REFUSE NEW RAIL PROBE

I. C. C. Denies Petition to Reconsider Physical Value of Roads

Washington, Dec. 3. -- The Interstate Commerce Commission today refused a demand that it reconsider all of its work in the physical valuation of the country's railroads. .

Petitions making such a demand, presented by the national conference of valuation of American railroads which is headed by Cenator La Folltte, of Wisconsin, wer dismissed.

The conference, whose program was drawn up last spring at a meeting in Chicago attended by western political leaders and others, sought to have the commission establish the original cost of property investment and labor in railroads as well as other data. All the existing valuation work of the commission was attacked as unsound.

The commission's decision today held that it was practically impossible to find the facts as to the expenditures actually made by railroads in the period of their early history.

The commission directed that notices of all proceedings in arriving at valuations should hereafter be served upon Senator La Follette for his information as chairman of the conference.

SENATORSHIP HAS THE EYES

Republican Proposal Meetig at Pierre to Be Lively Affair

Pierre, S. D., Dec. 3. (Special)-Although there is apparently a general belief over the state that the real fight of the republican proposal meeting to be held here on Tuesday will be between the adherents of President Coolidge and Senator Hiram Johnson for the presidential nomination, the septiment here at this time is that there are other things which are more potential of a real scrap. Proposal men generally are of the belief that endorsement of a man for Black Hills. Effort will be made not president is of very little inportance after all, even though the eyes of the nation are centered on South Dakota just at this time. These hold that the contest between Governor Mc-Master and Senator Sterling for the possibilities for one of the hottest battles of years, while the gulbernatorial situation might develop into something very real.

It is generally conceded that real platforms will have to be adopted by the parties at this convention and that real principles instead of flowery pieces of literalture must issue from the conventions. Tuesday will largely be taken up considering planks and the indications are nominations will probably not be reached until the Tuesday night.

It is believed the woman may possibly recover. The shooting occurred Wednesday night, but Schumacher did not die until Friday.

The Schumacher's had been separated about a year. They had been married a number of years. It is believed Schumacher came here to secure possession of their child. He went to the place where Mrs. Schumacher and the child have been staying and quarreled with her on the tack porch of the place. The quarrel ended in Mrs. Schumacher being shot twice. The husband then ran into an alley and fired a bullet into his brain.

NOMINATION FOR SENATOR IS PREDICTED

Believed to Hold Safe Majority in State Proposal Convention

BY DENNIS O'LEARY

Pierre, S. D., Dec. 3 .- (Special.) --On a careful check of voting strength for the republican senatorial nomination as made Monday evening, Governor McMaster seems to have a slight advantage. This alignment may be changed Tuesday through trades on other nominations, but the best posted republican leaders think it will stand.

The republican delegates will represent a total unit strength of 78,258 votes. A totol of 39,130 is necessary for a choice with all present and voting . It is estimated here that Governor McMaster has pledged dele-gates who represent 42,000 votes a safe majority. Allowing for absentees the estimated strong strength iis 35,-500 votes. There is some doubt whether Sterling will carry the fight through to the primary if defeated in the proposal meeting here Tuesday. His followers are divided on that

If Sterling does not make a minority fight for the primary nomination the plan is do so without the aid of a full minoray ticket, thus escaping the hostility of the candidates on the regular ticket. If McMaster should be defeated in the proposal meeting. So his followers declare, he will carry the fight through to the primary.

Predict Gunderson Victory The opinion is general among republican delegates that Carl Gunderson will have an easy victory for the gubernatorial nomination. N. E. Knight, the only opposition candia date, has formal headquarters here and some followers but his candidacy is not taken very seriously.

Democratic and farmer-labor delegates have been working on fusion plans and indications are that they will get together on a state ticket. Even Tom Ayres is advocating fusion, tentative agreement has been made to give the gubernatorial nomination to the farmer-labor party and the senatorial nomination to the democratic party.

Some difficulty has been expertenced in outlining a ticket satisfactroy to both camps. The discussion Monday night centered about a fusion ticket with M. P. Bates as candidate for governor. U. S. G. Cherry as candidate for United States senator, Miss Alice Lorraine Daly as candidate for congress from the second

Candidate in Doubt That arrangement would give the

congressional nomination in the third district to the democrats but the candidate still is in doubt. There is a fight in both republican

and democratic camps over national committeeman. J. E. Simmons of Aberdeen entered the field against W. E. Milligan for the republican committee and did some tall trading for a time. Milligan's nomination seems sure. James Coffey and a few other old-liners have been making a fight agaiinst the avowed candidacy of W. W. Howes for national committeeof the democratic leaders think Howes will win.

The delegates from South Dakota to the republican national convention will be instructed for Hiram Johnson and the delegation will be headed by Senator Peter Norbeck. There will be no contesting Coolidge delegation. The democrats will select a Mc-

Adoo delegation. If the fusion arrangements are perfected, the farmer ticket may carry a Ford or LaFollette delegation to be applied in either way, while at the same time carrying the other nominations in harmony with the democratic ticket. The republican platform, as out-

lined Monday night, declares for large increases in national inherttance taxes, for lowering the taxes on incomes below \$10,000, for discrimination of 25 per cent in favor of earned incomes. For lowering of national taxes and for payment of soldier bonups. It advocates an increase of the wheat tariff to 60 cents a bushel and elimination of rebatet system which has been in vogue. Very little interest has been shown

in state ticket nomination other than governor. The contest for the republican nomination for state superintendent of schools seems to have narrowed down to Mrs. Edith M. Deaumont and J. W. St. John. Fred L. Shaw, who is a candidate to succeed himself, is said to have very little chance. The one term incumbents who are seeking re-nomination will have no serious opposition. Some political interest was created Monday afternoon by a notice filed with the secretary of state by R. E. Richards. It asserts the right of Mr. Richards as a former minority republican candidate for governor, to assist in organizing a minority movement at this time. This claim is based upon an obscure provision in the primary law. The only point involved is the possibility of Mr. Richards being allowed to upset the plans and get a full minority republican ticket in the
