Grippe

Physicians advise keeping the bowels open as a safeguard against Grippe or influenza.

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

CITIZENS OF TOWN SEIZED BY HUNDREDS

Prisoners Removed From City—Additional Rhine Cities Occupied—British Labor Party Discloses Policy on Ruhr.

Universal Service. Special Cable Dispatch.

Essen, Feb. 26.—Two French freight trains which were being worked without switchmen collided Monday just outside of Coblenz. Several of the French trainmen were injured.

A number of French army automobiles, which constituted the principal freight of the trains, were demolished.

Seven hundred arrests were made at Bochum Monday, the prisoners being taken to Hattingen. Bochum has been entirely isolated from the surrounding country.

Occupy More Towns.

The French Monday occupied several additional towns along the Rhine, including Caub, Bachrach and Lorch. Monday's seizures give them complete control of the rail system on the right bank of the river from Mayence to Coblenz.

There is declared to be much insubordination and mutiny among the French occupying forces, particularly at Duisburg.

LABOR PARTY STARTS MOVE.

Universal Service. Special Cable Dispatch.

London, Feb. 26.—The labor party's policy regarding the Ruhr was disclosed Monday by a resolution which will be proposed in the House of Commons by Ramsay MacDonald, party leader.

The resolution provides for the appointment of a committee representing all parties to meet similar committees appointed by the chambers of deputies of France and Belgium. The joint committee of the three parliaments would then deal with the problems of security and reparations.

The laborites have asked the French and Belgian socialists to introduce similar resolutions as a step toward a peace which will not be militaristic.

Yank Weds German Bride Under Dutch Flag; Happy In U.S.

Los Angeles, Cal., Feb. 26 (A. P.)—Immigration laws were responsible for the expected wedding today on the Dutch motorship Dinteldyk in Los Angeles harbor of Fraulein Mila General, of Treves, Germany, and Damon E. Brodie, overseas veteran, of Long Beach, Cal.

Immigration officials told Brodie they would not permit Fraulein General to land on American soil unless she was married to him and therefore became an American citizen and the Los Angeles clerk refused to issue him a marriage license unless his prospective wife accompanied him to the license bureau.

Then entered Radion Captain Heys, veteran skipper of the Dinteldyk on which Fraulein General is a passenger and due here today, who suggested a way out. He said he would perform the necessary ceremony aboard the vessel over the flag of The Netherlands if Brodie would board the Dinteldyk today and Brodie said he would. And now they are happy in the United States.

REPORT BIG MAIL THEFT

New York, Feb. 26 (A. P.)—Theft of thousands of dollars of registered mail from a New York Central train between Syracuse and Albany several days ago was reported by authoritative sources today. The robber, it was said, was similar to that in Grand Central Terminal Sunday.

The robbers, it was said, evidently worked at leisure in the registered mail, rifling the packages and casting the wrappers out of the windows. Later, track walkers found wrappers strewn along the right-of-way, many of which, it was said, bore European addresses. The robbed train was east bound.

GERMAN GROUPS CLASH ON POLICY

Socialists See Menace in Reichwehr and Want Troops Disbanded—Nationalists Active.

BY KARL H. VON WIEGAND, Universal Service Correspondent. Special Wireless Dispatch.

Berlin, Feb. 26.—The secret nationalistic groups, ignoring the government decrees ordering them to dissolve their organizations, continue their activities and threaten to divide Germany into two vast political camps, with the socialists and pacifistic elements on the one side and the nationalists on the other.

The socialist faction of the reichstag meets Tuesday noon to discuss whether Minister of National Defense Gessler should be overthrown.

Charge Army Is Menace.

Some go so far as to demand that Germany's whole army of 100,000 known as the reichwehr, be dissolved. The socialists charge that it is useless as a defensive force against a foreign foe, and that as a domestic institution it is constantly a menace to the republic because of its nationalistic tendencies.

Deputy Levi introduced a resolution in the socialist party group in the reichstag to strike Dr. Gessler's salary from the budget. The move will be debated Tuesday noon, and if it should be accepted by the party the resolution will then be introduced in the reichstag itself and the socialist war of the national guard will be on.

Radicals Suspect Minister.

Dr. Gessler is charged by the radical wing of the socialists with failing to break up the relations between the reichwehr and the secret nationalist group with fascist tendencies, with inability or lack of desire to check his generals from making propaganda for a war of revenge against France.

