

AILING WOMEN OF MIDDLE AGE

Mrs. Linton Tells How Helpful Lydia E. Pinkham's Vegetable Compound is at This Period

Denver, Colorado.—"I have taken Lydia E. Pinkham's Vegetable Compound for seven years and I cannot tell you the good it has done me. It is good for young and old and I always keep a bottle of it in the house, for I am at that time of life when it calls for Lydia E. Pinkham's help. My husband saw your ad. in the papers and said 'You have taken everything you can think of, now I want you to take Lydia E. Pinkham's Vegetable Compound!' So I let him get it, and I soon felt better and he told me 'I want you to take about six bottles.' So I did and I keep house and do all my own work and work out by the day and feel fine now. I tell every one about the Vegetable Compound, for so many of my friends thought I would not get well."—Mrs. R. J. LINTON, 1850 West 33d Avenue, Denver, Colorado.

After reading letters like the above, and we are constantly publishing them, why should any woman hesitate to take Lydia E. Pinkham's Vegetable Compound if she is in need of help? It brings relief where other medicines fail.

Airing Her Secret.
One evening I was to have a young man caller. As I didn't have a new dress and couldn't wear my old one, I finally succeeded in borrowing sister's.

I was all ready and sitting in the parlor when he arrived. He at once remarked about my new dress. Everything went lovely until my little sister came in and said, "Oh, did Eve tell you you could wear her dress?"—Exchange.

FREEDOM FROM LAXATIVES

Discovery by Scientists Has Replaced Them.

Pills and salts give temporary relief from constipation only at the expense of permanent injury, says an eminent medical authority.

Science has found a newer, better way—a means as simple as Nature itself.

In perfect health a natural lubricant keeps the food waste soft and moving. But when constipation exists this natural lubricant is not sufficient. Medical authorities have found that the gentle lubricating action of Nujol most closely resembles that of Nature's own lubricant. As Nujol is not a laxative it cannot gripe. It is in no sense a medicine. And like pure water it is harmless and pleasant.

Nujol is prescribed by physicians; used in leading hospitals. Get a bottle from your druggist today.—Advertisement.

When the Chaplain Was Ump.

The colored troops were playing baseball. The chaplain was umpire. The pitcher threw a high one and the chaplain yelled: "One strike!"

The batter thereupon turned to him and remarked:

"Mr. Chaplain, you're done judging dem balls wid your spiritual eye."—Everybody's Magazine.

WOMAN LIKELY TO GET SENATE SEAT

Mrs. W. H. Felton Probably Will Become Today First Woman in U. S. Senate.

BY WINDER R. HARRIS, Universal Service Correspondent. Washington, Nov. 20.—Upon the unsettled question as to whether or not some member of the senate will interpose an objection, depends whether Mrs. Rebecca Latimer Felton of Georgia will be permitted to take the oath and qualify tomorrow as the first woman senator.

The best opinion tonight among senate leaders is that no objections will be offered and that Mrs. Felton will be seated. Mrs. Felton herself expressed confidence that technicalities will be waived and that she will be accorded the privileges of a senator for just one day.

Senator Lodge, Curtis, Smoot and others are disposed to look with disfavor upon any republican senator who would object to giving Mrs. Felton her seat for this brief period. At the same time they admitted they could not control the actions of the entire senate. If an objection is made by any senator, the entire matter will end and it will be the duty of Senator Elect George to present his credentials and take the oath. On the other hand, unless some senator does object, Mrs. Felton may be permitted to take the oath and have her name entered on the roll as senator.

Convened at Noon. Called together by President Harding for the primary purpose of passing the ship subsidy bill, both houses of the congress convened at noon today. A quorum of each house was present, 81 in the Senate and 291 in the House. Vice President Coolidge and Speaker Gillett officiated in their respective places.

"Among those present" in the Senate and House were a great many members whose names will not appear on the rolls after the present congress passes into history. For discriminating constituencies have retired them from these halls of fame, and all of them will be absent, some of them missed when the next congress assembles.

Brookhart "Drops In." Several of the newly elected senators dropped in to look things over and find out how it would feel to be a real senator. Among them were Bayard, of Delaware, sixth in the family line to sit in the Senate, and Brookhart, of Iowa, successor of Kenyon, and cantankerous thorn in the flesh of the old guard. They stayed just long enough to absorb some of the ponderous atmosphere which has ever made the Senate a slowly moving body.

In conference between Senate and House leaders and White House officials it was arranged definitely for President Harding to take his message to the capitol tomorrow in person, appearing before a joint session in the hall of the House at 12:30 P. M.

Both parties, as the result of the startling upsets in the last election, will use the special assembly and the sessions to follow as a battleground for the presidential campaign of 1924.

Ship subsidy appropriation bills, attempts to revive the bonus and to amend the prohibition laws, are to feature the special session.

"Wets" lost no time in launching their fight for enactment of a soldiers' bonus bill, to be paid for by a tax on legalized beer.

"Wet" Bill First. The first bill introduced in the House was one by Representative John Phillip Hill, Maryland, republican, proposing re-enactment of the adjusted compensation measure killed by presidential veto last summer.

