NEW RAILROADS FOR NEBRASKA BEING RUMORED

Extension Of Burlington's O'Neill Line Among Projects Talked Of.

Extension and branch lines being built by several railroad companies in the state of Wyoming and Colorado probably will greatly affect freight shipments on some of the lines running through Nebraska, members of the commission said.

Construction of a branch line through Holt, Rock, Brown and Cherry counties is being spoken of, and it is believed that this will be undertaken at some time during the year. The railroad companies have announced no definite plans about this line, however.
