

A turn of the faucet and steaming, cleansing, crystal clear water answers. The general use of electricity in homes has brought about many wonderful advances in civilized living, none of greater importance than a continuous, ever-ready supply of hot water. Without hot water, a house is just a place of shelter. With it, over half of the house-work is made more easy. A hundred household and personal needs are filled.

The Clark Electric Water Heater, automatically operated, is an ideal installation for every home, apartment and hotel. Made in many sizes, a model can be used that will take care of any hot water requirement, large or small.

A Complete Unit

When you install a Clark Electric Water Heater you have accomplete device. No additional tank or appli-ance is needed. Mechanically perfect, it is endorsed by hundreds of Electric Power Companies and ousands of users in all
