**Another Reduction in Long Distance Rates**

On January 1 another reduction was placed in effect on various long distance telephone rates.

This is the fourth reduction in long distance charges in a little more than three years and will result in a substantial saving to telephone users.

The reductions made the first of the year are, in brief, as follows:

- Day station-to-station calls (when you ask to talk from any available) for which the former rates were from 50 cents to \$1.50 were reduced 5 or 10 cents.
- Overtime charges on person-to-person calls (when you ask to talk with a specified person) were reduced substantially for conversations of more than 10 minutes in length.
- The report charge on most calls over distances of more than 85 miles was reduced all the way from 5 to 40 cents.
- A few person-to-person rates which formerly were 70 cents to \$1.00 and a few evening rates which formerly were 40 cents to \$1.00 were reduced 5 cents.

Following are representative new and old rates for three-minute day station-to-station calls.

From	To	Old Day Station-to-Station	New Day Station-to-Station
O'Neill, Neb.	Battle Creek, Neb.	.50	.45
	Burke, S. D.	.55	.50
	Fremont, Neb.	.85	.75
	Grand, Neb.	1.05	.95
	Gregory, S. D.	.55	.50

These reductions are in accordance with the aim of this Company to continue to furnish the best possible telephone service at the least cost to the public consistent with financial safety. The development of carrier current systems, storm proof cable and other improvements in equipment and practices have contributed toward making these reductions possible.
