

1st in each fuel class

For motors with normal compression, **Red Crown Gasoline** is your assurance of quick starts, strong acceleration, maximum power and mileage.

In high compression motors and carbonized motors, **Red Crown Ethyl Gasoline** gives more power and smoother operation. It eliminates gas knocks. Try it.

For high quality products and obliging service, buy gasoline and motor oil where you see the Red Crown Sign.

Polarine
for protective lubrication
Keeps hard working motors powerful.
Consult Chart for correct grade.

DO YOU HAVE A HOBBY?
Editor Ambrose Rohde

By Ambrose Rohde, Editor.
What is your hobby? Maybe you don't have one, but if not, why not? A person who is busy with his special hobby during his leisure time has his mind occupied and can also enlarge his thinking capacity.
The beauty of a hobby is that the market is not overrun with them and best of all, there are a great number of things from which to choose.
During the past years, with the coming of the radio into such common use there are quite a few people who become very interested in it. Some wish only to try and hear from as long a distance as possible. Others are more interested in building sets and still

others like best just, to "listen in."
Then there are many young people, as well as old, interested in collecting stamps. President Harding was one of these and in his honor the government issued a two-cent stamp.
I think the best hobby to engage in is making friends and keeping them. Think what it means to have not only a friend, but friends and plenty of them. This is a hobby that will last for years and best of all its interest never ends. A good policy to follow in this hobby is to remember that "the only way to have friends is to be one."

COMMERCIAL GEOGRAPHY.

We will have a motion picture show, for the Commercial Geography class,

March 8th. The name of this picture is, "Lead Mining and Milling."
This film is put out by the United States Department of Commerce, Bureau of Mines, located at Pittsburgh, Pennsylvania.

We are able to secure these films, through the generosity of the University of Missouri Visual Education Service at Columbus, Missouri.
On Friday, March 15th, the story of "Lead Smelting," will be shown. These films are put out by the same bureau.
We plan on having a film each week from either the Y. M. C. A. motion picture bureau or the Department of Agriculture of the United States General Electric Company, at Schenectady, New York, or from the Department of Commerce of the United States.

PHYSICS.

By Charles Graham
Class work in Physics now consists of the steam and oil engines.
An interesting experiment which some of the class worked, was filling a glass tube with water. Ice was dropped to the bottom and held there by a spring. The top of the tube was heated until the water boiled while the ice remained at the bottom. This shows that water is a poor conductor of heat.

COMMERCIAL.

Trial speed tests are being given in Beginning and Advanced Typewriting, and in Beginning and Advanced Short-hand and Bookkeeping to determine our entrees for the Commercial contest which is to be held at Norfolk, March 23.

The three best students from every class will be sent to represent our school.
Shorthand and Typewriting are divided into two classes: Novice, which includes students who have not taken this work prior to September 1st, and the Champion; representing the best products of the school.

THE INAUGURAL ADDRESS.

The high school and junior high had the opportunity, Tuesday, March 4, to hear the inaugural ceremony of our new president, Herbert Hoover.
We thank Mr. A. E. Bowen for his cooperation in making possible our hearing of this program.

WORLD HISTORY.

The following people, (having maintained a weekly grade of "90" each week), were exempt from the six weeks test: George Abdouch, Alice Page, Mary Ellen Pinkerman, Helen Toy and Helen Given.

LOCAL SPELLING CONTEST.

The local spelling contest will be held on March 8th at the O'Neill High School auditorium. The entries will

be from a few rural schools and the O'Neill Public School. The spelling contest will be held in groups, the first and second grades will spell together, the third and fourth grades, the fifth and sixth grades, the seventh and eighth grades and the ninth and tenth grades. The winners will compete in the county contest which is to be held March 15th. This contest will also be held in the O'Neill High School auditorium. Come! Hear us spell.

"Rabbit's foot and spidah aigs
Keep the kink pains outen laigs,
Graveyard clay in top o'shoe
No harm comes from ole Voodoo."

"In the long ago robbers and murderers lighted fires that lured travelers to destruction. Many a wayfarer, wear, burdened, often distressed, took heart as he saw what seemed to be a friendly light. With high hopes and renewed courage he quickened his step only to find misery, suffering and in many instances death lurking behind what had become a baleful gleam."

