WAR CLOUDS GATHER IN NEAR EAST

Virtual Ultimatum Delivered by Ismet Pasha at Mudania Peace Conference—Rupture Seems Imminent.

Universal Service.
 London, Oct. 7. (Saturday) 3:20 a. m.—A Central news dispatch from Paris at 3:15 o'clock this morning states that the conference between Premier Poincaré and Lord Curzon terminated at 2:20 a. m. Lord Curzon expressed himself as satisfied with the result and said there would be a further conference at 9 o'clock this morning, when he hopes that an agreement will be reached.

Universal Service.
 London, Oct. 7.—An Exchange Telegraph dispatch from Constantinople states that the Mudania conference has been resumed. The situation remains unchanged.

BY KARL H. VON WIEGAND
 Universal Service Correspondent
 Special Cable Dispatch.
 Constantinople, Oct. 7.—The war clouds are gathering.

Ismet Pasha, according to sources which I have reason to believe are reliable, became defiant at Friday's Mudania conference and in a scarcely veiled form delivered the equivalent of an ultimatum.

General Harrington became adamant on the minimum concessions to be made by Great Britain. A rupture seems imminent. Frank Bouillon sprang to his feet and desperately sought to save the situation, but could accomplish little.

Both Ismet Pasha and General Harrington remained coldly firm in their attitudes and Bouillon succeeded only in averting an open break so that the allied delegates could return to Constantinople and confer with their respective high commissioners and governments.

It is unofficially reported here that General Harrington and the other allied representatives may go back to Mudania Friday night. Unless they reach an agreement with the Kemalists at Mudania, the Angora note accepting the conditions of the Paris note, and inviting the allies to a conference at Smyrna on October 20, will be nullified.

Situation Not Hopeless.
 A statement made to me Friday night in high quarters sums up the situation as follows:
 "As long as we still have contact with the peace envoys, which is apparent from the intention of returning to Mudania, there is no break and the situation is not hopeless."

It was upon the question of Thrace that both sides locked horns. The Turks demanded a guarantee that the nationalist troops would be permitted to march in and take over Thrace within the month, irrespective of the decision of the peace conference or whether the peace conference was ended or not. Moreover, they demanded the western bank of the Maritza river and Adrianople.

Britain Refuses Demands.
 Britain refused both demands, declaring that the taking over of Thrace by the Turks could not be permitted until after the decision as to peace.

In the meantime, the Allied proposition that the Turks be allowed 2,000 gendarmes in Thrace was turned down by Ismet Pasha, who declared the number insufficient.

Bouillon intervened and sought to prevent a rupture desperately using all the arts of persuasion. He vainly sought to reestablish some sort of cordiality but neither Ismet Pasha nor general Harrington would unbend.

Blockade Lifted.
 Bouillon finally succeeded in getting an agreement for a suspension of further negotiations for 24 hours to enable the allied generals to confer with their governments.

Both Bouillon and Hamid Bey are pessimistic but neither has given up hope of averting war.

General Harrington has lifted the blockade against newspaper correspondents going to Mudania.

TROOPS IN CONSTANTINOPLE.
 By Edward J. Bing, United Press Staff Correspondent.
 Constantinople, Oct. 6.—The Grenadier Guards, crack British regiment, tramped into Constantinople today, following a virtual breakdown of the Mudania peace conference, and the approach of Kemal's cavalry towards this former Turkish capital.

The British force, brought here by the "Empress of India," swung through the streets, band playing, colors unfurled and Constantinople's European population went wild with joy. Christians see in the troops a bulwark against an Ottoman threat to take Constantinople by force and march through to Thrace, if the allies do not immediately cede this territory to Mustapha Kemal.

FOR BEER AND WINE.
 Long Beach, Cal., Oct. 6 (A. P.)—A liberal interpretation of the Volstead act that would permit the sale of light wines and beers was favored by the California State Federation of Labor in the annual convention here yesterday.

IRISH REBELS BEATEN.
 Cork, Oct. 7 (U. P.)—Twenty-three irregulars were killed and 30 taken prisoner in the 30-hour battle on Monday and Tuesday at Killarney, near Killarney, according to an official report.

CALLS ON PRESIDENT.

Leon Dejean, minister of foreign affairs in the island Republic of Haiti, called at the White House for a conference with President Harding.

AGAIN WHAT OF THE MOVIES?
 "WHAT are we going to do about it?" pointedly asks a motion picture producer in the current issue of Collier's Weekly after drawing up a stinging indictment of the movies.

He indicts the movies not on the grounds of immorality, for, he says, immorality is always obvious and can be effectively fought in the open. He bases his indictment on stupidity and greed, which, if one may believe him, are the salient characteristics of the industry.

"Through a mistaken diagnosis, based upon ignorance of true motion picture conditions," he writes, "greed and stupidity have been mistaken for immorality. . . . The 14-year-old intelligence will be satisfied to pay its way into a show planned by the 15-year-olds: The cheap sentimentalities, the vulgarities, the absurdities, will continue to go out to millions a day, making them with each passing week more and more typical movie Americans."

But the charge of stupidity brought against them may not alarm the film magnates. Shown for many centuries before Barium, as well as ever since, have regarded the public as stupid and have gained riches out of that stupidity. Entertainment vendors who have catered to an intelligent public have usually gone bankrupt. If the movies are stupid it is because the public is satisfied with, and perhaps craves, stupidity.

It is a singular trait in humanity that when it comes to shows, spectacles, and entertainments people—and highly intelligent people at that—will put up with the veriest rot. Consider the pageants which colleges, schools, churches and societies of one kind or another indulge in from time to time. Some of them, it may be, are good, but the vast majority are silly to the point of tears.

