

## DOES LAUNDRY WORK AND HOUSEWORK TOO

Surprised to Find Herself Feeling So Well

Taunton, Mass.—"I used to have pains in my back and legs so badly, with other troubles that women sometimes have, that my doctor ordered me to stay in bed a week in every month. It didn't do me much good, so one day after talking with a friend who took Lydia E. Pinkham's Vegetable Compound for about the same troubles I had, I thought I would try it also. I find that I can work in the laundry all through the time and do my housework, too. Last month I was surprised at myself to be up and around and feeling so good while before I used to feel completely lifeless. I have told some of the girls who work with me and have such troubles to try Lydia E. Pinkham's Vegetable Compound, and I tell them how it has helped me. You can use my testimonial for the good of others."—Mrs. BLANCHE SILVIA, 59 Grant St., Taunton, Mass.

It's the same story—one friend telling another of the value of Lydia E. Pinkham's Vegetable Compound.

**A Matter of Location.**  
All followers of Blackstone know that a divorce case requires two witnesses who are property owners. In the proceedings in a recent trial in Indianapolis, one such witness was called to the stand.  
"You say you own real estate?" asked the attorney.  
"Yes, sir. I own a lot."  
"Where is this lot, in Indianapolis?"  
"No, sir; in Jamestown, Ind."  
"Where in Jamestown?"  
"In the town cemetery."

## FREEDOM FROM LAXATIVES

Discovery by Scientists Has Replaced Them.

Pills and salts give temporary relief from constipation only at the expense of permanent injury, says an eminent medical authority.  
Science has found a newer, better way—a means as simple as Nature itself.  
In perfect health a natural lubricant keeps the food waste soft and moving. But when constipation exists this natural lubricant is not sufficient. Medical authorities have found that the gentle lubricating action of Nujol most closely resembles that of Nature's own lubricant. As Nujol is not a laxative it cannot gripe. It is in no sense a medicine. And like pure water it is harmless and pleasant.  
Nujol is prescribed by physicians; used in leading hospitals. Get a bottle from your druggist today.—Advertisement.

"Some day your boy Josh will own the old place."  
"Yes," replied Farmer Corntassel; "but I dunno whether I'll make him happy. It seems to me he'd have more time for rest and comfort if he could just qualify as a farmhand, and draw regular wages without no argument."

**T. R.'s WARNING.**  
Theodore Roosevelt, Carnegie Hall Speech, March 20, 1912.  
The leader for the time being, whoever he may be is but an instrument, to be used until broken and then to be cast aside; and if he is worth his salt he will care no more when he is broken than a soldier cares when he is sent where his life is forfeit in order that the victory may be won. In the long fight for righteousness the watchword for all of us is spend and be spent. It is of little matter whether any one man fails or succeeds; but the cause shall not fail, for it is the cause of mankind. We, here in America, hold in our hands the hope of the world, the fate of coming years; and shame and disgrace will be ours if in our eyes the light of high resolve is dimmed, if we trail in the dust the golden hopes of men.

### THE KLAN MAKES ENEMIES.

It is reported that the Harding administration is to make war upon the Ku Klux Klan. As a first step it is expected that the president will endorse E. B. Peady who as an independent democrat is running against Earle B. Mayfield, regular democratic nominee and klan candidate, for United States senator from Texas. It is earnestly to be hoped that the report is true. Already the republican organization in Texas has come out for Peady, the G. O. P. senatorial candidate having withdrawn in his favor.

If anyone needed evidence of the perniciousness of the Klan's activities it was furnished at a convention of the order recently held at Kansas City. "Both men and women," says the news dispatch, "were urged to vote as Americans, irrespective of party, and to vote only for Protestant Americans at the coming election."

This is very interesting advice, its two parts being mutually destructive, a fair sample of the klansman's muddled thinking. First, people are urged "to vote as Americans, irrespective of party," and then they are urged "to vote for only Protestant Americans." Obviously it is impossible to follow both of these pieces of advice, for a voter cannot discriminate against a candidate on religious grounds and at the same time vote as an American. One of the noblest of American principles is that which forbids discriminating against a person on account of race, creed, or color.