On Friday the Prussian socialist minister of the interior, Severing, called all the provincial presidents to Berlin for a conference.

Very significantly it was followed by Minister of Defense Gessler calling all the generals commanding the defense districts to Berlin for a council.

Socialists Excited.

This, together with the action of the general commanding the Breslau district sending out an order for the authorities of that district to furnish him immediately the enlistment lists and other information of a military character, has greatly excited the socialists.

Minister of the Interior Severing is reported to have demanded that Dr. Gessler remove the Breslau general, but Gessler refused, he reports say.

Karl Radek is reported to be in the Ruhr in personal charge of communistic propaganda among the French troops.

The mutinous actions reported among the French are alleged to be due to the work of Russia's chief propagandist.

While this report cannot now be confirmed, the information comes from sources in close touch with the third international.

FORD HEADQUARTERS OPENED IN CHICAGO

Manager McDonnell, Republican, Announces Plan for Independent Candidacy.

Chicago, Feb. 26 (U. P.)—National headquarters for the Ford presidential campaign were opened in Chicago Monday.

Official announcement by the officers of the various committees will be made the latter part of the week, Patrick E. McDonnell, manager of the offices, declared.

"Henry Ford doesn't know this movement exists," McDonnell declared. "We haven't had any communication with him."

"Speaking only for myself, the idea is to go ahead and perfect an organization to run Ford for president on an independent ticket. If my wishes are followed we will make no attempt to get the democratic or republican nomination for Ford."

McDonnell is a republican.

Universal Service.

William Kenschla, said to have been a leader in the organization, was killed. Five bullets pierced his body. Officials of the union claimed he was not a member of the organization.

Three other men are known to have been wounded. The shooting is said to have followed an argument over an assesment of dues.

SINGS WITH JOY WHILE AT WORK

Mrs. Banes Says Tanlac Ended Indigestion, Sourness and Pat-pitations and Made Labors Light.

"Tanlac has helped me so much I wish everyone suffering like I did would follow my suggestion to use it," said Mrs. Sadie Banes, 2037 Washington St., Kansas City, Mo., the other day.

"Before I took Tanlac my appetite was so poor it seemed beyond cultivation, and the little I managed to eat gave me indigestion and caused awful sourness and palpitation. I was simply miserable from nervous headaches, dizziness and knife-like pains in my back, always slept poorly, and felt so bad that at times I just had to quit my housework and lie down.

"Tanlac was so well suited to my case that it has only taken three bottles, half of the full treatment, to restore me to perfect health. It makes me so happy to be without an ache, pain or trouble of any kind that I go about my work humming and singing. I just can't help rejoicing over what Tanlac has done for me."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.—Advertisement.

Britain's Arable Area Reduced.

The arable area of Great Britain since 1918 has been continuously reduced. Land now under the plow is not much greater in extent than immediately before the war, according to a report from the board of agriculture.

The total area under crops and grass showed less change in 1922 than for several years past, the figures being 26,025,000 acres in 1922, against 26,140,000 in 1921. The arable area, however, was reduced by 308,000 acres, while the permanent grass area was increased by 189,000 acres.

Classic Slang.

Considerable so-called slang is classic. "Escape with the skin of my teeth" is from Job. "He is a brick" is from Plutarch. That historian tells of a king of Sparta who boasted that his army was the only wall of the city, "and every man is a brick." We call a fair and honest man "a square man," but the Greeks described the same person as Tetragonous—"a four-cornered man."

"Every dog has his day" is commonly attributed to Shakespeare, in Hamlet's speech, "The cat will mew and the dog will have its day." But 40 years before "Hamlet" Heyworth wrote, "But, as every man saith, a dog hath his date."

Critic Confounded.

Wandering into a burlesque house, a critic spent some minutes in disapproving contemplation of a lively skit. The skit was based on the familiar theme of twin brothers. There were two pairs of them. Complications due to mistaken identity bobbed up every moment, and there was plenty of rough stuff. The author came around and the critic proceeded to read him a lecture, concluding by demanding: "Now, where did you get all this horse play?"

"I lifted it bodily from Shakespeare," replied the author quietly. "This is merely a condensed version of the comedy of Errors."

"ELEGY" WAS WORK OF YEARS

Thomas Gray's Masterpiece Clearly Not the Result of a Moment of Inspiration.

