A SIX IN THE PRICE RANGE OF THE FOUR

If you are considering the purchase of an automobile, you owe it to yourself to check the new Chevrolet Six against any other car—value for value and price for price!

Here, in the price range of the four, is offered a smooth, powerful, six-cylinder valve-in-head motor—which delivers better than 20 miles to the gallon of gasoline—and whose smooth, quiet, velvety operation, with its complete lack of drumming and vibration, is a revelation. Here are beautiful bodies by Fisher—with fittings by Ternstedt... rich, deep-tufted upholstery and adjustable driver's seat. And throughout the entire chassis are found numerous examples of advanced engineering—such as quiet, non-locking 4-wheel brakes... ball bearing steering mechanism... and automatic acceleration pump.

But no mere recital of features can give you any conception of Chevrolet's value leadership. So we urge you to come in and see for yourself why over 500,000 people have chosen the new Chevrolet Six since January 1st!

The prize winning essays offered by the W. C. T. U. to the Seventh and Eighth grades on the topic: "Milk Bottle versus Beer Bottle" will be read at this meeting. Everyone interested is cordially invited.
