The weather man has been unusually kind to the people of this part of the state for the past two months. During July 3.51 inches of rain fell and during August thus far we have received 5.88 inches of moisture. 1.31 inches of rain fell Wednesday. So far this year we have received 22.92 L. Philley and Paul and Omer Wright. inches of moisture. The weather for the past two months is somewhat unusual for Nebraska, in that the rains came just at the right time and in reasonable quantities with the exception of the rain of August 4th, when we received 2.62 inches. The average annual percipitation is a trifle more than 22 inches for the year.
