# Prosperity Brings Smiles Smiles Bring Prosperity

A perpetual grin may not add to the attractiveness of all faces, but a smile displaces a frown with crowning grace and helps to add wealth to your life in more ways than one.

## Why Waste Energy

It has been discovered that it takes sixty-five muscles of the face to make a frown and thirteen to produce a smile. Why wear your face out manufacturing frowns?

## A Community Smile

You patronize and admire the individual who wears a smile, you are attracted to the business concern that meets you with a smile, why wouldn't it pay this community to meet the rest of the world with a smile? An ingrown frown is a heavy liability. Let's not acquire one.

THE UNIVERSAL CAR

## New Roadster

Business men—with whom the runabout has always been very popular—are well pleased with the changes embodied in this model.

Always rugged, the car has been made decidedly trimmer and more comfortable.

This result is obtained by raising the radiator and enlarging the cowl, making a decided improvement in looks and providing more leg room.

A well designed top and slanting windshield do their share toward adding a finished, clean-cut appearance.

Make it a point to see the other new models also on display in our show room.

These cars can be obtained through the Ford Weekly Purchase Plan.
