

Madam, Raisins Cost Less Now

So Get Their Benefits and Their Flavor in Scores of Attractive, Money-Saving Foods

DUE to greatly increased crops, even though production costs are still much higher than in pre-war days, raisins now cost almost as little as before the war.

Use this luscious, energizing, healthful food lavishly, therefore, in scores of "plain foods" like rice pudding, boiled rice, bread pudding, Indian pudding, and in cake, cookies, pie, and with the children's cereals, to give them "luxury flavors" at "plain food" costs.

Raisins are both good and good for you.

So take advantage of these lower prices now.

Sun-Maid Raisins

Not More Than 20c
Your retailer should sell you Sun-Maid Seeded Raisins in 15 oz. blue package for not more than 20c.

Honoring the Bard.
"What is the name of your child, auntie?"
"Shakespeare, sah."
"That's queer. Why did you name him after Shakespeare?"
"His dis way, sah. We done named one boy fur Maj. Polk, what we rents our lan' fum, an' we couldn't name dis child after 'im, but de major he always say Shakespeare wuz de bes' friend he had. We done know de 'frien' o' de major's wuz bound' to be a fine man, so we called dis boy Shakespeare."—Birmingham Age-Herald.

Moveable Mark.
A player and his caddy started off from the first tee. The man's drive had hooked badly into the rough. They hunted for the ball for some time and then the man turned to the boy and said: "Caddy, did you mark my ball?" "Yes," he answered, "I marked it." "What by?" asked the man. "By a bird," said the boy, "but it flew away."—Judge.

To Remove Tarnish.
To remove tarnish from silver, put one tablespoonful of borax powder in each quart of water. Put in the silver and bring to boiling point. Wipe with a flannel cloth. It gives a wonderful polish and saves time, labor and silver.

She Had Her License Safe.
A tall, willowy young woman at Seventh avenue and Thirteenth street, New York, was reciting her complaint to an officer, charging a taxi driver who had jolted her car with failure to observe traffic regulations. The driver protested that she lied.
"I'll bring a complaint against her," said the driver. "She hasn't got a license."
"Yes, I have."
"Well, where is it?" asked the driver.
"Do I have to show it to him?" she asked the policeman.
"Show it to me," he said.
Without flinching, she lifted her skirts knee high, and produced the much desired license from her stocking.

Ancient Greeks Took Gymnastics.
In every Greek city was established a gymnasium where crowds of young men exercised themselves naked. This institution was originally intended for those only who were in training for the Olympic games, but afterward it became part of the daily life. The Greeks went to the gymnasium with the same regularity as the Romans went to the bath.—Winwood Reade in "The Martyrdom of Man."

The diligent says "Today," the slug-gard says "Tomorrow."

Which Is Larger the Sun or a Cent

The sun is the largest but you can hold the cent so close to your eye that you'll lose sight of the sun. Don't let a cheap price or a big can baking powder make you lose sight of quality.

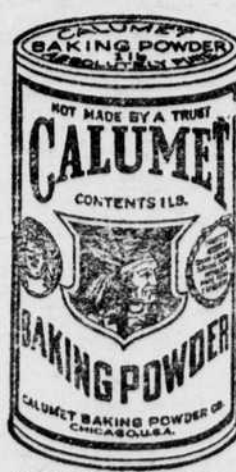

CALUMET

The Economy BAKING POWDER

Is the quality leavening—for real economy—in the kitchen, always use Calumet, one trial will convince you.

The sale of Calumet is over 150% greater than that of any other baking powder.

THE WORLD'S GREATEST BAKING POWDER

LEGION VETS OPEN GREAT CONVENTION

Care for Disabled Buddies Keynote — MacNider Takes Rap at Harding—Boom MacNider's Successor.

BY LIEUT. H. B. MAYER, Universal Service Correspondent.

New Orleans, Oct. 17.—The disabled service man and his dependents form the American Legion's first responsibility.

