

## Find What CANADA has to offer YOU!

If your dream of success seems like a hopeless ambition, if you are discouraged trying to get ahead on high priced land, if your present location fails to give you opportunity, there is a new deal for you, a new chance in the fertile, virgin farms of Western Canada, where wheat produces 20 to 40 bushels to the acre, where the 1922 crop was biggest in history, where oats, barley and hay and fodder crops are the basis of a great dairy industry, and a man's work brings him success and prosperity.

### Low Priced Land—the Last Great West

In Western Canada you still can buy virgin prairie land at \$15 to \$20 per acre, on long terms if desired, near to town, railroads, etc.—land such as has for many years produced the world's prize winning wheat, oats, barley, flax, rye, alfalfa. Canada had no "war time" land boom; prices are not inflated—you get in on the ground floor.

### Taxes Favor the Farmer as Values Increase

The tax laws of Western Canada encourage the producing farmer. The tax on land is reduced when it is brought under cultivation—while on your buildings, machinery, improvements, personal property, automobile, there is no tax at all. A single crop is often worth more, acre for acre, than the cost of the land.

### Rent Now—Buy Later Pay Out of Profits

Canada welcomes the industrious settler. What you have now isn't so important. If your capital is small, or you cannot sell your present holdings to advantage, rent a fertile Canadian farm and "try it out" for a season or two. Make a good living, increase your capital, and buy later. Farms may be rented from successful settlers on easy terms; in some cases with option of purchase.

### Buy on Exceptional Terms—32 Years to Pay

For the benefit of those wishing to buy land a national non-profit sharing organization—the Canada Colonization Association—has been established with head office at Winnipeg, and United States office at St. Paul. This Association offers selected land convenient to railways—much of it at \$15 to \$20 per acre—on very small cash payment; no further payment until third year; balance extended over thirty years, but purchaser may pay up and obtain title at any time if desired. Interest six percent per annum on deferred payments.

### Special Excursion Rates to Western Canada

In order that you may inspect the land—see for yourself—judge of its value and fertility—special excursion trips of inspection will leave United States points on the first and third Tuesday of each month. Single fare plus \$2 for the round trip, available from all principal centers. Take advantage of these low railroad rates to inspect for yourself the opportunities which Western Canada has to offer you. Seeing is believing. The nearest Canadian Government Agency will give you all information. The men in charge are Government officials, interested only in the service of the prospective settler. We help you find your opportunity, and we know something of your position and receive free book with maps, and information how special railway rates can be arranged for a trip of inspection. Mail the coupon.

**FREE & HOMESTEADS** are still available in some localities. Canada welcomes TOURISTS—Come and see our country for yourself. No passports required.

**Patience No Word for It.**  
 "It takes patience," says the Detroit Free Press, "to bring a boy safely through the smart age."  
 And longevity. The smart age usually begins at about five, and lasts until the boy finally leaves home to earn his own living. With a large number of boys it lasts much longer than that, but this fact is concealed from the parents by the absence of the sufferer. Marriage cures a respectable percentage; but many are immune even to this drastic treatment, and bear their chronic ailment until death.

**Insects His Diet.**  
 The song sparrow is worthy of our affection, not only because of its familiarity and its cheery song, says Nature Magazine, but because it does no harm to agricultural products, but, on the other hand, consumes great quantities of weed seed and numbers of injurious insects. It has a partiality for cutworms, grasshoppers, weevils and click beetles.

**Yes, an Orphan.**  
 A new member of a southern legislature asked one of the older men for an interview so that he might introduce his niece's boy, for whom he wanted a job as page. The boy proved to be a dull-witted fellow thirty-five years old who probably was unable to get a job in the little country town where he lived. The new member said:  
 "There's just three reasons why this boy ought to have this job as page. He ain't got no father; and he ain't got no mother; and he's a orphan."—Youth's Companion.

**No Divorce for Ham and Eggs.**  
 We never expect to hear of a suit being brought in court for the divorce of ham and eggs. The two were united in the early days of the republic and are inseparable.—New Orleans States.

God gives every bird its food, but He does not throw it into the nest.—Holland.

