Deer and antelope again are becoming numerous in northern Nebraska. Val C. Liska, residing five miles southeast of Niobrara in Knox county, is the latest to capture a deer. Wednesday while hunting coyotes along the Niobrara river bottom, with a pack of hounds, the dogs got up a deer and soon surrounded it. Liska then roped it and tied it to a tree, then went home after a wagon, removed the animal to his home and notified the authorities. The animal was uninjured. It is thought to have escaped from the Valentine game reserve or to have come down from the Black Hills. The small flock of antelope ranging in southwest Holt county last fall and winter also have been reported seen again this fall.

Mr. and Mrs. Hare arrived in Antioch last Saturday morning in their car, having made the country east to Bingham in the campaign. Mrs. Hare was making for County Superintendent. On account of the hard rainfall all day, they had to remain all day in town. While Mrs. Hare was visiting around among the ladies, Mr. Hare visited in this office giving an account of the big crops raised over in his section of the county. He has 2,000 bushels of corn in the field waiting to be picked, his other crops having been harvested. He says that all through that part of the county crops were very fine this year. Jules Sandoz, Jr., has 200 acres already in fall rye with a fine stand. His crops harvested this year yielded abundantly and he is doing fine. His father, Jules A. Sandoz, recently purchased from the Spade Ranch people a tract of 1,000 acres of land in what is known as the old Fourinch Ranch and which added to his present landed possessions gives him a large farm and ranch. Mr. Hare says that all that has been published relative to the splendid fruit farm on the Sandoz place is all true and that the facts have not been exaggerated. Each passing year makes it more certain that the extension of the O'Neill line of the Burlington west, which passes through this section, will open up a territory that the Platte Valley country cannot excel for richness in production.—Antioch News.

# P. J. McManus Store

TO GIVE THE FOLLOWING DEMONSTRATION

# Monday November 27

To those of us who really care about our appearance, it is important that we should understand the unmistakable Fashion tendency toward "personalized styles."

Gossard artistry introduced the idea of classifying women into nine ideal figure types and using this classification as the designing fundamental to create special corsets for their varying needs.

Gossard TYPE CORSETRY is an unfailling foundation for becoming dress and this special demonstration by an accepted style and corset authority is truly important to every woman who would make the most of her personal charm.

#### THANKSGIVING AT EMMET.

The Catholic Societies of Emmet will give another of their successful dances on Thanksgiving night. The O'Neill band orchestra of five pieces will supply the music and this in itself should be an attraction as this orchestra is recognized as the best in this section of Nebraska. The Emmet hall building is not an architectural beauty yet every dancer will admit that the old host has the best dance floor in Holt county. Emmet is preparing to make this dance a real success as it will be the last dance until after Christmas. Coffee and sandwiches will be served and a genuine Thanksgiving dance is guaranteed. \*\*\*