If it be true that the Harding administration is determined to fight the Klan, Mayfield, the klan candidate for senator in Texas, might as well give up now even though the democratic nomination which he has is tantamount to election. The Senate is the sole judge of the fitness of its members, and with a republican majority urged by a republican president not to seat Mayfield, his chances of donning the toga would not be worth a cancelled one-cent stamp.

### Northcliffe's Attack on "K."

Frederic William Wile, in Saturday Evening Post.  
Northcliffe considered that his pre-emptive war service was the exposure of Kitchener's personal responsibility for the shells tragedy in 1915.  
He risked his liberty, life and business prosperity by that ruthless attack on the national idol. Asked why he assailed "K" in such hammer and tongs fashion instead of beating the war office instead of beating the war office impersonally, Northcliffe whipped out: "Because you never get anywhere by beating around the bush. You must mention names and fasten blame exactly where it belongs. Kitchener is war minister. It is his duty to see that the army is properly armed, and I said so."  
They burned the Daily Mail on the London stock exchange. Rival papers suggested that Northcliffe ought to be taken to the Tower and shot for high treason. Public libraries banished his publications from their reading rooms. Advertisements were withdrawn and sales dropped by the tens of thousands.  
"Better lose circulation than lose the British Empire," was Northcliffe's comment when the vendetta conducted by Kitchener's hollers was in full swing. Punch printed a scathing cartoon showing John Bull trampling the Daily Mail into the mire.

Yet Englishmen lived to admit that Northcliffe's exposure of the shells tragedy saved the day for Britain. When Northcliffe died the circulation of the Daily Mail was the highest in its history—1,300,000.

### Queen Mary and Mary Queen.

A happy incident marked the visit of the queen to Aberdeen, where she received the honorary degree of LL.D. of the University. Her majesty's engagements included a visit to the Aberdeen Orthopedic Sub-Center. One of the patients at the center is the 13-year-old daughter of a soldier who died in the war. The pensions ministry had sanctioned her admission to the institute, with the view to the cure of infantile paralysis from which she suffers. When her majesty came to the child's cot, the little occupant lifted a bouquet of sweet peas from the coverlet and handed it to the queen. "What is your name, dear child?" asked her majesty. "Mary Queen," replied the girl. The queen naturally imagined that the young patient had misunderstood her question, and was greatly delighted when informed that the girl's name actually was Mary Queen. Patting the child on the head, her majesty smilingly remarked: "A coincidence, indeed, and a very nice name. I am sure you will agree."

England pays \$50,000,000 first installment—of interest—on her debt to America. She will pay all unless sentimentality says "never mind." England owes the money to citizens of this country. If she does not pay, they must pay in more taxes. England owes billions to her own citizens. If any debts must be cancelled, why not cancel the debt that England owes to Englishmen. Instead of the debt she owes to Americans? "Englishmen owning consols would not like that," you say. Quite so, but Americans will not like \$5,000,000,000 of extra taxation. Cancellation should begin at home.

## ENGLAND WANTS TO DRAW COLOR LINE

Influx of Negroes, Largely From U. S., Since War Is Causing Serious Alarm.

BY CHARLES McCANN.

London.—Restriction of negro immigration into the United Kingdom is demanded by "John Bull," in an article which declares both that negroes are responsible for much of the crime in England and that white women in increasing numbers are associating with them.

"American negroes who came over as 'jazz' artists, as well as others who come to England to be educated, remain here, the article charges; some of them to become criminals others to associate with white women. 'If there is one thing more than another about the West End—the white-light district—of London which strikes an Englishman recently returned from overseas with horror and disgust,' the article states, 'it is the enormous number of negroes and Asiatics of assorted tints to be found parading about, and the light-hearted fashion in which so many white girls enter into close relationship with them.'

**Came During the War.**  
"Before the war, these 'gentlemen of color' were few and far between. They were mostly to be found in the neighborhood of the docks, and the only white women who associated with them were drink-sozzled creatures who had sunk to the lowest depths of degradation. Now, these people saunter about dressed up like dandies, and white girls hang on their arms."  
"Poorly paid London shop girls seem to fall an easy prey to some mysterious glamor which appears to surround a black man, but if they knew the truth, they would not have lost that healthy sense of shame at being seen in the company of a negro which was largely a protection to an older generation."