It was eight years from the time Thomas Gray, English poet, began the most famous of all his poems, "Elegy Written in a Country Churchyard," until he had finished it. He began it in 1742, and it was finished in June, 1750. It attracted so much attention in manuscript that a pirate announced his intention of printing it. This caused Gray to authorize a publisher, to whom he loftily yielded all the profits, to print an edition in 1751. It attracted at once the popularity it has never lost, and was much parodied and imitated throughout the western world.

It was his love of romantic scenery and his morbid temperament which gave Gray his post of eminence among the "Churchyard Poets." He was shrinking and fastidious, and he was also depressed by the standards of his age in respect to poetry. Biographers say that he was indolent and irresolute.

VICTIM OF HIS OWN ERROR

American Tourist Really Had No Right to Complain of Extortion, Under the Circumstances.

"Ambassador Herrick," said a returned tourist, "told me in Paris that a good deal of the so-called extortion tourists complain about is due to misunderstandings."

"He instanced the case of a tourist in Brussels who got on a tramcar to make the whole journey round the exterior boulevards. When the conductor asked him where he wanted to go he said:

"Toute le journee."

"He thought that this meant, 'The whole journey,' but it really meant, 'All day long,' and the conductor, putting him down as an eccentric, gave him 15 tickets and charged him 15 francs.

"Fifteen francs! What an extortion! The tourist from that day on couldn't knock Europe and European grafters hard enough."

Intuition.

When Miller received an autograph copy of his friend Lewis' latest book on the "Gentle Theory of Knowledge" he immediately sat down and acknowledged the gift, saying that he "anticipated great pleasure in its perusal."

"Why didn't you read it first?" asked Mrs. Miller. "Then you could have said something much neerer than that."

"Margaret," said the husband, as he gave Lewis' book a conspicuous place on the library table. "I have a feeling that this is one of the times when my forethought would be better than my hindsight."

Four Interesting Letters

Cortland, N. Y.—"I took Lydia E. Pinkham's Vegetable Compound because I was weak and wanted to become strong and have a child. My husband read about it in the 'Cortland Standard' and thought it might help me. It certainly did for I now have a lovely boy fifteen months old who weighs forty pounds. I recommend Lydia E. Pinkham's Vegetable Compound to my friends and you can certainly use my testimonial in your little books and in the newspapers, as it might help to make some other childless home happy by the presence of little ones as it has done mine."—Mrs. CLAUDE P. CANFIELD, 10 Salisbury St., Cortland, N. Y.

A Message to Mothers

Hamilton, Ohio.—"I have known about Lydia E. Pinkham's Vegetable Compound since girlhood, having taken it when I was younger and suffering from a weakness and back-ache. Lately I have taken it again to strengthen me before the birth of my child, as I was troubled with pains in my back and a lifeless, weak feeling. I think if mothers would only take your wonderful medicine they would not dread childbirth as they do. I recommend the Vegetable Compound to every woman."—Mrs. JOS. FALCOIN, JR., 562 S. 11th Street, Hamilton, Ohio.

Movies That Really Are Safe.

A movie picture show in the home, by the aid of a machine which has no more to do with lights or inflammable things than a typewriter or a sewing machine, is an accomplished fact.

The moviescope, the invention of an Englishman, throws pictures on to its marvelous mirror simply by means of ordinary daylight or the artificial light used to illuminate the room.

The pictures are seen with extraordinary clearness. It depends on the viewer—who is also the operator—whether the picture is a slow-motion affair or one of normal movement.

CHILDLESS HOMES MADE HAPPY

Presence of Little Ones a Great Blessing

St. Louis, Mo.—"I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me seven years ago. I was run down and had a weakness such as women often have. I took Lydia E. Pinkham's Vegetable Compound and after being married sixteen years became the mother of a sweet little girl. I now have four lovely children—three fine boys and the little girl six years old. I had longed for children all the while and wept many a day and envied every woman with a child. I was 36 years old when my first baby was born. I recommend Lydia E. Pinkham's Vegetable Compound to any woman who is ailing with female weakness."—Mrs. J. NAUMANN, 1517 Benton St., St. Louis, Mo.

Was Weak and Run Down

St. Louis, Mo.—"My mother took Lydia E. Pinkham's Vegetable Compound when I was a girl, and when I was troubled with cramps I took it, and later when I married I again took it to make me strong as the doctor said I was weak and run down and could not have children. I took it and got along fine and now I have three girls. So you know why I keep the Compound in the house. I am a well woman and do my work and sewing too."—Mrs. JULIUS HARTMAN, 2601 W. Dodier St., St. Louis, Mo.
