

The VICTORY SIX

BY DODGE BROTHERS

5 to 25 Miles Per Hour in
7 1/4 Seconds!

10 to 45 Miles in 13 1/2 Seconds!

No other car in The Victory price class can approach these astonishing get-away figures! And the statement holds equally true of Victory speed! . . . Watch the car flash thru traffic, lead off at the go signal and hold its lead! Ask Victory owners about its amazing pull on the hills!

There's a simple, logical answer to this spectacular performance—unequaled power per pound of car weight.

In other words, a new and superior kind of engine with a new and superior kind of body.

The problem of weight solved thru simplicity of design. The problem of design solved thru simplicity of parts. (No body sills—only 8 major body pieces)

High power made feasible by rugged Dodge construction and Dodge quality materials . . . High speed made practical by a lower gravity center and no body overhang. (Chassis full width of body)

This is Victory Demonstration Month. Drive the car—any hour you please—and win one of Dodge Brothers big Demonstration Prizes. (Full details on request)
