

One Man and His Town

A man by himself is just one man. Multiply him by hundreds or thousands or millions and he becomes a town or city or nation.

If he "gets on in the world," so will dozens or hundreds or thousands of his associates. If he fails, so will a greater or less number of others—for no man can affect only himself by his actions.

EDUCATIONAL NOTES.

The next teachers' examination will be held here August 1st and 2nd.

Beginning September 1, 1924, all persons in order to be eligible to certification in Nebraska must have attained the age of eighteen years. If all requirements are met for a certificate it may be issued on the day the applicant is eighteen years old and not before. Such applicant is not authorized to teach before the issuance of the certificate. After September 1, 1924, county superintendents will be required to give on their certificate reports to the state department the ages of all persons to whom certificates have been issued for the first time.

One hundred ninetyeight districts have made their annual report to the county superintendent. Two districts have not yet made complete reports. Districts failing to make this report will forfeit their State Apportionment money.

The June State Apportionment amounted to \$9,437.16.

All districts contracting with teachers should report date of such contract without delay. A card which can be used for that purpose will be found in

the tablet of blanks sent to each director in the county May 12, 1924. No school board should employ a teacher without first ascertaining she holds a legal certificate.

Four hundred five students have made application to this office for Free High School Tuition.
