

# SHE WENT FROM BAD TO WORSE

Down to 98 Pounds—Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound

Cleveland, Ohio.—"After having my first baby, I lost weight, no matter what I did. Then a doctor told me I would be better if I had another baby, which I did. But I got worse, was always sickly and went down to 98 pounds. My neighbor told me about Lydia E. Pinkham's Vegetable Compound, as it helped her very much, so I tried it. After taking four bottles, I weigh 116 pounds. It has just done wonders for me and I can do my housework now without one bit of trouble."—Mrs. M. RIESSINGER, 10004 Nelson Ave., Cleveland, Ohio.

If some good fairy should appear, and offer to grant your heart's desire, what would you choose? Wealth? Happiness?

Health? That's the best gift. Health is riches that gold cannot buy and surely health is cause enough for happiness.

Lydia E. Pinkham's Vegetable Compound may be the good fairy who offers you better health.

## The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Fretfulness and fever, too; it seems no time until everything is serene.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Being purely vegetable, you can give it as often as there's a sign of colic; constipation; diarrhea; or need to aid sound, natural sleep.

Just one warning; it is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold.

In a recent paper prepared for the Smithsonian Institution, Dr. David Starr Jordan treats of the efficiency of the so-called mosquito fish as an exterminator of carriers of malaria and other less dangerous but equally irritating mosquitoes. In 1904 Doctor Jordan was instrumental in introducing this fish into the Hawaiian Islands, where it has since become very abundant and has practically rid the islands of mosquitoes.

## If Back Hurts Begin on Salts

Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.

## Chemicals Worth \$300,000,000 Bought by Syndicate in Dead Sea

Haifa, Palestine. (AP)—Every tale of buried treasure ever spun by imaginative adventurers or some of buccannery is dwarfed by the wealth which a British-Palestine syndicate is preparing to extract from the Dead sea.

The company has obtained preference over American and continental bidders for the concession, and as soon as the harbor which the government of Palestine has planned here is constructed and when 20 miles of electric railway are built to link Haifa with the shore of the Dead sea, the work of turning salt into money will begin.

From the body of water famous in Biblical narrative the syndicate plans to extract some 1,300,000,000 tons of potash worth \$70,000,000 and 853,000,000 tons of bromine valued at \$250,000,000.

According to representatives of Major Tulloch, British engineer, and Novemevsky, Palestinian chemist and civil engineer, who head the British-Palestine syndicate, the Dead sea contains sodium chloride, potassium chloride, magnesium chloride and bromides.

By a process of evaporation, the Dead sea produces common salt in great quantities containing carnal-

lite, which treated with hot water resolves into solid potassium chloride and the solution containing magnesium chloride and magnesium bromide. A simple process turns the potassium chloride into potash in demand for fertilizing arable fields.

The resources of the Dead sea are considered to be practically inexhaustible, since the strength of the brine increases year by year. A good deal of the brine seems to come from the streams which flow from the desolated high lands of Palestine after rains.

Potash hitherto has been almost exclusively a German monopoly in Europe. Britain plans by this new development to produce its fertilizer within its own empire.

The extraction of potash and other chemicals from the Dead sea has been under consideration for nearly 30 years. Schemes had about reached a head when the World war broke out. Before the end of the war Palestine had become a British mandate, losing its Turkish sovereignty, and after the war plans for the new industry acquired fresh life.

On his first voyage to America, Columbus landed in the West Indies on the island of San Salvador.

### Following Up.

From the Pathfinder.  
"Doctor," said the woman to her neighbor at the table, "can you tell me who that horrible looking man is over there?"

"Why, yes, I can. That's my brother."

"Oh, pardon," stammered the woman, all flustered. "I ought to have known it by the resemblance."

### Figuratively Speaking.

From Life.  
"What did you do when your husband disapproved of your bathing suit?"  
"Oh, I just laughed it off!"

### Further Details.

From the Chicago News.  
"What is a statesman?" asked the school principal of 5-year-old Freda.  
"A man who goes about making speeches," answered the little girl.  
"Fair, but not quite correct," said the inspector. "I myself sometimes make speeches, but I am not a statesman."  
"I know," returned Freda, smiling brightly; "a statesman is a man who makes good speeches!"

### MUSSOLINI HERO OF FASCIST'S NEW PLAY

Cremona, Italy. (UP)—Roberto Farinacci, Premier Mussolini's onetime fiery lieutenant and former secretary-general of the fascist party, has decided to devote himself to the theater. He has written a three-act drama called "Redemption," which is understood to have a strong political flavor, and in which the hero, a somewhat thinly disguised Mussolini, saves his country from anarchy and disruption. The play is to be given at the "Verdi" theater here, by Luigi Carini's company, which will afterwards take it on tour through the principal cities of Italy.

### PICTURE ON STAMPS

Bucharest.—It always has been custom of the Rumanian government to use the picture of the reigning sovereign on postage stamps. In accordance with this, 6-year-old King Michael's likeness is to appear on a forthcoming issue, even though he is not an active ruler. The portrait shows the boy in a simple white shirt of American design.
