Wednesday was Arbor Day. About the only outward demonstration connected with the day is the closing of the banks and county offices. Everyone who contemplates planting trees have done so before the day set apart for this purpose arrives.

Rev. and Mrs. J. A. Hutchins, daughter Esther May and son Goodsell, and Mr. and Mrs. W. P. Curtis drove over to Ponca last Sunday afternoon where they spent the evening and following morning at the home of Mr. and Mrs. Joe Mendenhall, relatives of both families.

A number of small tornados did considerable damage to towns east and south of us Wednesday evening about eight o'clock. At Royal and Brunswick a number of roofs were blown from railroad cars and a number of out buildings were blown down. The most severe storm seemed to be in the vicinity of Pierce where numerous barns were destroyed and several houses were killed. Norfolk, Battle Creek, Fullerton, Elgin and various towns in their vicinity were visited by twisters. No loss of life or serious injury to persons is reported.

This part of Holt county has received two nice rains during the past week. Last Friday night .48 of an inch of rain fell during the night, and again Wednesday evening a heavy shower brought .49 of an inch. Notwithstanding the fact that the old timers are predicting a dry year everything at this time points to an early spring and a big crop during 1925.

Dr. T. V. Golden, of Creston, Iowa, a former O'Neill resident, has received notice from the war department of his appointment as a lieutenant colonel in the medical section of the officers reserve corps. Golden of this city.

George Bradt received a sprained ankle and a severe bump on his head which rendered him unconscious for some time, when a team of young horses ran away with him Tuesday afternoon, while he was moving a load of household furniture to his farm northeast of O'Neill where he is going to make his home. Irwin Simonson came along soon after Mr. Bradt was thrown from the wagon, and brought him to town where he received medical attention.

Ralph Hudgins, the young man who was sentenced to serve a term in the men's reformatory at Lincoln, for passing a forged check, succeeded in making his escape from the jail Thursday evening while Deputy Sheriff Bergstrom was getting some fuel with which to build a fire in the jail. The deputy sheriff did not lock the jail door while he went to the shed nearby for the fuel, in the meantime the prisoner took his departure. He was apprehended at Inman late that night. Constable George Bay went to Inman on the early morning passenger train and got the young man as he was getting on the "head end" of the train, and returned him to the jail. The chances are that he will be given no further privileges during his stay in O'Neill.

FRANK DANIELS, 23, RESIDING NEAR EWING FOUND DEAD IN CAR

Ewing, Neb., April 21st: Frank Daniels was found dead in his automobile one mile from home at 11 o'clock Monday morning. He had apparently shot himself with an automatic revolver which was found lying at his feet.

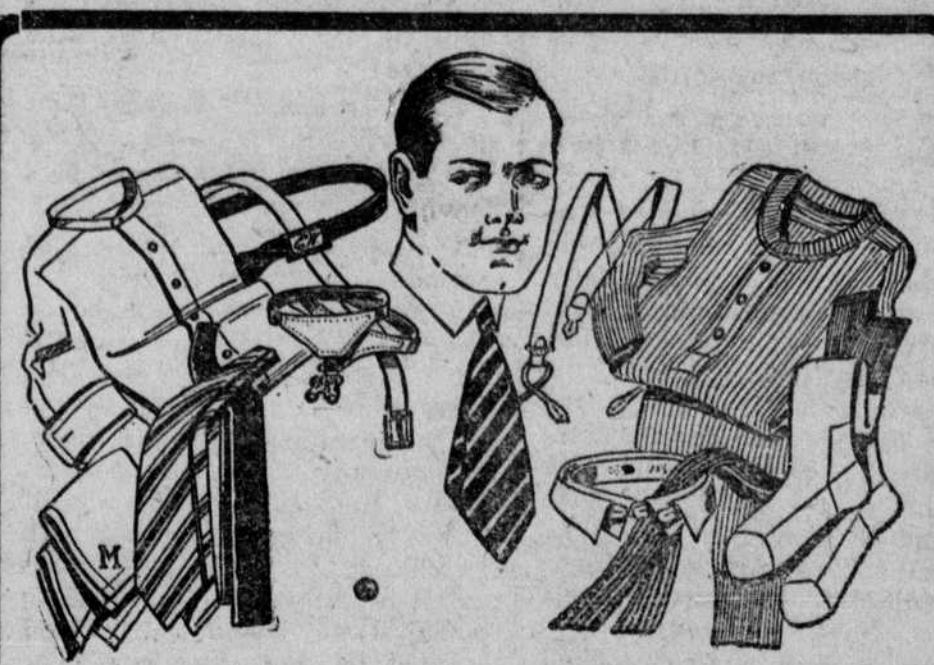

Mr. Daniels had spent the afternoon in Ewing Sunday and was seen driving towards home at about 6 o'clock that evening. He had evidently been shooting at jack rabbits along the road as one rabbit was in the back of the car with a bullet hole through its body.

Perry Saiser, mail carrier, while making his rounds saw the car standing in the road with a man lying in the front seat as if asleep. Upon investigating he ascertained that he was dead. Saiser immediately telephoned from a neighbor's to Dr. Briggs of Ewing, who at once drove to the place of the accident.

It was Dr. Briggs' opinion that Daniels had been dead at least twelve hours and that death had been caused by a bullet passing through his brain.

Frank Daniels was a young man of excellent habits, 23 years of age living with his mother, Mrs. John Daniels, on a farm ten miles southwest of Ewing. He was a brother of Gus and John Daniels both well-to-do farmers of this community.

The Daniels family have resided here since 1900. County Attorney Julius D. Cronin

THE FRONTIER CANNOT USE OLD MAGAZINES

The Frontier has been asked several times if they can use old magazines and clean sorted newspapers. We cannot use them for the reason that we have no paper baler and have no way of putting them on a market where they would bring any returns for the trouble of handling.

FISH HOOKS

J. P. Gallagher and son, Frank, enjoyed their first fishing excursion of the year to Cherry county lakes last week. They were the guests of Dr. Matt Meer, of Valentine. D. H. Clauson, S. J. Weekes and Tom Hanson drove over to Swan lake Friday and relieved the lake of a couple of nice pickerel. Tom was unable to land the larger one that assailed his hook but D. H. brought home a 9-pounder and S. J. claims one somewhat smaller.

Dodge Brothers Set New Record

Deliveries and Production Exceed Best Previous Week in History.

Dodge Brothers have been establishing new high records continuously for several months, as compared with similar periods for previous years, but the record of the week ending April 11 is the best in the company's history.

With retail deliveries aggregating more than 7,000, an average of more than 1,300 each production day, the best previous week was surpassed by several hundred cars. New retail orders exceeded the corresponding week of 1924 by 1,000, or approximately 19.7 per cent.

Although Dodge Brothers Motor Cars are now being built at the rate of 1,100 a day, both deliveries and new orders are some 200 a day in excess of production.

"Had dealers' stocks permitted, the number of deliveries for the record week would have been even greater," said John A. Nichols, Jr., Vice-President in Charge of Sales. "It is not a spurt, but a steady, healthy climb."

Those wanting new cars better place their order at once.

J. M. Seybold, O'Neill