## CHEVROLET

for Economical Transportation OF Farm Products

Modern, progressive farmers, being also business men, now depend on fast cheap motor transportation to save time, save products and get the money.

**Chevrolet Superior Light Delivery**, with four post body was built especially for farm needs. It has the space and power for a big load, which it moves fast at a very low cost per mile.

For heavy work, Chevrolet Utility Express Truck at only \$575, chassis only, offers remarkable value. Fits any standard truck body.

## PRESIDENT ASKS HELP OF WOMEN

Will Seek Endorsement of World Court Plan by Club Federation and Other Organizations.

BY JAMES R. NOURSE,  
Universal Service Correspondent.

Washington, April 30.—President Harding intends to make a strong bid for the support of American women through their various organizations in his campaign to put the United States into the League of Nations court.

This was revealed Monday, following a long conference between the executive and Mrs. Thomas G. Winter, president of the National Federation of Women's Clubs, at which the world court plan was understood to have been the principal topic of discussion.

It became known that the president will endeavor to have the federation at its convention in Atlanta, beginning May 7, adopt a resolution endorsing the court proposal. The president will send a letter to the federation explaining his views respecting the world court.

## CULT'S BURIAL SECRETS BARED

Investigation Shows No Permit Issued for Interment of One of Purnell's "Favorites."

St. Joseph, Mich., April 30.—A single burial permit and a single grave was used to bury two women of the House of David cult, it was revealed at Monday's investigation of the colony. Further investigation into the death records will be made.

The burial permit that excited suspicion of the authorities was issued for the burial of Harriet Hanna, 61 years old. She was buried in February, 1919. Ten days after her funeral the body was removed and shipped to Canada and the body of 16-year-old Dollie Gray was buried with the same permit in the same grave.

Records of the city clerk's office, altered and disguised, according to the authorities, disclosed that the girl had died of "intermittent nephritis."

The girl is said to have been a favorite of "King Benjamin" Purnell, head of the cult, for whom the authorities are searching. Purnell disappeared several months ago, when an investigation of the colony became probable after civil suits had been filed by malcontents.

Attorney General Andrew Dougherty, personally supervising the state's probe of the cult, indicated Monday night that more than 50 bodies dumped without prayer or ceremony into the windswept, sandy cemetery may be disinterred before the present inquiry is concluded. The body of Dollie Gray will be exhumed Tuesday, Mr. Dougherty said.

## SUSPECT IN REMINGTON CASE ALMOST ARRESTED

Universal Service.

Los Angeles, April 30.—After a thrilling race through crowds on Broadway and in a Broadway department store late Monday afternoon Deputy Sheriff Bright lost sight of a young and pretty girl whom he had been following as a suspect in the Remington murder mystery.

The girl, whose name the authorities won't divulge, was traced to the store by the deputy sheriff, who had received an underworld tip that she had admitted to one of her girl friends that it was she who killed Remington, the club man and society bootlegger, the mystery of whose death at the door of his home in the Wilshire district some weeks ago has not yet been cleared.

## SUGAR STARTS RACE DOWN THE TOBOGGAN

New York, April 30.—Refined sugar opened 10 points off today. Reductions were made by three of the leading refiners.

National Sugar and Refining reduced their price to \$10.15; American Sugar made a similar cut, while Arbuckle Bros. reduced their prices 10 points to 10 cents a pound.

## JAPS FOR FASCISTI.

Tokio, April 30 (A. P.).—An organization somewhat similar to the fascist of Italy has been formed here under the leadership of Dr. Yaichi Haga, former professor of the Tokio Imperial university. It is known as the "Dai Nippon Kyokadan," and its purpose is to "inculcate the spirit of imperialism in the chaotic world of thought in Japan which threatens to precipitate a dangerous condition." Sixteen patriotic bodies are embraced in the organization.

The Lovers.

The robins round the lilac tree  
 Were bathing in the rain;  
 Before we knew—the cloud had fled,  
 The sky was fair again.

Before we knew—the young, sweet moon  
 Had risen in the east;  
 The dusk had drowned the stream and lit  
 The lights along the shore.

