HARDING OUT OF DANGER, SAYS DOCTOR

President Resting in San Francisco—Crab Meat Blamed by Dr. Sawyer for Serious Attack of Ptomaine Poisoning. BY JAMES R. NOURSE Universal Service Correspondent San Francisco, July 29.—Dr. Sawyer announced late Sunday night that the president's condition was unchanged. He added that he would not be able to say until noon Monday whether the president's illness would have any effect upon his further itinerary. He said that he expected to announce at that time whether or not the full program as mapped out for the president's return to New York via the Panama canal will be carried out.

San Francisco, July 29.—President Harding arrived in San Francisco Sunday morning, greatly improved in health, but still weak from the ptomaine attack which caused him suffering all the way on the trip from Seattle.

Under orders from his physicians the president went to bed as soon as he reached the Palace hotel, under instructions not to receive any visitors, but to give himself up entirely to rest. Mrs. Harding remained at the hotel all afternoon with the president, and also denied herself to callers.

It is probable that Monday also will be spent by the president quietly at the hotel, although an auto ride may be taken in the afternoon if he feels equal to it. General Sawyer and Dr. Boone, who are in constant attendance upon the president, have advised complete rest in order that the strict regime of dieting which they have instructed may produce its best effect.

Calls Attack Serious. The real seriousness of the president's illness up to a late hour Saturday night was discussed by Dr. Sawyer with the newspaper correspondents Sunday afternoon. Dr. Sawyer said: "The facts of the case are that the president had a very violent attack of ptomaine poisoning. It was accompanied by intense pains in the stomach, a high fever and diarrhea. Thanks to the rest he has had, his condition is now greatly improved and the fever is gone."

Crab Meat Blamed. Dr. Sawyer was asked what, in his opinion, caused the president's illness. He replied: "It is hard to say exactly what brought on the ptomaine attack. My belief is, however, that it was due to the crabs which were served on the ship on the way from Alaska. This may not have been because the crabs were not fresh, because in certain parts of Alaska, as is well-known, the crabs and clams are tainted by the copper in the streams and are likely to cause this disorder even when perfectly fresh. "The president did not feel well after eating the crabs and his condition was aggravated by the strenuous program in Seattle, and also by the change from the cool weather of Alaska to the heat we encountered as soon as we landed. What the president needs more than anything else at this time is complete rest. He is a good patient and is yielding to our advice to stay in bed and obtain the rest he needs."

Mitchell, S. D., July 27 (Special)—Announcement is made of the interstate convention which the International Bible school students will hold in Mitchell on July 28 and 29. Sessions will be held at the city hall, and prominent persons in the organization from outside of South Dakota will speak. Prominent among those who will address the convention will be W. E. Van Amburgh of Brooklyn, N. Y., secretary-treasurer of the organization. Other speakers will be F. B. Dwiggans, Orchard, Neb., and J. C. Rogers and S. C. Oathout, Sioux City, Ia.

Here are the ten men directing the United States Government during the absence from Washington of President Harding and most of his Cabinet. Secretary of State Charles Evans Hughes is the ranking Government official in Washington. In the upper row, left to right are: J. Walter Drake, Assistant Secretary of Commerce; E. H. Henning, Assistant Secretary of Labor; Secretary Hughes, S. P. Gilbert, Under Secretary of the Treasury; John H. Bartlett, Assistant Postmaster General; and in the lower row, left to right, are: E. C. Finney, Assistant Secretary of the Interior; Theodore Roosevelt, Assistant Secretary of the Navy; Dwight L. Davis, Assistant Secretary of War; E. W. Pugsley, Assistant Secretary of Agriculture, and A. T. Seymour, Assistant Attorney General.

Harding Resumes Eating Sunday afternoon General Sawyer prescribed some liquid food for the president, which was the first he has had since boarding the special train at Seattle Friday evening. It is General Sawyer's belief that careful dieting is necessary in order that the stomach, which was upset by the ptomaine, may be nursed back to customary strength. San Francisco has made elaborate plans for the president's reception, beginning with Tuesday morning, the time originally set for his arrival from Yosemite valley. It is possible that because of his condition the program may be cut so that the speech to be delivered Tuesday night will be almost his only public appearance. If his condition improves, it is probable the trip to Palo Alto and Stanford university will be taken according to schedule Wednesday afternoon and that he will leave Wednesday night for Los Angeles. May Call Off Sea Trip. The itinerary from San Diego is still undecided. The president's illness has caused many members of the party to advise abandonment of the proposed trip by water on the Henderson and to suggest a quick return to Washington in the special train. The temperature in the Panama Canal at this season of the year is exceedingly hot, and in addition to this, there is almost certain to be rough weather. In the Caribbean, which would increase the discomfort of travel not only to the president, but also to Mrs. Harding, who is not a good sailor. Final decision as to whether the return will be made by land or sea probably will not be made until it is ascertained how the president stands the balance of the trip to Los Angeles and San Diego.