The motion picture producer who finds a vent for his grouch through Collier's is in all likelihood off the track when he lays a recent falling off of almost 35 per cent. in movie attendance to the stupidity of the pictures. The pictures have been constantly improving from the artistic as well as the technical standpoint. The person who could enjoy a movie 10 years ago can have little complaint against today's product. Whatever decrease has taken place in attendance is probably due to summer heat and economic conditions. The movies are on the up grade and there is no reason to think that they are apt to slip back.

WAGE CHIROPRACTIC WAR IN NEBRASKA
 Norfolk, Neb., Oct. 5. (Special).—Mixers and straighters are waging a chiropractic war in Nebraska, according to Dr. Ros Knopp, who with his wife, Nell L. Knopp, were arrested Thursday on a charge of practicing chiropractic without a license. It is the second time. Dr. Knopp has been arrested for the same offense. The Nebraska law calls for a certificate from a college which teaches three years of nine months each. The Knopps came from Iowa where the law calls for three years of six months each. Knopp says the fight is not being waged between the Iowa and Nebraska schools.

Isadore Duncan, American born, who dances well, returns from Russia with a new husband, and is sent to Ellis Island for questioning before being admitted. Somebody in Washington has a queer mind and a preposterous plan for saving this nation from bolshevism.

An artistic lady that comes out from two heavy curtains, stamps her left foot, lifts up her right foot, waves her arms and shows you what the Greeks did, or would have done if they had known how, isn't going to upset the United States government. We should not make ourselves ridiculous.

Children Cry For Fletcher's CASTORIA

Special Care of Baby.
 That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.
 A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

Good Portable Lock.
 A portable door and window lock that can be carried in the pocket and applied anywhere without nails or screws has recently been invented by B. N. Wickwire of Carbondale, Pa.
 It consists of a wedge that is placed between the door and the door jamb. The wedge carries a series of fine teeth that are brought lightly into contact with the wood by pressure upon a lever. If anyone attempts to open the door the movement wedges the lock into the jamb and the teeth grip so firmly that the entire door frame must be torn away, the inventor declares, before the lock can be forced.
 English Child Pedestrian.
 England has a very youthful walking champion in the person of Master G. O. Edwards, aged ten, of Moss Side, Manchester. Recently he demonstrated his prowess in the toe-and-heel contests by walking from London to Brighton, a distance of 50 miles.
 The easier the job, the harder to get it. This illustrates the perversity of existence.

FOUND OUT WHAT WAS WRONG BELIEVE IN OLD PROPHECY SILLY IDEA OF "BLUE BLOOD"

Physician Might at Least Take Comfort in Fact That His Subconscious Mind Was Right.
 Have you ever done a piece of work, conscious at the time that something was vitally wrong with it, but unable to figure out the defect until after the job was finished?
 The "feeling that something is wrong" floats up vaporlike from the subconscious mind, one of every person's two brains.
 A Toronto doctor toiled evenings for two winters building in his cellar an eighteen-foot motorboat for Muskoka lakes. At that time he was conscious that something was wrong, but could not figure it out, though he pondered in detail everything from engine to paint.
 When it came time to take the boat to the freight train he abruptly learned what had bothered his subconscious brain: There was no way of getting the boat out of the cellar except by tearing a big hole in the foundations of the house and digging a deep opening to the outside.
 Gentle Passage-at-Arms.
 During the war some Australian soldiers were quartered beside the Gordon Highlanders, and took great delight in chaffing the Scotsmen unmercifully.
 One of the Gordons, while passing an "Aussie," trod rather heavily on his foot. Up sprang the latter, furious, and shouted:
 "You stepped on my foot."
 "Well," said the Scotsman, "I did ma best to jump over it; but a Hellan-man's only human, nae a kangaroo!"
 To overcome the display of emotion is a life work. The baby begins life by crying.
 Koreans Flock to Secure Holdings in What They Are Satisfied Is to Be Great City.
 Kelyong, the lonely mountain of Korea, experienced a real-estate boom that made the oil-town promoter pale into insignificance. On a tiny piece of land on the mountain side were encamped 2,502 persons, forming 518 households, while hundreds more were gathered at the base, bidding high prices for the privilege of buying a bit of land among the favored.
 The Korean prophet, Chyong Kam, whose writings have been preserved in the ancestral mausoleum of the one-time imperial family of Korea, long ago prophesied that Mount Kelyong would be chosen as the religious center of the sect which he founded and of the peninsula. His prophecy has recently been given great publicity. It is reported, and thousands of Koreans are flocking to the mountain, firm in their belief that it is to be one of the greatest cities of the world and that they are "getting in on the ground floor."
 Helpful Youngsters.
 Tommy and Bob just came home from a visit to grandma.
 "I suppose grandma was quite busy cooking her basket of peaches?" said mother.
 "Not very," replied Bobby. "Tommy and me saved her a lot of work. They tasted so fine we didn't leave her but a few to cook."
 If one can't remember what he reads, he ought to go to lectures. He may be car-minded instead of book-minded.
 Trying to save money on the family table? Consider fried mush.

The one way to keep sound, perfect teeth
 THE only way to keep the priceless blessing of sound, perfect teeth is to eat the kind of food that supplies them not only with proper nourishment but gives them work to do. Grape-Nuts not only induces thorough mastication, but also supplies the lime and other elements required for building firm tooth structure.
 This wholesome, healthful cereal food is made from whole wheat flour and malted barley. All the nutriment of these splendid grains, including the vital mineral elements so often lacking in so-called "refined" foods, is retained.
 A delicious, appetizing dish, Grape-Nuts, with cream or good milk, provides complete nourishment for body, bone and nerves, in readily digestible form.
 Sold by Grocers Everywhere!