The stars were faint—before we knew  
 The night was on the lawn—  
 Before we knew—a shadow stirred  
 It must have been the dawn.

—Duncan Campbell Scott, in Scribner's.

## BUSINESS OF RUM CREWS GIVEN BOOST

U. S. Supreme Tribunal Puts Liquor Back on American Ships and Forces Transfers Outside Three Mile Limit.

BY WILLIAM P. FLYTHE,  
Universal Service Correspondent.

Washington, April 30.—The United States supreme court Monday ruled that American ships may sell and transport liquors outside the three mile limit from the American coast.

The same decision held that neither American nor foreign ships may come within the three mile limit with liquors aboard.

The immediate effect is to legalize all rum traffic on the high seas, including the liquor fleet that hovers off the Atlantic coast.

Lasker Likes Decision.

These high points are stressed:

1. Chairman Lasker, of the shipping board, says the decision will enable American vessels to compete with the British. He favors the sale of liquor, but will keep the ships "dry" until ordered to lift the lid by the president.
2. It will, in the opinion of customs officers, greatly increase the number of rum ships.
3. It precipitates a fight to have the president declare American owned ships "dry" under the same law that the navy is now "dry."
4. "Drys" will seek new legislation in the next congress to change the law and nullify the decision of the supreme court.

Mellon Changes Plans.

Secretary Mellon is drawing up regulations to permit foreign vessels sufficient time to get rid of their liquor stores in line with the supreme court decision. He said that he would allow ships now on their way to America to clear for their return voyage before making the law operative.

The decision took the law enforcement agencies of the government completely by surprise, just at a time when extensive preparations were being made to sweep the liquor traffic from the high seas, so far as this country is concerned.

What Will Daugherty Do?

Regarding the request for a decision on the right of the president to use the navy to suppress rum running, it is now intimated that Attorney General Daugherty will contend that funds cannot be diverted once they are appropriated and that the navy cannot be used in this instance.

The high court held there is nothing in the 18th amendment to prevent American ships from having liquor on board when in foreign waters, but decided the amendment does apply specifically to foreign ships entering territorial waters of the United States. Foreign ships cannot bring liquor in as sea stores, the court held.

Shipping Interests Appealed.

Monday's decision was handed down New York, which upheld the ruling of Attorney General Daugherty that American ships must be "dry" wherever they may be. Judge Hand had held, however, that foreign ships could bring liquor into the three mile limit, provided the liquor was under band as "ship stores." For the American lines the appeal was brought by the United American Lines, which claimed it was illegal to prohibit them from opening their bars when American ships pass out of three mile zone.

For the foreign lines the appeal was made by the Cunard and Anchor lines, the Oceanic Steam Navigation Company, the International Navigation Company, the Compagnie Generale Trans-Atlantique, the Holland American line, the Royal Mail Steam Packet line, the Scandinavian-American line, the Liverpool, Brazil and River Plate Steam Navigation, the Pacific Steam Navigation Company, and the Navigazione Generale Italiana.

The foreign lines based their objections mainly on the Italian law requiring ships carrying Italian crews to provide wine rations for them, even when in foreign ports. It was pointed out that a ship could not sail for Italy from an American port with Italians in the crew unless wine was aboard.

George W. Wickersham, former attorney general, represented the steamship lines, while the Anti-Saloon league and other temperance organizations supported the government.

The majority opinion said: Various meanings are sought to be attributed to the term "territory" in the phrase "the United States and all territory subject to the jurisdiction thereon." We are of the opinion that it means the regional areas—of land and adjacent waters—over which the United States claims and exercises dominion and control as a sovereign power. The immediate context and the purport of the entire section show that the term is used in a physical and not a metaphorical sense—that it refers to areas or districts having fixity of location and recognized boundaries.

"Marching Through Eden."

From the Kansas City Star.

Uncle John paraphrases "Marching Through Georgia" thus:

Bring the good old shovel boys, an' fetch the rake along; Appetite for garden-sass is comin' good an' strong; Feller uses elbow grease—he can't be goin' wrong—While we are marchin' through Eden.

