Tomorrow, January 12th, the thirty-fifth anniversary of the big blizzard of 1888, will be celebrated. In making a summary of those trying days we find that there are but a comparatively few people living in O'Neill today that were living here at the time of the big blizzard. We might also add that a very large per cent of the population of this city were not born at that time. There are a few of the old settlers of the county who can relate thrilling stories of their experiences and their fight for life while lost in the storm.

Senator B. E. Sturdevant of this district, has introduced a bill in the senate asking for a 10c bounty on crows. Representative Oswin Keifer of Nucholls county has introduced a similar bill in the house. All farmers and those who wish to exterminate the crows should get squarely behind these legislators and help them pull the bill through. Everyone interested should write their sentiments to these men or to their representatives in the legislature. The more letters that are written along this line the better chance they will have to get the bounty.
