BOB SIMMONS FILES FOR RE-ELECTION TO CONGRESS

(Scottsbluff Star-Herald.)
County Treasurer P. B. Schmidt, of Gering, yesterday received the filing fee from Congressman Robert G. Simmons, representative from the "Big Sixth" Nebraska congressional district, bringing with it the welcome news that "Bob" has made official filing with the Secretary of State for re-election.

Congressman Simmons is now finishing his fourth two-year term as representative of western Nebraska interests at the National Capitol. His eight years at Washington has marked him as one of the most promising younger Republicans and he is fast taking a prominent place in House affairs, holding posts on several important committees and sub-committees.

Bob is well acquainted with the needs of agricultural western Nebraska and he has been untiring in his efforts for their advancement.

As yet, no opponents for his post have entered their names for the primary tilt next August 12th and it seems assured that the Congressman's great group of friends will be as staunch in his support when that date arrives.

GEORGE E. HANSEN WRITES FROM POMONA, CALIFORNIA

In a letter to The Frontier, George E. Hansen, of Pomona, California, writes:

"I was very much amused when I read the description of the blizzard of 1888 given by Mr. Matthews and others. It was surely a terrible blizzard; I was there with a lot of stock on hand and not very good shelter for it; the open shed filled with snow and the house would have filled also had not my good wife braced herself against the door which was determined to blow open. Yes, those were interesting days; healthy though; I had a good appetite; the great trouble was to find something to eat for the house-full of children and old folks; twenty miles to town; ten miles for wood; money was not very plentiful, but we managed to pull through and finally began to make a little money. Yes, we spent forty years—the best part of our life in Blackbird, Holt county, Nebraska, and we are not sorry for that; we generally had good crops; we still

New Telephone Cable is Being Placed

The work of placing nearly five miles of cable containing more than 750 miles of telephone wire is now being done in O'Neill. Some of this cable is being placed underground and some is being strung on poles used jointly with the electric light company.

It was necessary to lay 1,816 feet of conduit underground to accommodate part of the telephone cable and all of this work requires considerable time and expense.

Placing telephone wires in cables greatly reduces the possibility of your service being interrupted due to storms and other causes.

We appreciate the opportunity of providing the people of O'Neill with a telephone system that will meet their needs satisfactorily.
