O'Neill still is home to its sons, no matter where they may roam and to what heights of fame they may attain in other places, and any time a public movement is started for the benefit, advancement or enjoyment of the community they insist in being declared in. This spirit is exemplified in a letter from Arthur Mullen, of Omaha, to the O'Neill Country club in which Mr. Mullen notes the incorporation of the club and the plans for the purchase of the golf course and the erection of a club house thereon. Mr. Mullen mildly chides the club for failure to solicit himself and other absent O'Neill citizens and in the letter enclosed a check for \$100 for a share of stock in the club.

GOV. BRYAN'S EXECUTIVE COUNCIL IDEA DISCARDED

The famous Bryan Executive Council Plan known as H. R. No. 315, was thrown over the transom Wednesday afternoon by a vote of 53 to 46. Representative Donald Gallagher, of this city, was one of the three republicans who voted for the Bryan idea. In explaining his vote Mr. Gallagher says: "I believe it little, if anything, short of criminal for members of the legislature to play politics at a time like this and on a matter in which the people are so intensely interested as they are in the Bryan-Dysart controversy. I conscientiously considered both plans from every angle and came to the conclusion that the Bryan plan was the more meritorious. Furthermore, I heard the voice of the people in my district and of the state at large saying to me: 'Support the governor in his effort to reduce taxes.'"

ST. MARY'S PRESENT "OVER THE RAINBOW"

The Operetta "Over The Rainbow" which was to have been given on St. Patrick's Day, March 17th, was postponed until Tuesday evening when it was greeted by a packed house. The entertainment was thoroughly enjoyed by those who were present. Each member of the cast did their part exceptionally well. AN OLD TIME BLIZZARD ARRIVES HERE SATURDAY

About ten o'clock Saturday morning one of those old time blizzards descended upon this part of the state and before noon it was difficult to see across the street. The storm raged until some time during Saturday night when snow ceased falling. The thermometer dropped to eleven degrees below zero Saturday night; Sunday was extremely cold and disagreeable with a stiff wind blowing. The thermometers registered ten degrees below Sunday night.

Several farmers were in the city Saturday morning with hogs and were forced to remain in town until the following day although some of them made an effort to get home but were compelled to return to town.

The weather was decidedly warmer again Monday and Tuesday. Wednesday another snow storm visited this territory accompanied by a strong wind which filled the cut with snow and again stopped traffic.

A number of farmers have reported the loss of young pigs. Among the number was F. H. Lancaster who lost thirty-five pure bred pigs about one day old.

The Chicago & Northwestern railroad was snowbound in the eastern part of the state Sunday and Monday, as was also many other lines including the Burlington branch to Sioux City.

About thirty teachers from this part of the county were at Ewing Saturday attending a county teachers meeting, when the blizzard arrived and they were unable to reach O'Neill until about four o'clock Sunday morning.

The Burlington between O'Neill and Sioux City failed to arrive last night on account of yesterday's snow storm. However, the snowplow went down the line this morning and no doubt the passenger will "get in" on time tonight.

Modern Servants

Every Twentieth Century machine has its part in serving man in a better way than he was served before.

But if you had to do without all but one of the modern inventions, which one would you keep?

To realize the value of the telephone to all of us in our every day business and social life, we have only to glance back a comparatively few years and recall what we did when there were no telephones.

Of all modern conveniences, the telephone is perhaps without an equal in the service provided, which is many times greater than the price charged.