**Many Came from U. S.**  
"Many of these negroes have been imported from America as jazz-drummers and exponents of the barbaric noises which the Yankees are pleased to call music. Others of the colored invaders have been brought here for educational purposes. A very large proportion of them do not return to their homes."

"Some of them may be found in street markets selling quack nostrums. Others, having acquired a medical degree, set up in the poorer districts as cheap doctors, and many of them are under suspicion of making illegal operations their principal source of income. A large number have been convicted of being concerned in cocaine traffic, and there is scarcely a single unpleasant feature of the underworld in which they are not involved."  
"It is high time restrictions were placed on this colored immigration, otherwise the country will be branded with an ever-increasing population of half-castes."

### METHODISTS IN CAMPAIGN TO RAISE \$85,000.

Mitchell, S. D., Oct. 20 (Special).—Methodists in the state are bending their efforts to raise \$85,000 to pay off the indebtedness of Dakota Wesleyan university by Nov. 15. If they are successful in accomplishing this feat, the institution will not only be benefited by a clean financial slate, but it will be able to collect \$25,000 from the national Methodist organization. A state wide campaign has been launched and is being pushed with great vigor. In Mitchell, alone, Dr. E. D. Kohlsted expects to raise \$25,000 of the total \$85,000. At one meeting in the Methodist church 31 units of \$100 each was subscribed in less than 10 minutes.

### FARM BUREAU OFFERS REWARD FOR THIEVES

Canton, S. D., Oct. 20 (Special).—The Lincoln County Farm Bureau has offered a reward of \$100 for the capture and conviction of any one stealing poultry, hogs, harnesses, or any farm products in this county. This action was taken by the executive committee at its meeting on October 12.

### AND THEY GET AWAY WITH IT

Truly, the Female of the Species Is More Fortunate Than the Inferior Male.

Two cases in Judge Chesbro's court. First, the graceless male arrested for speeding after having imbibed two glasses of claret, \$250 or 180 days in jail.  
Second the graceful maiden who drove her limousine into a man, failed to stop and render assistance, bumped into a cab and hit a flivver. And all without a drop of claret. Ten days in jail—suspended.

The graceless male might have done a lot of damage, of course, but actually his guilt was confined to "reckless driving."  
The graceful female did do a lot of damage. But, of course, she never meant to, and she couldn't help it, and she was nervous, and there were tears in her eyes instead of claret on her breath, so there you are!

### In Public Life and in the Home.

"The fact that a man is a favorite son does not prevent an election going against him."  
"True," replied Senator Sorghum; "the public doesn't like to show too much partiality. Sometimes a favorite son meets with the roughest discipline."

Shelley Manuscript in Prize Bag. A copy of a rare pamphlet by Shelley was sold the other day at Sorby's, London, England, for \$6,000. Nothing was said in the sale catalogue of the copy, and that forms one of the little romances of the sale room. It belonged to the late Baroness Burdett-Coutts, and got hidden and unrecognized in a bundle of music and other things in one of the sales last spring of the baroness' literary property. This bundle was knocked down to a London bookseller for less than \$5, and was then passed on, apparently without proper examination, to another bookseller, for about \$50. It was this second owner of the bundle who found that he had indeed drawn a prize.

### COPPER ALWAYS IN DEMAND

Durability of the Metal Has Made It Almost Indispensable for Variety of Purposes.

The many uses of copper may be imagined from the size of the output. It is said that if the United States were to cease producing, either all the trolley cars or all the armies of the world would cease operating, for outside of Michigan and Montana there is not enough copper in existence to supply both.

In the building trade copper is in great demand on account of its durability. At first glance the amount of copper seems to be negligible in comparison with iron and steel. It is used for such things as roofing, flashings, cornices, gutters, drain pipes, leaders and ventilators. There are nearly all copper in the large office buildings. In the Woolworth building, in New York, which is today the world's tallest skyscraper, there is approximately a million pounds of copper used for roofing, elevators and interior decoration.
