Greenville, Delaware.

Mothers and oftentimes grandmothers have taken and have learned the value of Lydia E. Pinkham's Vegetable Compound. So they recommend the medicine to others.

The best test of any medicine is what it has done for others. For nearly fifty years we have published letters from mothers, daughters, and women, young and old, recommending the Vegetable Compound. They know what it did for them and are glad to tell others. In your own neighborhood are women who know of its great value.

Mothers-daughters, why not try it?

# TURK LEADER EXTRA CALL IN CONFLICT

Messages of Allegiance Pour Into Headquarters-British Vessels Pacing the Dardanelles.

BY UNIVERSAL SERVICE. Special Cable Dispatch. London, Sept. 25 .- The British admiralty Sunday night an-nounced that the destroyer Speedy collided with a tug in the Sea of Marmora and was sunk. It is feared that 10 lives were

BY C. F. BERTELLI.
Universal Service Correspondent.
Paris, Sept. 25.—With British warships pacing the Dardanelles and dozens of transports loaded with British regular troops steaming under forced draught towards Chanak, the whole Islamic world is ready to spring to the standard of revolt at the signal of Mustapha Kemal, inspired leader of Mussulmen. Hundreds of messages are pouring

into the Turkish headquarters at Smyrna from far quarters of the British empire pledging allegiance to the nationalist leader.

Dispatches through diplomatic sources from Egypt and India indicate that elaborate preparations have been completed by which the first British gun fired against the Turks will be the signal for revolt.
With this ominous situation con-

fronting him Lloyd George is hesitat-ing in pursuing his plan to make the Dardanelles another Suez. At the same time the British withdrawal from Chanak, which would be interpreted as a sign of weakening, is not contemplated. Instead all efforts of diplomats are concentrated in an effort to persuade Kemal to hold his victorious armies in check until the peace congress can be held.

WAR QUESTION AT STAKE. Constantinople, Sept. 25 .- The issue of peace or war depends on a conference of the Kemalist ministers now sitting at Smyrna. The an-nouncement that the British are prepared to discuss the question of castern Thrace has much improved the chances for peace.

Having seen all of the British preparations on the Asiatic side of the neutral zone, I can state emphatically that these are entirely defensive. Formidable positions have been en-trenched at Chanak and Ismid, but

there is no preparation of any kind for an offensive.

Attack May Cause War.

War will only be brought about by a Kemalist atack on our positions with the object of crossing into

The announcement of the object of the British defense of the straits is misleading. It puts the case in the wrong light.

The Kemalists desire to secure eastern Thrace before the Greek army is reformed. The reorganizations of Greek troops in Thrace is proceeding rapidly and the stories of mutiny and disorder are exaggerated. Kemal is aware of this and is seeking to get Turkish officers across the straits and the sea of Marmora to organize bands of Thrace nationalists. Bands from Constantinople also are being sent and arms are being smuggled in.

Admiral Brocks is stopping traffic from Asia across the sea of Marmora. So far these efforts of Turks have not been serious but any withdrawal of British forces would Murder Plots Hatching.

The real reason for the British occupation of the straits is to prevent the Kemalists carrying the war into Europe with consequences of which the disordered state of Anatolia is an index, while rapine and murder would

There is information that plots are hatching for the murder of Christians here. The information is definite, but the plotters will not act as long as the Allies show a firm front. This alone is justification of British action, but it should be made clear that we are acting to prevent war in Europe and save the lives of Christians and not to bolster up the claims of the Greeks.

The Turkish and Greek cases should be both heard fairly, particularly as regards the Thrace question. The policy which has brought about the present dangerous situation can be

# PLEDGED AID OF CONGRESS IS ASSURED

President Harding Insists on November Session Because of Ship Subsidy Legisla-

Universal Service, Washington, Sept. 25.—Efforts to

persuade President Harding not to call an extra session of congress on November 15 have failed completely, it was officially stated Sunday. The president regards ship subsidy legislation of such importance to the country that he has refused to give ground before the strong pressure against an extra session. Most of this opposition to an extra session

has come from congressional leaders, who fear little could be accomplished in the brief period between November 15 and the time for convening the regular session the first Monday in December. The president, however, is known

to be of the opinion that considerable progress on the ship subsidy bill can be made in that time so that when the regular session convenes all the preliminary discussion will be out of

Bill Favorably Reported.

A spokesman for the administra-tion stated Sunday that the president will not object to minor modifications of the subsidy legislation as outlined in his message to congress several months ago. But Harding will in-sist that the imperative need of a subsidy meet with the favorable attention of congress

The ship subsidy bill already has been favorably reported from the committee and is in the calendar of the House. The plan of action counted upon by the administration is to have the House dispose of the bill in the period between November 15 and the new session in December. Then the Senate, while awaiting the enactment of the appropriation bill in the House would have sufficient time finally to dispose of subsidy legislation.

Hostility Wiped Out. At the White House it was stated that reports from all sections of the country indicates that the former

hostility to a subsidy has been com-pletely wiped out. In it's place is a growing conviction among the rank and file of voters that on an adequate merchant marine depends the future commercial prosperity and safety of the country.

The situation as viewed by th president was outlined by an ad-ministration spokesman Sunday who

"The president has had many communications from all parts of country from voluntary workers for an adequate merchant marine. He is pleased to find, in place of the former hostility, a most cordial acceptance of the proposition. There now exists a different condition than we have ever had before. We have got the ships now, and their operation is costing more than a subsidy would

"We are not concerned with the fact that the rest of the commercial world does not sympathize with our motives. That is to be expected." It is believed at the White House that the marked change in sentiment throughout the country will have the desired effect in convincing congress

to rush through the subsidy legis-

## Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

# Children Cry For

Are You Prepared?

A doctor in the house all the time would be a good idea. Yet you can't afford to keep a doctor in the family to keep baby well or prevent sickness. But you can do almost the same thing by having at hand a bottle of Fletcher's Castoria, because it is a wonderful remedy for indigestion, colic, feverishness, fretfulness and all the other disorders that result from common ailments that babies have.

Fletcher's Castoria is perfectly safe to use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Children cry for Fletcher's Castoria, and mothers recommend it because they have found it a comfort to children and a mother's friend.

If you love your baby, you know how sweet it is to be able to help baby when trouble comes. You cannot always call upon a doctor. But doctors have nothing but good to say of Fletcher's Castoria, because they know that it can only do good — that it can't do any harm — and they wouldn't want you to use for baby a remedy that you would use for yourself.

Which City Editor? Many people have queer ideas about

Others seem to believe that newspaper men have a secret insight into affairs. Newspaper men often refrain from changing this attitude. But the woman who came to see the

city editor today had a new one. "Are you the city editor?" she asked. "Yes, madam," he replied. "Which city?" she inquired blandly.