Passel out the onion sets, an' sort the kidney beans; Safe to place yer judgment on the way yer fancy leans; Short-cut way to heaven-on-earth, is low an' mustard greens—While we are marchin' through Eden.

Exercise is needed when yer fuzzies is forsook. Don't forget yer insides—if ye have to bribe the cook—Lordy, there's a flashin' worm! Mirandy, where's my hook? As we go marchin' through Eden!

## EMERSON HOUGH, NOTED U. S. AUTHOR, IS DEAD

Chicago, April 30 (U. P.).—Emerson Hough, noted writer of stories dealing with American frontier and pioneer life, died at the Evanston hospital today. He was 66 years old.

His two most widely known stories, "The Covered Wagon," and "North of 36," dealing with early life on the western plains, are now attracting widespread attention.

## SUGAR INJUNCTION HEARING UNDER WAY

Seymour Outlines Government Contention on Gambling in Futures.

New York, April 30 (U. P.).—Outlining of the government's case in its suit to obtain a permanent injunction against the New York Coffee and Sugar exchange, the New York Coffee and Sugar Association, Inc., and 38 individuals representing these organizations, was begun in the United States circuit court of appeals here Monday.

"Sugar prices have fluctuated and advanced beyond reason," Assistant Attorney General A. T. Seymour told the court. "This situation must be wiped out. We intend to prove that the defendants entered an unlawful combination in restraint of trade between the states."

The government has records of paper transactions on the exchange in support of this contention, he said.

## FLETCHER FIXES U. S. POSITION

Pan-American Delegates Are Plainly Informed Monroe Doctrine Policy Not Subject to Change.

BY GEORGE W. HINMAN, JR.,  
Universal Service Correspondent.

Santiago, Chile, April 30.—The United States holds that the Monroe doctrine is a "natural unalterable policy" and that it is not a subject for discussion at international conferences.

Such, in substance, was the unequivocal declaration of Ambassador Henry P. Fletcher, head of the United States delegation to the assembly of nations of the new world, Monday afternoon while the political commission of the conference was in session discussing the program topics of "closer relations" and "encroachments by non-American nations."

Referred for "Study."

Immediately after the declaration by the head of the United States delegation the commission voted to refer the topics, without recommendation, to study by the governing board of the Pan-American union.

Repeating to statements favoring the creation of a Pan-American association related to the League of Nations, Fletcher positively indicated that the United States would oppose any European political participation in the new world.

Disarmament Shelved.

The last glimmer of hope for concrete action by the conference in the direction of disarmament was dissipated Monday evening at the meeting of the armaments commission when Brazil declared her opposition to making a decision here and urged a separate A B C commission for dealing with the problem.

The declaration of the Brazilian delegation featured a tense session in which Argentine asserted her desire for an agreement here, while Brazil opposed the plan.

The commission adopted a resolution urging all states to recognize as international law the rules against submarines and gas contained in sections 1, 2, 3, 4 and 5 of Washington treaty No. 2.

## JUDGE DISCHARGES UNWILLING PANEL

Sixty, Summoned for Fraud Trial at Dubuque, Objected to Serving.

Dubuque, Ia., April 30 (Special).—Federal Judge George C. Scott, late Monday surprised attorneys in the \$500,000 Cooper income tax fraud case when he discharged the entire panel of 60 veniremen.

The action was taken, the court said, because many of the jurors said service would be a hardship for them and because defense and government counsel decided at a conference to impanel 60 more prospective jurors. The new venire will report at 9:30 o'clock Tuesday morning.

It is expected that William F. and A. A. Cooper will be tried first on an indictment containing eight counts of fraud and conspiracy in income tax returns for 1918, 1919 and 1920. They are co-defendants with Kathryn E. Cooper and Phil Ryder, the latter figuring in five other counts. The Coopers are the wealthy heirs of Augustus S. Cooper, pioneer wagon manufacturer, and Ryder is an officer of the Julien Dubuque Hotel Company, in which the Coopers are stockholders. The alleged frauds were committed on returns of the wagon company and the hotel corporation.

The government is seeking \$169,297.57 in penalties, taxes and interest.

CUT STUDEBAKER MELON.

