

"My feet feel as they did when I was a little girl!"

THAT is what one woman said after wearing the ARCH PRESERVER SHOE for three months.

It will do as much for you. Will prevent that needless tiring of your feet. Will keep them well, strong, vigorous, happy. Yet you can wear just the style you wish.

The ARCH PRESERVER SHOE looks like any regular good shoe. But your foot immediately feels the difference. Of course, it also relieves all ordinary foot troubles.

"KEEPS THE FOOT WELL"

Unless this trade-mark appears it is not a genuine ARCH PRESERVER SHOE. The exclusive arch construction offers firm support for the foot during the entire life of the shoe and gives the shoe longer life. There is a "walking base" underneath the entire foot.

THE ARCH PRESERVER SHOE

B. F. Bigelow, of 1913 Jackson Ave., Des Moines, Iowa, is one of the many new subscribers to The Frontier, having just recently attained that distinction. Mr. Bigelow was a resident of O'Neill a number of years ago. After reading an issue of The Frontier he writes: "I received the paper and it did me good to see the old Frontier again. I see that you still have a band; I played in the first band that O'Neill had, Fred Herre, as leader; those were days of real sport, about 1885. There are not many there now that were there when I lived in O'Neill, the only name that I saw that was familiar was Biglin."

A special rate of only \$2 a year for the Lincoln Daily Journal or \$3 a year including Sunday is now being made in Nebraska and adjoining states, if order is sent in during December. The legislative session and the battle for lower taxes the coming year will make The Journal desired by every Nebraska family. The Journal is delivered on most rural routes on the day printed, nearly a day ahead of most other papers. Try The Journal the coming year at this Bargain Rate.

Lincoln Track Review, Dec. 16.—Mr. John J. Hynes, the inventor, and Mr. C. M. Daly, secretary of the O'Neill Commercial Club, are preparing to market what will be known as the "Hynes" rubber work mitten and glove. The invention comes as the result of an experiment in using husking mittens made of old rubber tubes in lieu of the usual cloth mitten for corn husking in the section. The result showed that these crude rubber mittens outlasted a good many pairs of cotton flannel mittens. The inventor has provided for ventilation in the back of the rubber mitten to ward against too much heat when working. The mittens being of rubber, also keeps the hands dry when husking corn in damp or snowy weather and offers added protection against burrs and weeds.

Where The Price Is Right

The Knights of Columbus expect to put on a comic opera some time in January. An instructor has been employed and the cast will be arranged in the near future.

Announcement of the slaying of C. T. Linton, currency guard for the Denver Federal Reserve bank, who was killed when bandits held up a truck last Monday in which currency being transported from the federal reserve bank to the Denver mint for safe keeping was received by Judge Thomas Carlon of this city with sorrow. Mr. Linton was for years court clerk to Judge Carlon while the latter was on the bench in Denver, and the two men were intimate personal friends. Two sons of Mr. Linton are noted actors and both were on the stage, one at Scranton, Pennsylvania, and one at Indianapolis, when they received telegrams announcing the murder of their father. Both finished their turns, which happened to be comedy ones, rather than to disappoint their audiences and the latter were not aware of the great sorrow so suddenly visited upon the laugh makers. Immediately after the conclusion of his show Harry Linton left Scranton for Denver to attend the funeral. Thomas Linton, who heads his own show at Indianapolis, was unable to attend the funeral because of a twenty weeks contract from which he could not be released.

Winter and T. V. Golden are twins. Both began on December 22 and both will celebrate their birthday anniversary Friday, which day is also distinguished as being the shortest one of the year. But a day which is the anniversary of two important events doesn't need to be so very long. Mr. Golden isn't the only one of the Golden family with an unusual birthday. When Parnell Golden arrived on earth a number of years back it was along close to midnight, in fact so close that it was very doubtful whether it was a few seconds before or a few seconds after 12 o'clock, and because of this it developed on T. V. to make the official decision as to the exact time. The decision to be made was far more important than it would ordinary seem, because the month happened to be July. If T. V. decided that Parnell was born before midnight it meant that his birthday would be July 12, Orangenmen's Day. If he fixed the time as after midnight it meant arriving in this world on the thirteenth of the month, which also was Friday on that particular year. After weighty deliberation Mr. Golden decided that there was nothing to the silly superstitions about Friday and thirteen, so Parnell was born at 12:01 a. m., Friday, July 13. The anniversary falls on the same day of the week this year, so a mathematician should be able to figure Parnell's age.
