WHO SAVES MONEY?

Who are the folks who always have an account at the savings bank?

The successful people—the men and women of fair to large incomes.

Almost all of them started with only a dollar, too. Now they are able to deposit comfortable sums every once in awhile—and all because the first dollar was saved.

Follow their example. From a small depositor, you, too, may become a large one. We pay 5% interest on savings.
