

HUSBAND SAID WHY NOT TRY IT

Wife Said She Would. Result, Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

East Hardwick, Vt.—"Last winter I was not able to do any work at all. I had backache, head ache, side ache, and was sick all the time for six months. We read about Lydia E. Pinkham's Vegetable Compound in the newspapers, and my husband said to me, 'Why don't you try it?' So I said I would, and he went and got me a dozen bottles. It has done me more good than I can ever tell, and my friends say, 'What have you done to yourself? You look so well.' I tell them it is the Vegetable Compound that makes me so well and strong. There is no use to suffer with backache and pains. I will tell every one what it has done for me."—Mrs. FRED. FRIMO, Route No. 2, East Hardwick, Vermont.

Housewives make a great mistake in allowing themselves to become so ill that it is well-nigh impossible for them to attend to their household duties. In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use. For sale by druggists everywhere.

When Century Begins

The year 1900 was the last year of the Nineteenth century. Theoretically the Christian era began with the birth of Christ. Since a century is 100 years the first century of our era must have ended with the year 100 A. D. Therefore the second century began with the first day in 101. The first century consisted of the years 1 to 100 inclusive. We are now living in the 24th year of the Twentieth century which began January 1, 1901.

YEGGS CRACK TWO SAFES AS CITIZENS PASS TO CHURCH

Cedar Rapids, Ia., July 13. (Special)—While scores of folk were wending their way to church Sunday afternoon a band of daring bandits were cracking two safes and trying to open a third in the offices of the Denecke department store. They obtained only \$100 from one safe, the other having only the personal papers of C. Denecke, head of the firm. The yeggs used nitroglycerine, attaching the fuses to the electric light cords in the offices. The contents of the safes were strewn over the floor together with blankets taken from the store's stock which had been used to deaden the noise.

INSANITY TO BE SLAYERS' PLEA

Battle for Lives of Chicago Youths Set for August 4

BL WILEY S. SCRIBNER, Universal Service Correspondent. Chicago, July 13.—When Nathan Leopold and Richard Loeb are brought to trial for murder on August 4, the first move of their attorneys is expected to be a motion to postpone the case to a later date, it was learned Sunday. The state is expected to demand an immediate trial. The question will be one for the trial judge to decide.

Insanity, as was predicted when the two college youths were arrested for slaying little Robert Franks, will be the main plea of the defense. The state of Illinois will not hang a crazy man for murder. So the trial may be to determine whether Leopold and Loeb are sane or insane.

Clarence S. Darrow and Benjamin Bachrach, attorneys representing the college youths, began to lay the groundwork for their insanity defense almost immediately after Leopold and Loeb had confessed.

Alienists Examine Lads

A dozen alienists, retained by the defense, have had the youths under constant observation for more than a month. Most of the alienists have completed their work and submitted their reports to Dr. James Whitney Hall, noted alienist of Chicago and chief of the sanity investigation for the defense. These reports are said to agree, that the youths are suffering from some form of mental derangement, probably moral imbecility.

State's Attorney Crowe, who will personally conduct the prosecution, has had four alienists for the state examine Leopold and Loeb. But it was only a superficial examination, lasting only a few hours. That was while the prisoners were in the hands of detectives, before they were turned over to the coroner's jurors. Since the prisoners have been in jail, they have refused to submit to an examination of state alienists.

To have the youths sent to an asylum for a few years appears to be the best the defense can hope for, in spite of unlimited wealth and social prominence, according to opinions of lawyers and laymen.

Demands Death Penalty

State's Attorney Crowe has announced he will prosecute the case with a view to sending the youths to the gallows. Nothing less than hanging will mitigate the crime and satisfy the state, he contends.

Public sentiment is divided. The average man on the streets will tell you what he thinks will be done with the youths, rather than express an opinion as to what should be done with them.

At the county jail the youths have been the center interest among other prisoners. They have received their meals from a fashionable restaurant each day, flowers have come to them, pretty girls have called on them. They have taken their imprisonment lightly, never appearing to feel but that they will be free. "They can't keep us here always," the remark credited to Leopold when he chafes under the confinement.

Way Last Weeks

The trial may continue for weeks. Testimony of each of the experts may require days and it is estimated that not less than \$100,000 will be the cost of prosecution to the state of Illinois. Unless the youths are set free—and nobody expects that—the supreme court will be called upon to pass on the finding of the jury and the trial judge. A little flaw would mean a new trial, more delay and criminal lawyers can see the case dragged through months and possibly years.

While the case is set for August 4, there are few who believe it will be gotten under way on that date. The matter of selecting a jury will probably require many days but before the choosing of a jury is started a long period of skirmishing for position is expected with possibly a postponement to another term of court.

CHARGES MAIN ISSUES DODGED

-W. D. FOULKE

Head of Civil Service Reform League Attacks Major Parties

Washington, July 13.—Once again the major political parties have side-stepped the main issues of betterment of the classified federal service in the platform, according to William Dudley Foulke, president of the National Civil Service Reform League. "The politicians of both parties," Foulke declared, "wanted to make us believe that they were in favor of the merit system—the republicans by showing what tremendous services the party had rendered it, and the democrats by showing how their adversaries had crippled and degraded it, and by their promising their own account more complete fidelity. The efforts of both sides were laughable." The republican declaration that improvement in enforcement of the merit system "has been marked and effective under the present administration," Foulke termed "a gigantic whopper."

"Not only was there no improvement," he continued, "but a distinct degradation of the principle." While discovering some merit in the democratic plank, Foulke assailed the doctrine that "every executive man, however low, is to be preferred to every other competitor, however high, as meaning the "destruction of the merit system."

