## PREDICT NEW PROSPERITY ERA IN U. S.

Bankers Express Optimism at  
Meeting in New York and  
Lay Plans for Assisting the  
Farmer Financially.

Universal Service.  
New York, Oct. 3.—A new era of financial prosperity for the United States was forecast, plans for assisting farmers were laid, and an optimistic view of conditions in Europe was expressed at the opening Monday of the 44th annual convention of the American Bankers' Association.

Eugene Meyer, Jr., managing director war corporation and probable candidate for governorship of the federal reserve board, delivered one of the principal addresses, saying:

"The acute phases of the agricultural crisis of 1920-21 are now passed. The aftermath in the form of a burden on the farmers, and stockmen still remains, and some thousands of banking institutions still are in an extended condition. But probably at no time in our history has there been so rapid and extensive improvement in our economic condition as during the past 18 months."

### Oppose "Chain"-Banking."

Mr. Meyer pointed out that the critics emphasized one outstanding fact—the need for more gradual marketing of agricultural products with longer terms financing to correspond with this slower process.

Europe's financial troubles, it was expressed by the majority of the 9,000 delegates present, will be met through stabilization.

Various phases of the European situation were relegated into the background by the drive of smaller banks to prevent again allowing branch banking. The contention on one side was that such a system of national "chain" banking would result in the money being held by Wall street and allied controllers.

### Big Forgery Exhibit.

The other side, as voiced by persons close to the big banking interests, represented that branch banking would prove financially and economically advantageous to the nation.

One of the features of the convention is the exhibit dealing with forgeries and counterfeit money at which it was stated that \$50,000,000 in losses was paid out in check forgeries last year by surety companies. Checks raised from a few dollars to many thousands, signatures cleverly copied and other ingenious practices of forgery are presented in a striking manner together with the announcement that a forged check is passed every three and a half minutes of the banking day.

Here is what some of the delegates had to say:

Thomas B. McAdams, Richmond, Va.—"Fundamentally, America is in a sound financial position and can look forward to increasing prosperity, provided carelessness and selfishness are not allowed to undermine the stability of our citizenship."

J. A. House, Cleveland—"I feel

much assured as to business prospects during the coming year. I have come to the conclusion that the European problem is the world's problem and that the United States can no longer withhold its influence without suffering more by its exclusion than by its participation."

J. W. Hoopes, Dallas, Texas—"My

territory covers a very large portion

of the cotton producing area of Texas

and while the crops are in general

spotted, the prevailing prices have

been very satisfactory, enabling the

merchants and interior banks to liquidate freely."

### WHEELS OFF PLANE, PILOT NEAR DEATH

Unaware That Landing Gear

Is Off Machine, Flyer Is

Nearly Crushed.

Universal Service.

Mt. Clemens, Mich., Oct. 3.—Un-

aware that the wheels of the landing gear of his airplane had dropped off,

Capt. Bert E. Skeel made a landing

Monday and was nearly crushed

to death in the wreckage.

For half an hour Captain Skeel

flew over Selfridge field, unable to

interpret the desperate signal attempts

of the spectators below, seeking to

warn him of his plight. Extra landing

wheels were hauled out of a hangar

and dangled in the air from another

plane in an effort to transmit the

message that almost certain death

awaited his usual landing.

As he swooped down for the final

landing ambulances and fire trucks

raced across the field to where his

plane hit the earth in a great cloud

of dust. Captain Skeel, suffering

from severe injuries about the head,

was lifted from the wreckage, was

carried to safety and given first aid.

Captain Skeel, whose home is in

Cleveland, Ohio was to pilot one of

the army entries in the Pulitzer race

October 12-14. He is recognized as

one of the ablest pilots of the 34th

squadron of the first pursuit group.

### PINNED BETWEEN CARS.

Fremont, Neb., Oct. 3 (Special).—

John Livingston, 62 years old, pioneer

railroad man of this city, was fatally

injured Monday while switching in

the local yards, when pinned between

two box cars on the Northwestern

railroad.

Possible Explanations.

From London Opinion.

Hubby—Of course, dear, it's only a

rough idea of mine, but do you think it's

possible that there's ever such a thing as

a printer's error in that cookery manual

of yours?

## RENEWAL OF BONUS FIGHT IS ASSURED

Fordney to Introduce New Bill  
in House While McCumber  
Promises Companion Meas-  
ure in Senate.

Universal Service.

Washington, Oct. 3.—Renewal of the fight for a soldier bonus in the next session of congress was made certain Monday. Following the announcement of Chairman Fordney, of the House ways and means committee, that he would introduce a new bill in the House as soon as congress reconvenes, Senator McCumber, chairman of the finance committee stated Monday that a companion measure will be introduced in the Senate at the same time.

Asked if the New bill will carry a financing section to overcome the objection on which President Harding's veto of the previous measure was based, Senator McCumber said: "That will have to be worked out."

The senator was doubtful that another bonus bill could be put through both houses during the short session but the issue can be kept alive by bringing it up.

### INSTALL BISHOP IN S. D. DIOCESE

High Dignitary From Rome to  
Assume Charge of Sioux  
Falls Territory—Cere-  
mony Wednesday.

Sioux Falls, S. D., Oct 3 (Special).

Bishop Bernhart J. Mahoney, of Rome, will be formally installed as Bishop of the Catholic diocese of Sioux Falls Wednesday morning at 10:30 o'clock at St. Joseph's Cathedral. Many high dignitaries in the Catholic church will be present for the installation ceremony.

Bishop Mahoney is expected to arrive here Tuesday. He will assume charge of all the territory east of Missouri river in South Dakota.

The installation will be in charge of Archbishop Austin Dowling, of St. Paul, Minn., who will arrive Tuesday. Bishop J. J. Keane, of Dubuque, Ia., also will attend the ceremony Wednesday.

Among other notables who will be in Sioux Falls Wednesday for the ceremony will be Bishop Edmund Heelan, bishop of the Sioux City diocese.

### LABOR BODY ASKS U. S. TO RECOGNIZE MEXICO

Federation Says Delayed Ac-  
tion Encourages Obre-  
gon's Enemies.

Washington, Oct. 3.—The executive

committee of the Pan-American federa-

tion of labor Monday called upon the

United States government to recognize

Mexico on the ground that delayed action encourages the ene-

mies of President Obregon to stir up

trouble at the border, such as the

Juarez garrison mutiny last Saturday.

The statement said in part:

"There is no doubt that these so-called

revolutionary leaders (Car-

rasco and Murguia) are not deriving

the least encouragement from the Mexican people in their rebellious ac-

tivities. Their source of encouragement

is the fact that the United

States government still is unaccountably withholding its official recogni-

tion of the Mexican government.

The Mexican people know that the Obregon government is the one ray

of hope that has emanated from the

darkness of the revolutionary period

strong enough to assert itself over

the reactionary forces which have

been constantly plotting for a restora-

tion of the old order of things.

"San Antonio and El Paso, Texas,

seem to be the rendezvous for these

malcontents who value more their

own petty, unwholesome ambitions

than the welfare of their country and

their people. Others are nursing their

impunity and mediocrity in Havana,

while the vitriolic pens of still others
