The victims of a surprise party are always on the outside till they are inside. Another successful surprise party was planned and executed Saturday night, and the victim was Mrs. Charles Manning, the occasion being her birthday anniversary. The crowd was not very large, since Johnson could not attend, but his absence was partly made up by the presence of W. O., who is perfectly able to fill most any vacancy. The birthday cake was made and brought in by a neighbor all adorned with candles, but we don't tell how many. We can say the victim is still young and fairly good looking.

BRICK BATS.

Our trip took us through Detroit, the city that Jack built. A lot of that Jack came from Nebraska.

They don't talk politics much in Michigan. You see nature has provided the country with millions of rocks and pebbles about the size of a baseball and therefore talking politics come under the head of dangerous pass-times. Everybody there raises grapes. They ship them across the line to the Canadians in baskets, who smuggle them back again in bottles. Then to Montreal, the wonder city, because you wonder who keeps sober long enough to direct traffic. Then to Boston, the town of crooked streets, British language, fishy eyes, and itching palms. Of course it is a fine place but it does tire one to have to make them write what they try to tell you so you can understand them. The only things common there are the Boston Commons which endeth the lesson—"Brick."

TILDEN MAN MOVES TO NEIGH TO LIVE (Nehlig News)

Dan Davlin, of Tilden, who has been employed as salesman for the Bealer Auto Co., of that place, became interested in the Graham-Paige last week and came to Nehlig and joined the Purcell Motor Co. force. He has moved his family here and expects to remain in this city permanently.

Mr. Davlin has been in the automobile business for about nine years. He is well acquainted in the northeast part of Antelope county where he has relatives.

BRICK BATS.

They say that travel broadens one. It also flattens one, too. Passed through Chicago, the big "Pineapple" plantation, where the packing industry is also practiced as a sideline. Heard a strange noise, sounded like a pneumatic riveter. We hurried to
