Men Are Like That,

My husband and I, while dining at a cafe, saw a young woman acquaintance who is not only extremely homely, but who has unattractive manners. We discussed her quietly.

Later we went to call on a distant relative of this girl, and I mentioned that we had seen her at dinner. The girl was not a favorite with my hostess and both of us proceeded to enumerate her shortcomings. My husband is deaf and had been paying no attention to our gossip.

Suddenly he turned to our hostess and said: "We just met Marian, and my wife declares she looks and acts enough like you to be your daughter." You can imagine what I said to him

CUNO FORMS NEW GERMAN CABINET

Ministry Composed Wholly of Non-Socialists Expected to Be Short Lived.

Universal Service.

Berlin, Nov. 20 .- In the face of the opposition of 178 socialists in the reichstag, who for several days have sabotaged all efforts to get a new government to gether, Dr. Cune tonight patched up a cabinet wholly of non-socialists. A short life is predicted for it.

At 10 o'clock tonight Dr. Cuno held a conference with President Ebert and presented a list of the cabinet which, according to unofficial but reliable information, consists of the following men:

Dr. Friedrich Sthamer, present ambassador to London, as foreign min-

Universal Service Correspondent. Munich, Bavaria, Nov. 20.-The first conflict between the Berlin government and the German fascisti headed by Adolph Hitler, has occurred.

Worried over the rapidity with which the national socialist movement (as the main branch of Germany's fascisti is known) is growing, the national German government last night intervened for the first time against the movement.

The Berlin government ordered fascisti meetings at Hamburg and Hanover suppressed and ordered that the special train which had been granted to Hitler and 600 of his shock troops" be cancelled, Hitler had planned to move the troops from Munich to Regensburg last night with the intention of holding a meeting there.

Government Offers Alibi. The central government offered as an excuse for its action that the railway workers threatened a general strike if the special train was not cancelled forthwith.

Hitler reviewed his defeated "shock troops" in a pelting rain in Munich streets and in a flery speech promised them that next Saturday would find them "masters of Regensburg" and that "neither the communistic terror nor the Berlin government will prevent us." His declaration brought forth wild

cheers. Form "League of Patriots."

All the nationalist groups in Bavaria have now united in a "league of patriotic societies." Skyrocketing prices, the inability of large numbers of people to purchase sufficient food, the consequent hunger, and the passive attitude of the Berlin government toward outrageous profiteering, together with feuds inside the various political parties, are all working into the hands of the fascisti and similar groups.

*+++++++++++++++ **CUNO NEAR DISCOURAGED** AT TASK IN GERMANY

Berlin, Nov. 20 (A. P.)-Nearly a week has passed since the cabinet of Chancellor Wirth resigned and the ministrial crisis is considered still far from settled. When Herr Cuno accepted the task of constituting a new cabinet of work, as he described it, it was hoped he would have all the portfolios, or at least the most of them, filled by today, but much difficulty has developed that it is believed likely he may even abandon the effort altogether.

HARDING PROGRAM FACES OPPOSITION

Independents in Senate Prepared to Fight Subsidy at Session Opening Today.

BY JAMES R. NOURSE,

Universal Service Correspondent. Washington, Nov. 19 .- For the first time in the life of the Harding administration, the president and his advisers face a bitter fight in both Senate and House as congress prepared tonight to assemble at noon tomorrow in extra session, convened by the executive to consider the ship subsidy bill.

On the issue of the subsidy alone, the president is virtually fighting with his back to the wall against a recalcitrant minority in the House and against the group of independents led by La Follette, Borah, Cap-

per and Norris in the Senate. In the House attempts to impeach Attorney General Daugherty will be revived by Representatives Keller and Woodruff, both of whom were triumphantly re-elected over the efforts of administration leaders to defeat them. The renewal of the fight on Daugherty will be another source of annoyance to the president and his immediate supporters.

The growth of the independent movement as a result of the recent election is certain to provide considerable embarrassment to the success of any legislation favored by the administration leaders.