"We've only just started to fight for adjusted compensation—the act that is mislabeled the bonus by its enemies."
With this declaration of the intentions of the American Legion, National Commander Hanford MacNider opened the first business meeting of the fourth annual convention of the American Legion here Monday.

Great Din of Applause.
With delegates from every one of its posts throughout the country and the world in attendance, the first session held in the great auditorium was packed and jammed by enthusiastic legionnaires.

At Colonel MacNider's words the audience went wild, stamping and cheering, yelling and pounding in a great din of applause.

Colonel MacNider's address was the first indication in open meeting of the grim intention of the legion to put through by every means in its power certain legislation, which it deems vital to the legion and the country as a whole.

Sawyer To Be Target.

In addition to the demand for the proper care of the disabled and the adjusted compensation, Legion committees all day Sunday were at work framing resolutions which call for the removal of Brig. Gen. C. E. Sawyer, the president's personal physician, at present supervisor of the hospitalization of the wounded veterans.

Plans for the Americanization of immigrants and denunciation of present methods of receiving immigrants at Ellis Island probably will form the basis for another resolution which will be introduced to the second meeting on Tuesday, it was said. The military affairs committee intends to draw up and have adopted resolutions calling upon congress not only to further cut down the army and navy but also to increase greatly appropriations to both forces in order to have efficient services and defenses.

Deegan For Commander?

Wm. E. Deegan, of New York, is considered at present the most probable possibility for national chairman, although he will be opposed by A. A. Sprague, of Chicago, head of the committee on hospitalization, who is considered to be the dark horse for the convention.

The convention was opened by addresses from Gov. John M. Parker and Mayor McShane, of New Orleans, in the midst of scenes of great enthusiasm. Outside the convention hall bands and bugles joined in a fanfare of noise. The streets, hotels and sidewalks are crowded with legionnaires, most of them in uniform, and nearly all of them with some instrument or other of noise. The usually quiet French quarter of the city was a blaze of light and movement from the very first sign of dusk.

One of the most picturesque scenes occurred during the evening when the streets in the French quarter were roped off and members of the legion and young society girls of the city danced in the streets. Fireworks added a hectic glow to the dancing.

FARM PRICES MUCH BELOW TERMINALS

Average Boost of 9.6c Bishel Shown by Department of Agriculture Report.

Washington, Oct. 16 (A. P.).—The average difference between farm and terminal prices of the total estimated wheat crop during the crop movement year 1920-21, was 17.6 cents per bushel, according to compilations announced today by the department of agriculture. The average difference in corn prices was 9.7 cents, and oats 3.7 cents, the figures show, the total difference on the three crops combined being 9.6 cents.
A weighted average basis of computation was used in arriving at the averages, the announcement says with Minneapolis, Kansas City, St. Louis and Chicago the terminal markets used in making the calculations and the farm prices prevailing in the 10 leading wheat producing states.
The total estimated farm value of the wheat crop was computed to be 91.1 per cent. of the total estimated terminal market value; farm values of the corn crop 83 per cent. of the terminal value and of the oat crop, 92.4 per cent. The total farm value of the three crops combined was 87.5 per cent. of the terminal value.

SHOOTS GIRL; KILLS SELF.

Portland, Ore., Oct. 15 (A. P.).—A. T. Reed, a draftsman, shot and seriously wounded Miss Helen Stackhouse, 15, at her parents' home here today and then shot and killed himself, according to the girl's story, told later in the hospital where she was taken. Miss Stackhouse said she recently had broken her engagement to Reed.

REPORT KRASSIN RESIGNS.

Riga, Oct. 15 (A. P.).—It was announced here today that Leonid Krassin had resigned as soviet minister of trade and commerce.

WEEKS COMES OUT FOR BIGGER ARMY

Secretary of War Declares 125,000 Soldiers Inadequate for U. S. Needs.

