Today's baseball game between O'Neill and Stuart attracted fans from as far west as Long Pine, as far north as Gregory and as far east as Plainview. Among the enthusiastic rooters for O'Neill was Will Gahagan, of Plainview, who formerly resided northeast of town. Mr. Gahagan and friends remained until after the water fight between O'Neill and Orchard before returning home.

O'Neill lost one of the most interesting and close games of the season to Lynch, on the local diamond last Sunday. The score was 4 to 2 in favor of Lynch, the Lynch victory being due to a couple of unfortunate errors after the home team apparently had the game won. The game was a pitcher's battle, Ed Allen officiating for O'Neill and Art Tomlinson for Lynch. Both had lots of stuff and served it hot and in admirable style.

The local baseball magnates Tuesday received word from Royal that the latter was compelled to cancel their game here Sunday, because of a previous and overlooked game already scheduled. Instead O'Neill will play Stuart at Stuart next Sunday. This will give O'Neill a Sunday game with Stuart on the home grounds later on. The Royal game also will be played on a later Sunday date.

Two packed houses witnessed the production of "The Snob" at the Royal theatre Tuesday evening. The production was given under the auspices of the alumnae of St. Mary's academy and as a benefit to assist in raising the \$2,500 pledged which the alumnae has made to the silver jubilee of the academy next fall. A delightful program was included with the rendition, in which several of O'Neill's precocious juveniles made a big hit with the audience. The special program included a dance by little Miss Mildred Timlin; a reading by Miss Loretta Phalin; a song by those headliners of the big time circuit, Gene and John Robert Gallagher; a gypsy dance by Miss Timlin; a song which captured the audience by little Dorothy Reardon, a song by the Misses Helen and Reta Reardon and a dance by Mary Biglin.

A seven day a week, daily round trip bus service between O'Neill and Winner will be inaugurated by E. J. Velder beginning Sunday. Mr. Velder at present operates the line from O'Neill to Lake Andes. Wednesday was the hottest day so far this summer in O'Neill, and incidentally the hottest of which there is any record in the local weather bureau. The government thermometer recorded 108 degrees. The previous hottest day was August 15, 1922, when the thermometer registered 106 degrees. Following is the record for the last six days as furnished by Government Observer Harry Bowen: Friday 102, Saturday 100, Sunday 99, Monday 101, Tuesday 102, Wednesday 108. Corn has stood the intense heat exceptionally well and has been making phenomenal growth.

O'Neill defeated the Lee Brothers Circus baseball team in a seven inning game at the fair grounds Saturday afternoon immediately after the show by a score of 6 to 3. Bishop officiated in the box for the locals and one of the other stars of the game was Manager Fred McNally on second base, who stopped everything which came his way although he had to wrestle with some of the hot ones. The circus aggregation was composed of some excellent ball players and the game was exciting from start to finish, the show boys being backed by an earnest and voluble bunch of rooters. A fair attendance was present at the game. In the evening a dance at the bowery for the benefit of the local team drew a good crowd. It was a financial success.

Business men and athletic enthusiasts of the city are contemplating the leasing of ground in the north part of the city north of St. Patrick's church for the establishment of an athletic field and the erection of a grandstand, the field to be used for baseball in the summer and for football and other athletic events in season. Secretary John L. Quig of the fair association has notified Manager Fred McNally of the baseball team that the directors of the fair are insisting that the baseball club either pay rent for their occasional use of the fair grounds or assume part of the indebtedness of the fair. The demand of the directors of the fair practically makes the purchase or lease of an athletic park more centrally located necessary as neither the baseball team or school athletics are run for profit and rarely pay expenses. A park closer in it is thought might increase the attendance somewhat, particularly at the occasional weekly games. The attitude of the fair directors is somewhat mystifying and comes as a surprise, as the grounds on which the fairs are held were donated for that purpose by citizens of O'Neill, who also as taxpayers assist in paying the bonus the fair draws from the county each year.

WALTER SIMMONS TO DIE AUG. 11, BOARD'S DECISION

Lincoln, Neb., July 16.—Walter R. Simmons convicted murderer, today lost his long battle for life when the state board of pardons denied his final application for a commutation of sentence from death to life imprisonment.

Simmons must die in the electric chair between 6 a. m. and 6 p. m. on August 11, the date set for his execution, according to the ruling of the board.

The board members are Governor McMullen, Secretary of State Pool and Attorney General Spillman. Governor McMullen issued this statement:

"We have given Simmons and his attorneys every opportunity to prove his innocence. We have gone into the entire case time and time again, and have permitted testimony without regard whether it was old or new. We have done everything possible, and believe no mistake has been made. Personally, I am opposed to capital punishment. During several terms of legislature I have done what I personally could to have the law repealed. But it still stands as the law, and must be enforced."

The statement of the board as a whole was that all the courts had passed on the case, and had found no errors.

WHY MILK REMAINS SWEET

I have just installed a new Reid Milk Cooler and Aerator. The milk passes over the coils and cold water passes through them. The milk is cooled from 98 degrees to 55 degrees as fast as it is milked. The milk loses all the animal heat before being bottled and will remain sweet much longer. Due to the rapid increase in business since installing the cooler I believe it is a great help to my customers.

I have also built a large cooler holding 1200 pounds of ice for storing our butter and other dairy products. This insures you receiving them in the best of shape.

All the leading dealers in town handle our butter! When buying, ask them for it.