While none of the independents recently chosen will be in the Senate at the extra session, with the single exception of Smith Brookhart of Iowa, the plans of the independents for taking control in the 68th congress will be in process of formation, and the independents now in the Senate will assume an attitude of opposition, biding their time for the larger share of control which they will have when all of their number shall have been seated. This will come whenever the 68th congress assembles.

Harmony Prospect Dim. For all these reasons, and because of startling overturn of republican majorities in the late election, prospects for harmony in the extra session are lacking. The administration realizes that gloomy times are ahead. Defeat threatens some of the most favored of the administration measures, while the chances are that some of the important appropriation measures will be blocked before the March adjournment, and the president then will be forced to summon the 68th congress into extra session, which will give his opponents in the independent group their opportunity long before the allotted time.

The formalities of the opening session tomorrow will be brief. Both Houses will adjourn early out of respect to members who have died since the last session.

Tuesday will be given over to hearing the president's message on the ship subsidy bill, which is the primary reason for which the session has been called. The message probably will be delivered in person before a joint session.

'TIGER' AND 'JACK' CHAT HALF HOUR

Clemenceau Receives General Pershing and Other Callers -Guest Sunday of Otto H. Kahn-At Roosevelt Grave.

Universal Service,

New York, Nov. 19.-Georges Clemenceau," the "tiger" of France, today spent an active Sabbath, the first of his American visit. He arose at 6 o'clock this morning after a comfortable night's rest at the home of Charles Dana Gibson, the artist.

After a simple breakfast he rested until the arrival of Gen. John J. Pershing at 10 o'clock. The two men chatted for about 30 minutes until General Pershing left the Gibson

Davis and Baruch Call.

Another caller at the Gibson home to see the "tiger" of France, was John W. Davis, former ambassador te Great Britain, and president of the council of foreign relations. A few minutes after he left Bernard Baruch, an old friend of Clemenceau, arrived

and chatted several minutes. Some conception of the "tiger's" brimming energy may be gained from a statement made by his secretary following the flood of telegrams and letters of congratulation and welcome to France's hero.

"M. Clemenceau," the statement reads, "has received many letters and telegrams welcoming him and extending him many sincere wishes. He has insisted upon reading every message received, but finds himself unable to reply to each. He sincerely thanks all his friends and wellwish-

ers for their kindness." The pary left the house in automobiles at 11 o'clock escorted by a detail of motorcycle patrolmen. In the first car accompanying M. Clemenceau were Col. E. M. House and Col. Stephen Bonsal. Others in the party included Mr. and Mrs. Charles Dana Gibson, Mrs. E. M. House and

Otto Kahn and his family. Retires at 8 o'clock.

Obeying a rule of a lifetime, Clemenceau retired at 8 o'clock last night after a strenuous day, which included his reception, a parade, a visit to the Metropolitan Opera House and a tour of the American Museum of Natural History.

He had luncheon today at the Long Island home of Otto H. Kahn and after a ramble about the estate left for Oyster Bay, where he placed a wreath on the grave of ex-President Roosevelt.

M. Clemenceau returned to New York this evening and tomorrow will give the most of his time to the preparation of his address to be delivered at the Metropolitan Opera House Tuesday evening. He is scheduled to leave New York for Boston, Wednesday or Thursday, where he will continue his speaking tour.

Despite his age, M. Clemenceau seemed to enjoy every minute of his first day in the United States after an absence of half a century. He was on the bridge of the steamship Paris shortly before 6 o'clock in the morning and had few idle moments until he went to bed 14 hours later.

Refuses to Be Quiet. In the afternoon he refused to carry out his prearranged program of remaining quiet. After luncheon he discussed politics for a long time with Col. House, and then decided that he would like to visit the hall of mastadons in the museum of natural history, containing so many specimens in which his old friend, Col. Roosevelt, was interested. He spent 45 minutes there, with no apparent fa-
