Word was received by relatives Wednesday morning of the death of Michael Rzeszotarski at the Mayo hospital in Rochester, Minnesota. Mr. Rzeszotarski, who has been ailing for some time, left about a week ago for the hospital. Although the cause of his death, according to the hospital diagnosis, is not yet definitely known by his friends, it is believed that he had been suffering from a blood clot on the brain. Mr. Rzeszotarski resided on a farm ten miles northeast of Atkinson and recently held a public sale of his goods, with the intention of making his home in Atkinson. He had contracted with A. A. Kiehl to purchase the Atkinson Bakery and was to have taken possession March 1st.

The health of the deceased was impaired on account of an accident which befell him some years ago, but despite this he was very active, and constantly working about his home, taking a great delight in having everything orderly and in good repair. From the day of his coming to Holt county, he always manifested a keen interest in the progress and development of this part of the state. He was at all times a loyal citizen to his adopted country and faithful to all of its institutions.

Mr. Chairman: Whereas it appears that there has been introduced in the legislature a bill designed to cut the Automobile license in two. Therefore I move you that this board go on record as opposed to such measure for the reason that the auto license is paid by many who pay very little other taxes and the highways must be maintained from some source and this seems to us to be the fairest means of acquiring this maintenance money.

And be it further resolved that a copy of this resolution be forwarded to our representatives in the State legislature.

Best Skimmer of Cold Milk in the World

We can prove that the Beatrice Cream Separator is the closest skimmer of cold milk. Every farmer knows this to be a convenience that is worth money. With the Beatrice you can skim milk when you are ready—you don't have to make your plans fit the Separator—the Beatrice will fit your convenience.

One of the several reasons for this closer skimming is the Double Angle Disc. This type of Disc is possessed by no other Separator, but is generally admitted to be such a great advantage over the old-style Disc that one Separator manufacturer spent \$50,000 trying to imitate the Beatrice Disc.

Beatrice Cream Separator

One Beatrice user tells us: "In 20 years' experience I have not seen a closer skimming Separator than the Beatrice Separator. It is being operated every day, running full capacity, skimming a heavy cream and leaving only one one-hundredth to two one-hundredths of one per cent in the skim milk."

Don't consider any Separator until you come in and see the Double-Angle Discs, and also the Beatrice Washer—a new invention, given free with each Separator.

Washed in Two Minutes

With the Beatrice Washer, the Beatrice Separator may be thoroughly cleaned, sterilized and dried in only two minutes. This makes a hit with every woman. Saves an immense amount of time and work.