Universal Service.
Washington, Oct. 17.—A regular army of 12,000 officers and 125,000 men, such as was appropriated for by congress last year, is inadequate to the needs of the United States.

Secretary Weeks so stated following a conference Monday with President Harding and General Pershing, at which the army appropriation for 1923-24 was discussed. The secretary added:

"It is still maintained that a regular force of 13,000 officers and 150,000 enlisted men, exclusive of the Philippine scouts, is necessary in order to perform properly the missions of the regular army indicated under the national defense act of 1920. Such a force is required if there is to be the contemplated effective instruction, provision for a trained nucleus, and police of our foreign possessions. Comparisons should not be made with pre-war strength or expenditures. The nation has greater responsibilities, rapidity of mobilization is a more important factor, and many more weapons must be maintained."

The war department will ask for an appropriation of \$329,287,580 as against \$340,884,122 appropriated for the current fiscal year. Of this amount \$259,428,175 would be spent for maintenance of the actual military establishments, the remainder being for departmental expenses, river and harbor work.

TO RESUME PROBE WAR FRAUD CASES

Special Grand Jury Convened in Washington Today—Investigations Guarded by Utmost Secrecy.

Washington, Oct. 17.—The second special war frauds grand jury will be impaneled Tuesday in the District of Columbia supreme court.

The department of justice is guarding with the utmost secrecy the investigations to be undertaken by the inquisitorial body. No announcement of the cases to be taken up was forthcoming Monday either at the department or the district court building. It is known the war frauds section of the department has a number of important and far reaching cases in shape for grand jury action but which one will come first will not be disclosed until after the jury goes into action.

It has been frequently reported of late that the first inquiry would center around the activities of the alien property custodian's office during the administrations of A. Mitchell Palmer and Francis B. Garvan, dealing particularly with the Chemical Foundation and Bosch Magneto transactions. These reports were discounted at the department within the past week, however.

It was stated the department would not be ready to take up the Chemical Foundation inquiry until some disposition had been made of the government's suit in equity, pending in the United States district court at Wilmington, Del., for the recovery of the approximately 5,000 trademarks, copyrights and patents sold to the foundation. The next development in the civil suit will be the filing of the defendant's answer to the government's allegations, which is scheduled for the latter part of this month.

The first war frauds grand jury, which was in session for more than three months during the past summer, returned indictments in the only two group cases probed, the sales of surplus war department lumber by Phillips and Stevens, and the sale of the Old Hickory Powder plant.

WEEKS AND PERSHING ASK STRONGER ARMY

Washington, Oct. 16 (A. P.).—Secretary Weeks and General Pershing called on President Harding today to present their reasons for believing the military policy of the government cannot be maintained adequately with a regular army of less than 13,000 officers and 150,000 enlisted men in the place of the present 12,000 officers and 125,000 enlisted men. It was understood they laid before the president specific instances in which the reduction made by the last congress had crippled efficiency and prevented the carrying out of the national defense act of 1920 on a basis regarded by the war department as adequate for protection of the country.

HEALTH AUTHORITIES MEET.

Cleveland, Ohio, Oct. 16 (A. P.).—The 51st annual meeting of the American Public Health association opened here today with hundreds of city, state and national health commissioners, as well as other public health workers from the United States, Canada, Mexico and Cuba in attendance. The convention will close Thursday, October 19. Allan J. McLaughlin, M. D., assistant U. S. surgeon general, is president.

OXFORD STUDENT FLEES PRETTY AMERICAN GIRLS

New York, Oct. 16.—American girls in general are so pretty that Edward Majorbanks, an Oxford undergraduate and member of the debating team that met Harvard recently, Monday was glad to sail back to England for college and refuge.

Majorbanks said: "They are so pretty it is impossible to pick out one to fall in love with. Fearing that I would fall in love with all of them and remain here indefinitely, I am going back to my studies."

After Every Meal WRIGLEY'S