He suggested a 20 per cent. per gallon levy on 2.75 per cent. beer and cider to raise the necessary funds.

Representative Britten, Illinois, republican, announced he would introduce a similar bill.

The usual committees were named in both houses to notify Mr. Harding that in obedience to his summons, congress was in session, organized and ready for business.

CLEMENCEAU DOESN'T WANT AGE PROLONGED

"Let Human Beings Die in Happiness," He Tells Physician.

BY A. L. BRADFORD, United Press Correspondent.

New York, Nov. 20.—Georges Clemenceau, visiting ex-premier of France, does not want his present ripe old age of 81 years prolonged by artificial means. He so told Dr. Francois Leclercq, a New York physician and old friend, today at the home of Charles Dana Gibson, where he is staying.

In a characteristically ferocious manner, Clemenceau said to Leclercq when the latter began to tell him of some discoveries of medicine for prolonging life: "You keep quiet or I will kill you. Treat the snakes and dogs if you want to, but let human beings die in happiness."

Clemenceau was greeted at the door of the Ritz Carlton today by Cecile Sorel, French actress, who kissed him warmly.

PROBING EXPRESS RATES.

Washington, Nov. 20 (A. P.)—A general investigation of present express rates to determine their reasonableness was begun by the Interstate Commerce commission today. The investigation follows a denial by the commission of a petition by the American Express company to reduce its rates.

"Now boys, I have a few questions to ask, and I want to hear from each of you," said the teacher. "Suppose I have a piece of beefsteak and cut it into 16 pieces, what would those pieces be called?" "Sixteenths," answered one boy, after meditating a moment.

KU KLUX SCARE FADES SWIFTLY

Louisiana Congressmen Say Governor Is Seeking Notoriety by Klan Attack.

Universal Service. Washington, Nov. 20.—The sensational Ku Klux Klan scare brought to Washington today by Governor John M. Parker of Louisiana, by night had dwindled into a state political row.

A White House statement issued after the visit from the Louisiana executive was to the effect that information for federal intervention had not developed.

While Governor Parker was stating his case to President Harding, members of the Louisiana delegation in congress bitterly denounced his allegations of Klan dominance as a reflection on their state.

They made the charge that Governor Parker is seeking political capital through an attack on the Klan and that conditions are not as he represented them. They state also that the governor has full authority to cope with a situation such as he has described and is in no way justified in appealing to the federal government.

Governor Explains. Governor Parker himself took much of the "scare" out of the published reports. He admitted that he came to Washington to lay the Klan situation before the government, but explained it by saying that he only did so in an effort to have the government look into interstate ramifications of the Klan.

Attacks on him by congressmen "who are not posted and do not know the situation," he said, will not deter him from going on with his fight to suppress the Klan, but this, he declared, is a matter that the state can well handle without aid from the outside.

Gov. Parker declined to state specifically what phase of the situation he had submitted to the department of justice and to what extent he had requested its assistance. Accompanied by Attorney General Daugherty and Louisiana Attorney General Cocco he held a long conference with President Harding. Mr. Daugherty said:

"The state authorities of Louisiana appear at this time to be fully capable of handling any situation within their jurisdiction. There is nothing at this time for the federal government to do except to give assurance to the state authorities that wherever federal interests are involved the federal authorities are ready to extend full co-operation."

IMPEACHMENT DEMANDED.

Universal Service. Hammond, La., Nov. 20.—Demands for the impeachment of Gov. John M. Parker for his reported appeal to President Harding for assistance in curbing the Ku Klux Klan were made here tonight at a citizen's mass meeting.

A resolution adopted said that Governor Parker is not big enough to handle the situation. The governor's visit to Washington to interview the president on the question was assailed as "unnecessary."

SUITS AGAINST KLAN PLANNED BY ALLEN

Ku Klux Public Officials in Kansas to Face Ouster Proceedings.

Universal Service.

Topeka, Kan., Nov. 20.—Ouster suits against every public official in Kansas known to be affiliated with the Ku Klux Klan will be filed within 24 hours, according to sources close to Governor Henry J. Allen. The governor, it is said, intends to make the drive the most drastic ever attempted against a secret organization.

Kansas, a strong republican state, has been split wide open by the Klan issue. Kansas elected a democratic governor in the November 7 election after W. Y. Morgan, the republican nominee, had denounced the Klan.

Scores of judges, sheriffs and other county and state officials are said to be identified with the Klan movement. It is against these that the governor proposes to bring suit.

OKLAHOMA GOVERNOR HOTLY DENIES CHARGES

OKLAHOMA GOVERNOR HOTLY DENIES CHARGES

Universal Service.

Oklahoma City, Okla., Nov. 20 (A. P.)—Branding as a "dastardly and damnable lie," charges filed in district court at Okmulgee, Okla., Saturday night, against Governor J. B. A. Robertson, alleging that he released a murder convict from the state penitentiary "to kill the county attorney of Okmulgee county." The chief executive Sunday bitterly denounced the public official who has "stooped so low," as to make the charge.

The charges were made in the fight of County Attorney James Hepburn to set aside the change of venue to Ada county for hearing on bribery charges against the governor, who is under indictment for alleged acceptance of a bribe to allow a defunct Okmulgee bank to continue in operation. The hearing is continuing at Okmulgee today.

