Wonderful Results from Lydia E. Pinkham's Vegetable Compound

Beloit, Wis.—"My female trouble was brought on by overwork. I had worked in stores and had to do heavier work than my strength could stand, and had to be on my feet most of the time. Finally I had to give up this work entirely and stay at home. Doctor's medicine did not give me much relief, and my mother wanted me to take Lydia E. Pinkham's Vegetable Compound. I took a couple of bottles of it and thought it did not help me as much as it should, so I gave it up to try something else. Nothing I took helped me much, so I finally decided to give the Vegetable Compound another trial and to take enough of it to make sure it would help me. I have taken it over a year now and it has brought wonderful results. I have gained from 88 to 110 pounds and am keeping house now. My friends all notice the change in my health. I will be glad to answer all letters that women write to me about the Vegetable Compound."—Mrs. W. G. MONSON, 1515 Park Ave., Beloit, Wis. SOUTH CALIFORNIA SHAKEN BY QUAKE

Two Shocks Bring Citizens of Los Angeles and Other Cities Scurrying Into Streets

BY R. A. DONALDSON. United Press Staff Correspondent. Los Angeles, Cal., July 23.—Movie queens, film heroes and all the colorful Hollywood community were hurled from their beds and fled to lawns and sidewalks in filmy night attire shortly before midnight when all southern California was rocked by two earthquakes which lasted over six seconds.

Little damage was done in Los Angeles or vicinity, although the quake was the most severe in three years.

Beach cities suffered a particularly heavy shaking.

The shock occurred at 11:27 p. m. Sunday night.

Prisoners in jail here were thrown into a panic and shouted like maddened cage animals as the walls rocked.

Throughout the city, persons frightened by the quake rushed to the streets. Late pedestrians were thrown from their feet.

Chief damage here and at Hollywood was to plaster and modesty. Exposure of movie colony night life was complete in some instances.

Riverside Hard Hit. In downtown Los Angeles there was great excitement. The negro janitor in the United Press offices felt the walls shaking, heard a tremendous rumbling and thought that bandits had blown the safe. He rushed out with drawn revolver shouting to the yeggs to surrender.

No fires were caused here, but the entire Los Angeles fire department was on the alert for the first alarm.

The trembling was most severe at Riverside, where many persons were thrown from their feet.

Typical of the pranks reported from all points were those of a sharp tremor in Los Angeles. Here the brief shock stopped clocks, set off burglar alarms, rattled and broke dishes and cracked plaster.

Artesian wells on the Warren ranch south of San Bernardino which had not flowed for years, gushed forth immediately after the quake.

Trees were reported to have toppled over a strawberry flat. The Hill creek road into Bear valley was blocked by fallen rock and dirt.

Several hundred patients in the Loma Linda sanitarium, near San Bernardino were alarmed when plaster crashed from the walls and chemical containers in the laboratory burst with loud reports. The patients were quieted and an examination of all disclosed that none had been hurt.

Other cities and towns which reported shakes and slight damage were San Diego, Pasadena, Long Beach, Santa Ana, Mojave, Arrowhead Springs, Riviera, El Centro, Santa Monica, Santa Barbara, Ventura, Glendale, Eagle Rock, Riverside, Monrovia, Pomona, Anaheim, San Jacinto, Hemet and Barstow.

Reports had it that tremors had been felt in the northwestern part of Arizona, but there had been no confirmation this morning as telegraph and telephone service into that district from Los Angeles failed.

Telephone messages from Lake Arrowhead, in the San Bernardino mountains said there was no damage there, although the earthquake was heavy. Many guests of the resort spent the rest of the night out of doors. Forest rangers near Lake Arrowhead reported feeling the shocks.
