## DODGE BROTHERS MOTOR CAR

Few days are too cold for comfortable driving in this sturdy car.

Snug-fitting curtains, which open and close with the doors, afford complete protection from wind and snow.

The carburetor and starter are famous for their prompt and dependable response on cold mornings.

Cord tires, with safety treads, act as a safeguard against skidding, and greatly reduce the possibility of having to change tires in disagreeable weather.

## ARTHUR G. WYANT

O'NEILL, NEBRASKA

Holt County? Abundance of sunshine, fine roads for an auto ride, in fact we have the flowers—in the house.

We are advised that a case of hog cholera in the northeast part of the county was the source of a loss of 200 hogs. The herd was not vaccinated until affected by the disease. If swine

breeders are interested in vaccination it is very poor policy to delay until the disease breaks out in the herd. The same is true relative to cattle with "Black Leg."

Floyd and Arthur Wertz advises that they have contracted carpenter work that will occupy the time during

the winter. It appears that substantial farm improvements are a strong indication of a more healthy condition of money matters. We are inclined to think to apply conservation would be an effective remedy to bring about conditions that are more conducive to prosperity.

## Happy New Year!

HERE'S real delight in being sentimental now and then; in opening one's heart; in anointing one's soul with the oil of kindness; in passing along a part of the happiness one feels.

It is good to be alive at the holiday season; to share our joys with others; to increase our happiness by giving a part to those who may have less.

In this joyous holiday season we hope your cup may be filled, and that prosperity, happiness, and good cheer may be yours throughout the coming year.