TOURIST SLAIN; HUNT FOR IOWAN

Michigan Man Beaten to Death in Camp at West Liberty

Cedar Rapids, Ia., July 13. (Special)—Police and sheriffs in all eastern Iowa counties are bending every effort to run down Gabe Simmons of Tipton, Ia., who is wanted in connection with the slaying Saturday night of Orton Ferguson, age 30 years, a tourist of Atlanta, Mich., in a tourist camp at West Liberty, Ia., near here. Ferguson's brains were beaten out with an iron bar which the murderer dropped by the body after stripping it of all clothing and leaving his own worn-out shoes and trousers behind. Robbery was undoubtedly the motive, but the slayer overlooked \$116 which was sewed in Ferguson's undershirt. He did get \$20 however. The crime was discovered by Mrs. Ferguson. She awakened at 12:15 o'clock Sunday morning and not finding her husband beside her, left the tent to search for him. She met the man who, the night before, had posed as the custodian of the camp. She ran screaming and the man followed her, telling her not to be alarmed that he would find her husband. He ran from the park. Thirty feet away Mrs. Ferguson stumbled over the dead body of his husband, Simmons, the man sought, was recognized by Fred Budke of Quincy, Ill. he having known him at Tipton. Budke said he had been posing as custodian of the camp for two days. Other tourists said Simmons had been directing campers where to sleep at night, getting them as far apart as possible. Mrs. Ferguson said she approached them on their arrival Saturday night and asked where they were from and where they were going, and if they were armed telling them fire arms were not permitted in camp.

PROGRESSIVES TOUT BRANDEIS

Supreme Court Justice Offered Second Place on LaFollette Ticket

Washington, July 13.—Louis L. Brandeis, member of the United States supreme court, has been offered the progressive indorsement for second place on the LaFollette ticket this fall.

This was learned Sunday from sources close enough to the progressive headquarters to give it every semblance of authenticity.

The LaFollette supporters want Brandeis as vice presidential candidate for a number of reasons. First and foremost, they recognize in the eminent member of the supreme bench, one of the most brilliant minds allied with the progressive movement. Brandeis has hosts of friends all over the country among the intellectual radicals and these friends are ardent admirers of his views and his courage in expressing them.

Second, Brandeis is a democrat and comes from Boston, an eastern state. They hope in this way to either capture Massachusetts or to so cut down the Coolidge vote as to throw the state to the democrats.

Third, they think they can capture New York with Brandeis on the ticket, and this is the reason they would be willing to lose Massachusetts to the democrats for New York has 45 votes in the electoral college.

The LaFollette followers feel that if they can persuade Brandeis to leave the bench and go on the ticket with "Fighting Bob," they can be sure of the electoral vote of New York state.

No word whatever comes from Senator LaFollette as to his views on the matter. It is known that he and Justice Brandeis are close friends and that they and their families have been visitors at each other's homes recently.

Justice Brandeis is said to have declared that he can best serve the progressive cause by remaining on the bench. Together with Justice Holmes, he constitutes what progressives call the "liberal minority" of the court. These two usually sign the dissenting views of the minority whenever a question involving liberal policy is decided by the court.

German Can Crack Nuts With His Lip

That nature can enable one part of the body to carry out the functions of another which has been lost is demonstrated in the case of Otto Friedson, a native of Emundsens, Germany, who lost all his teeth at the age of thirty-one, and presumably could not afford a set of false ones, says London Answers.

His lips are now so strong and hard that he can crack nuts with them and can do nearly everything that the ordinary person can do with his teeth.

He has been examined by many medical men, who attribute his wonderful power to hypertrophy of the muscles of the lips, which have increased enormously in thickness and firmness.

This man has been an inveterate pipe smoker all his life, and much of the power of his lips is attributed to holding a heavy pipe between them.

Almost Burned Up \$4,000

After Phoenix Warner, eighty-six years ago, who lived the life of a recluse on a 50-acre farm near Frazel, Md., died in his dingy, one-room shack, his nephew, Calvin Paul, to whom he left his property, razed the shack, using the good lumber for repair work on his property, a short distance away. He burned the debris.

A few days ago Levi Garlitz, a farmer of the vicinity, taking a stroll through the woods, happened upon the charred remains of the Warner hermitage. He was whisking a stick through the dried embers, dislodging a stone, which uncovered, to his amazement, \$4,000 of paper money, half burned. He had dislodged the keystone to the hermit's money cache. The bills ranged in denominations from \$1 to \$100. Part of the burned money was redeemed at a bank.—Washington Star.

Causes of Earthquakes

What produces earthquakes is a problem not yet settled to the satisfaction of the scientist. Tremors of the earth may be caused by explosion of mines, falling in of caves, slipping of rock strata and many other movements of the earth, but these do not explain the great shocks satisfactorily. Earthquakes are likened with volcanic activity, but which of the two is cause and which effect is not known.

Famous Mount

Mount Parnassus is in ancient Phocis, 85 miles northwest of Athens. It is celebrated as one of the principal seats of Apollo and the Muses, and as an inspiring source of poetry and song. The Delphic oracle and the Castalian spring were on its southern slope. The expression "to climb Parnassus" meaning to write poetry, is an expression once in vogue.—Kansas City Star.

Hurt by Bobbed Hair

The future commercial prosperity of Chefoo, China, a city of 100,000 population, depends largely on whether American women will continue to bob their hair. Chefoo's chief industry is making hair nets and they sell \$5,000,000 worth to this country each year, in addition to exporting \$3,000,000 worth to France and other countries. In China the price for the nets runs from \$1 to \$2 a gross and for making them factory workers are paid 7 cents a day.
