL HAS A NEW HAY COMPANY

The O'Neill Hay Company is the name of the new company which was organized last Friday. Pat O'Connor and A. M. Bazelman are the stockholders. Mr. O'Connor has purchased the McCafferty building and moved it to his lots in south O'Neill near the C. & N. W. railroad track where he now owns and operates a large hay barn. The new company will take over the present property and another large hay barn will be erected in the near future in time to take care of the present crop. A new set of ten ton scales are being set and arrangements are being made to take care of their share of the hay business this winter. Mr. O'Connor expects to look after the street and office work while Mr. Bazelman will take care of the books and correspondence.