SULTAN REACHES MALTA.

Malta, Nov. 20.—Mohammed VI, sultan of Turkey, arrived here today on board the British battle cruiser Malaya. The sultan fled from his palace in Constantinople last Friday after being deposed by the Angora government. The sultan stated he had not abdicated, but was merely "avoiding danger."

Made for Any Waist.

Cook—"Twas a cruel blow, mum, that burglar makin' off with all yer silver."

Mistress—Yes, Mervy, but the arm of the law is long.

Cook—It is indeed, mum, an' there's few knows it better nor I do.

Chef Had Plenty But He Could Hardly Eat

Even an expert chef for an up-to-date restaurant, with everything heart could wish in the eating line and the skill to prepare it in the most appetizing manner, finds life miserable and work a burden with his appetite gone and his health all broken up on account of stomach trouble.

According to his own statement, such had been the case for two years with William Lackey, 865 North Wells St., Chicago, Ill., chef at a popular North Clark St. restaurant, who says he recently found relief by taking Tanlac.

Mr. Lackey now boasts of a "wonderful appetite and a stomach that digests such things as ham and eggs, corned beef and cabbage, and rich pastries, foods that would have almost put me out of commission before I took Tanlac."

"Before I ran across this medicine," said he, "I was having to lay off from my work for a week at a time just on account of the numerous ills I suffered from indigestion. But when I tell you I have gained fifteen pounds, eat and digest anything, and am on the job every day feeling fine, you may know how I appreciate Tanlac."

Tanlac is sold by all good druggists.—Advertisement.

First Catch Your Man.
The Visitor—Is your oldest sister married—the one who was so proficient in all branches of domestic science?

Philippa—No, nor likely to be. She was so busy fitting herself to be the wife of a good man that she neglected to go after the man.

MADE HER GRIEVANCE PLAIN

Woman Annoyed When Male Escort Got the Benefit and She Received the Abuse.

A woman had annoyed many people who were waiting in line for tickets on a Saturday afternoon at a railway station. The woman had come up at the other side of the window, and though she had been told to get in line, she had put down her money for two tickets and had obtained them at once.

"Just like a woman," muttered some of the men in line. But the woman turned to the man she had just joined and burst forth audibly:

"I don't think it's fair, Jim. You make me do that horrid trick of trying to beat the line because you say men never do such things. And women get the abuse. But I bet that every woman who does that has a man somewhere in the crowd who has insisted that she hurry."

Invention Tests Air.

The Paris-London air service has an ingenious instrument for measuring the depth of fog above the starting place at Croydon or Abbeville, and so to determine whether there is clear, dry weather a few hundred feet up. The instrument, which is based on the property of human hair of contracting sharply on passing from wet to dry air, consists of a hair attached to a trigger that holds a ring. The instrument is sent aloft with toy balloons on a string; as soon as it reaches dry air the hair contracts, pulls the trigger, and down comes the ring on the string.—Youth's Companion.

MADE HIM FEEL THE COLD

Young Man's Excellent Exemplification of the Power of Mind Over Matter.

The power of mind over matter has been discussed since mankind found itself.

Epictetus, the Roman slave, knew much about it; so did Marcus Aurelius; Bishop Berkeley of England had his theory; in our day and country it has been made much of by many persons. The latest advocate is Emile Cote, the French exponent of auto-suggestion.

Examples of this influence may be discovered anywhere.

In an elevator, for instance, two young men were discussing the weather.

"Pretty cold this morning," said one. "Not so cold," declared the other, throwing out his chest.

"It was 36 degrees by my thermometer," said the other.

"Gee!" shivered the second. "If I'd a known that I'd a put on my overcoat."

Defense Against Airplanes.

Beams of fire as a means for rendering airplanes useless as weapons of war is the invention of a Yorkshire (Eng.) research chemist. He claims to be able to destroy hostile aircraft flying as high as five miles by means of huge flames of fire whose terrific heat will dissolve the steel structure of a plane. He proposes to project the beams or flames somewhere in the same fashion that a ray of light is projected by a searchlight. Instead of the ray shooting into the heavens, a beam of fire which can ignite the object against which it is directed will be under control. The liberation or ignition of this gas will consume all the aircraft over a wide area and in varying altitudes.

How much sleep do you need?

IT isn't so much a question of the number of hours you spend in bed, as it is of the quality of the sleep you get. Is your sleep sound and restful, or is it fitful and unrefreshing?

One common cause of wakefulness at night is over-stimulation from coffee drinking. For coffee contains caffeine which irritates the nerves and frequently leads to insomnia.

If you have any idea that coffee keeps you awake at night, or makes you nervous, make a change from coffee to delicious Postum.

This pure cereal beverage contains nothing that can harm health, and its flavor is much like coffee. In fact, many people prefer Postum for its flavor alone.

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer to make the drink while the meal is being prepared; made by boiling fully 20 minutes.

Postum FOR HEALTH
"There's a Reason"

Made by Postum Cereal Company, Inc. Battle Creek, Mich.