South Bend, Ind., April 30 (A. P.).—The Studebaker corporation today declared the regular quarterly dividend of 1 1/2 per cent. on common stock and 2 1/2 per cent. on preferred stock, payable June 1 to stockholders of record May 10.

## LEGISLATURE CUTS POWER OF GOVERNOR

Nebraska Lawmakers Send Troublesome Civil Code Bill to Executive—Veto Probable—Session Near Finish.

Lincoln, Neb., April 30 (Special).—Working under high pressure throughout Monday, the two houses of the legislature reached the stage where final adjournment is believed possible by Tuesday night. The joint committee on adjournment submitted a report fixing 2 o'clock Tuesday afternoon as the hour to end the session, but neither house adopted the report.

Both houses passed the civil code administration bill, making elective state officers' secretaries of the six code departments, they to choose their own deputies, instead of centering the power in the hands of the governor. The bill will go to the governor Tuesday morning. He already has announced he will veto it. The maintenance appropriation bill has been agreed to in conference and will be reported Tuesday. The house sent the general salaries bill to conference because of the senate amendment providing for salaries of code secretaries.

By a tie vote, the senate refused to bring up the bill repealing the tax on intangible property. The senate passed the "treaty bill" relating to water rights between Colorado and Nebraska for use of water from the South Platte river.

Senate and house adopted a resolution asking the federal trade commission to investigate the costs and profits of beet sugar manufacture and production of beets.

The senate killed all senate bills in the hands of standing committees. The oil inspection bill was amended by the senate by fixing the fee for inspection at three cents a barrel, as favored by Governor Bryan.

Governor Bryan Monday signed the bill defining the boundaries of the state for the purpose of requiring payment of one half the tax on a bridge at Sioux City to the school district on the Nebraska side of the Missouri river, and also the bill repealing a law which prohibits cities of from 5,000 to 25,000 from paying more than 25 cents a square for publication of legal notices.

## NEBRASKA'S CAPITOL ARCHITECT RETAINED

Resolution to Discharge Goodhue Defeated in House, 49 to 40.

Lincoln, Neb., April 30 (Special).—The Nebraska house Monday defeated by a vote, 49 to 40, the resolution calling for the termination of the contract with Bertram G. Goodhue, New York architect, as supervisor of the new Nebraska capitol. Party lines were not drawn in the vote, but considerable feeling was shown during the discussion of the resolution. O'Malley, of Greeley county, who opposed the resolution, censured Former Engineer George Johnson, who preferred the charges against Goodhue.

"The one man who is responsible for all this agitation," he said, "stands back of the rail. His name is Johnson."

Looking directly at the former engineer, Mr. O'Malley said: "They would have you believe that members of the commission were not always on the job. I would like to ask whether or not the secretary, paid member, was on the job. If he thought the people of Nebraska were being robbed, why did he not stay on the job?"

## USE DYNAMITE TO MURDER MOTHER

Blast Kills Woman in Kentucky Tragedy—Jealousy Thought Motive—Three Children Escape Injury.

Paducah, Ky., April 30 (A. P.).—Mrs. Rosetta Daugherty Warren, 34 years old, was instantly killed early today in a dynamite explosion which wrecked her home. Her three children escaped injury. An arrest is expected.

A woman is believed by the police to have planted the explosive. Authorities attribute insane jealousy as the cause of the blast.

The charge was placed at the corner of the front room directly under the bed on which Mrs. Warren slept. The three children who were asleep in an adjoining room miraculously escaped death. Mrs. Warren's husband was at work. With Mrs. Warren perished her unborn child.

The blast shattered windows in houses in a block's radius.

## S. D. BOY ACCIDENTALLY SHOTS SELF, MAY DIE

Oldham, S. D., April 30 (Special).—De Wayne Wilkenson, 17-year-old son of Mr. and Mrs. Ralph Wilkenson, farmer, six miles west of Oldham, accidentally shot himself through the right chest Friday, while cleaning a .22 caliber rifle.

The youth was taken to a Madison, S. D., hospital where attending physicians say he probably will die.

Parents said the youth had been hunting during the afternoon and was cleaning the rifle in the house when it was discharged.
