## THE PORK SPECIAL WILL BE IN O'NEILL WEDNESDAY, OCTOBER 2ND

The "Profitable Pork Special" train will open its doors in O'Neill the morning of October 2nd, according to plans completed today by the local committee, composed of Dr. Finley, H. L. Bennett, Neil P. Brennan, Mrs. Luella Parker, L. E. Downey, Val Kuska, colonization agent for the Burlington railroad, and R. E. Holland, representing the agricultural college.

O'Neill is one of sixty-one stops which this six-coach train will make on its tour over the Burlington lines in Nebraska this fall. The exhibits are being built and arranged by the agricultural extension service and the animal husbandry department of the Agricultural College. Faculty members from the college will also travel with the train to discuss the exhibits with the visitors who go through the coaches.

The hog special will carry exhibits carrying the message of hog lot sanitation, efficient pork production, breeding, feeding, and marketing of carlots of hogs. Records show that hogs furnish about one-third the income of Nebraska farmers. Actual experiences of many Nebraska farmers who have been in pig crop contests and hog lot sanitation projects will be the foundation for the exhibits.

Railroad men and college men say this will be the best special train of its kind. It is entirely educational and will serve to reach a large number of farmers in a short period of time.

The committee on arrangements have extended an invitation to the

schools of Boyd, Keya Paha, Rock and Brown counties to be here on October 2nd and visit the train. It is the intention of the committee to make it a holiday in O'Neill. Plans are being completed for a number of school activities of interest to everyone. The trip to O'Neill on that day will be one well spent by everyone in the county.

## THE HOLT COUNTY FAIR WILL OPEN NEXT WEEK

The Sixteenth Annual Holt County Fair will open next Tuesday morning as entry day. Wednesday the first amusement program will be presented. There will be plenty of entertainment each day and the Walter Savidge Amusement Co., who are going to locate on the Fair grounds with their amusement company, will be open at night with their carnival and big show.

Wednesday will be children's Day and all school children will be admitted free.

Thursday and Friday there will be three running races each day, interspersed with other entertainment and free acts.

A good baseball game will be played each afternoon.

The farmers and stock men have arranged an extensive exhibit in the agricultural hall and in the stock barns.

A large six passenger licensed aeroplane with a fully licensed pilot will be here from Lincoln to carry all who have a desire to ride with him.

An extra good time is assured all who come to the Fair this year. Bring the family.

## OIL BEING SPREAD ON O'NEILL-BARTLETT ROAD

The Imperial Trucking Company, of Kansas City, Missouri, arrived in O'Neill the first of the week with their outfit and this afternoon began spreading the oil on the nine miles of road that has recently been graded beginning three miles south of O'Neill on the O'Neill-Bartlett highway.

The writer enjoyed a pleasant visit with John Fischer, in charge of the oiling operations, and R. A. Meese, representative of the Central Bridge Co., of Wahoo, who have the contract for the work. We learn from these gentlemen that about forty cars of oil will be required to complete the job. The oil will be heated in the tank cars and hauled to the road in a 665 gal. tank mounted on a truck; oil will go onto the road at a temperature of 140 to 150 degrees F.; about one car of oil will be spread per day. After each application of oil the road is disced; after the fourth application of oil, a layer of sand is added and thoroughly mixed with the four applications of oil; then four more applications of oil are applied in the same manner and again the sand is applied and another thorough mixing is given the entire mixture with a large grader.

The oiling of roads is practically a new venture in road building but if this experiment proves to be as good as many think it is, the sand-hill country can have as good a road as those who reside in the hard dirt country.