GOLD LOAN PLANNED BY CUNO GROUP Proceeds, in American Dollars, Would be Used to Retire Enormous Paper Mark Circulation—Communists Fail. BY KARL H. VON WIEGAND Universal Service Correspondent Berlin, July 29.—Germany is considering a plan to introduce the dollar as a new circulation medium through a new internal gold loan which would not only be an investment but at the same time provide currency or a medium of payment. This would have the double purpose of creating a foundation on which, it is believed, Germany might be able gradually to return to a gold basis and also call in trillions of paper marks, thus making it possible to suspend the money press. Shaking off the lethargy of the last few days, when the critical food situation, together with the noisy threats of the communists, overwhelmed the government, the Cuno administration is beginning to show signs of returning energy and initiative.

Cabinet to Consider Plan. The cabinet at a special session Monday morning will consider a plan introduced by Adreas Henrich, centrist leader and former minister of agriculture, to issue immediately a new internal loan of a hundred million gold marks, approximately \$25,000,000. This loan, according to present intentions, will be issued in dollars, bear interest, be guaranteed by special taxes and be legal currency or medium of payment. To induce popular subscriptions, two features are planned. Loan certificates as small as five dollars will be issued and repayable as dollars, they can be subscribed for in paper marks at the rate of exchange on the day of subscribing. Covers All Paper Marks. For example a \$5 certificate would at present call for a subscription of 5,000,000 paper marks. Expressed in paper marks, the \$25,000,000 proposed loan is equivalent to 25 trillion marks, approximately the entire paper circulation at the present time.

The government appears to hope that the dollar loan certificates with these features will be such a lure that vast hoards of paper marks will flow in, making it possible to cease printing at least for some weeks. "Sacrifice for the Ruhr and Rhineland," is the form of a special tax on motor cars, and a two per cent export tax is also planned. Communist Plans Fail. Danger of a communist uprising in Germany Sunday was passed without clashes anywhere. Complete reports received both by national and Prussian state governments Sunday night from all parts of the country were followed by an official announcement that the day passed almost without incident.

DAY PRIVACY PULLMANS INSTALLED BY SANTA FE Chicago, July 29.—Pullman palace car officials have made a tremendous hit with honeymooners and spousers with their new type of sleeping car, which insures daytime privacy to passengers. These cars already are in operation on California limited trains over the Santa Fe, and other roads are placing orders for them. When berths are made up a new style partition going from the seat to the ceiling gives the occupants absolute seclusion.

PIERCE LEVIES MORE TAX TO PAY SCHOOL DEBTS. Plainview, Neb., July 28 (Special)—By a majority of 10 votes the Pierce school district carried a proposition to levy a tax of four additional mills in order to pay back debts in the nature of teachers' salaries and coal bills. The people became alarmed, and those who favored the new levy believed this was the best way to get the district out of its present financial difficulties.

COULD HARDLY DO ANY WORK Since Taking Lydia E. Pinkham's Vegetable Compound This Woman Feels So Well. Keeseeville, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for the good it has done me. I was so much troubled with female weakness I could hardly do any work. I saw your advertisement in the paper, and read it to my husband. He said, 'You had better try Lydia E. WHY TAKE LAXATIVES? Discovery by Science Has Replaced Them. Pills and salts give temporary relief from constipation only at the expense of permanent injury, says an eminent medical authority. Science has found a newer, better way—a means as simple as Nature itself. In perfect health a natural lubricant keeps the food waste soft and moving. But when constipation exists this natural lubricant is not sufficient. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication. As Nujol is not a medicine or laxative, it cannot gripe and, like pure water, it is harmless and pleasant. Nujol is used in leading hospitals. Get a bottle from your druggist today.—Advertisement.