Patent medicines kindle false beams for the actual sufferer and for those who think they are sick. Fortunes are made out of preparations that claim to cure nearly every ailment under the sun.

A book published in 1856 has for its title "The Long Lost Friends: A collection of mysterious Arts and Remedies for Man as well as animals with many proofs of their virtue and efficacy in healing diseases." According to this book "Whoever carries the right eye of a wolf fastened inside his right sleeve remains free from injury." Haven't all of us wished for eyes, front, back, and side when crossing some city streets?

The following remedy for toothache, according to the author of the book has been "vouched for by countless ones." "Cut a piece of greensward (sod) in the morning before sunrise, breathe three times upon it, and put it down in the same place from which it was taken." Do you suppose that was "Patented?"

Here's another:
"From angle worms we get worm oil, its smell would make you dizzy. But its sure to ease the joints of folks that's rheumatizy."

Have we gone so far ahead? We'll consider our 1929 nostrums next week.
Mary Graskamp,
Red Cross Nurse.

HOME ECONOMICS.

By Elizabeth Henry.
The Home Economics girls will discontinue serving hot dishes this week. In next week's paper we will publish a synopsis of the result of each week's profit or loss.
The following table shows you the different ways of cooking vegetables:

- 1 Bake
Irish Potatoes
Sweet Potatoes
Squash
- 2 Steam

The Only Real Test for

Baking Powder is in the Baking

For Best Results Use

KC BAKING POWDER

DOUBLE ACTION
First in the Dough - Then in the Oven

Same Price 25 Ounces for 25¢
For Over 38 Years

Millions of Pounds Used By Our Government

- | | |
|----------------------------|---|
| Sweet Potatoes | 3 |
| Squash | |
| Farsnips | |
| Carrots | |
| Yellow wax beans | |
| Beets | |
| Spinach | |
| Green peas | |
| Green beans | |
| Boil (in an open kettle) | |
| Spinach | |
| Green peas | |
| Green beans | |
| Cabbage | |
| Brussel sprouts | |
| Cauliflower | |
| White turnips | |
| Yellow turnips (Rutabagas) | |
| Onions | |
| Red cabbage | |

When boiling red cabbage add one tablespoon vinegar to each cup of cooking water.

EIGHT GRADE.

The following pupils have been

neither absent nor tardy during the last weeks. Wanda Spangler, Lucille Young, Richard Loy, and Junior Toy. We are going to have a story party this week. It is a review of Riddles, Readings, Poems and Dramatization.

SEVENTH GRADE.

Margaret Beed, who has resided in Orchard, Nebraska, for a short time past, has moved back to O'Neill and is now attending this school.

In last week's examinations, Burdette Miller received the highest average grade in all subjects, with Pearl Burge second and Nona Bressler third.

DECLAMATORY CONTEST.

The Declamatory Contest, which is to be given March 12, 1929, at 7:30 p. m. in the school auditorium, includes the following entries:
(Continued on page 8.)

Big Combination Sale

At Opportunity, Nebraska, 17 miles northeast of O'Neill, and 17 miles northwest of Page, on County Road No. 343.

Wednesday, March 13, 1929

Bring anything you have to sell. Just ask Bert Powell or Dale Potts.

Terms of Sale will be CASH.

No property to be removed until settled for.

BERT L. POWELL and DALE POTTS, Mgr.

COL. BUV WANSER, Auctioneer.

I. R. RIDGEWAY, Clerk.

In the Great Midwest "The Telephone Saves In a Dozen Ways"

"The telephone saves us time and money in a dozen different ways . . . we would not think of getting along without the telephone," says a Midwesterner.

Americans are quick to endorse labor and time savers . . . the automobile, up-to-date farm machinery, radio, telephone . . . all of which are developments of science and large business organizations.

This Company, which furnishes a substantial part of the telephone service in Iowa, Minnesota, Nebraska, North and South Dakota is one of 24 Associated Companies of the Bell System . . . a nationwide system of communication.

The Bell Companies and many others which connect with them are all linked together to provide a national service. Because the whole Bell System stands behind your telephone you are assured of being able to talk clearly and quickly not only with neighbors, but with people throughout the nation.

NORTHWESTERN BELL TELEPHONE COMPANY
