

A "CITY CONVENIENCE" FOR COUNTRY HOMES

KEEP FOOD COLD
Freeze Ice Cubes
With Oil Heat!

SUPERFEX generates its own frigid cold by burning a few cents worth of kerosene daily. This dependable new refrigerator keeps butter firm, milk sweet, meats fresh and tasty—right in the kitchen in the warmest weather. It makes sparkling ice cubes for cooling beverages and delicious frozen desserts. Better and cheaper than ice; far safer than refrigeration makeshifts.

Superfex has no moving parts; nothing to get out of order. Just light it and leave it. In about an hour and a half the burners generate 24 to 36 hours' food-preserving cold—then go out automatically. Sturdily made; white-porcelain lined; a maple shelf-remover. A great boon to country homes.

Miss Lillian Harrison came from Valentine on Tuesday where she is nursing at a hospital, for a vacation at the home of her parents, Mr. and Mrs. Orville Harrison and other relatives. George Weldon has been cultivating corn for Harry Fox the past week, as Mr. Fox has not been able to much more than to be out of bed since he had his leg hurt a couple of weeks ago by a singletree clip breaking and struck him with such force as to break a blood vessel in his leg. Nearly everyone is busy cultivating corn; a great deal of the corn will have been gone over the second time by the Fourth of July. Rye is beginning to ripen; it is good except that which was knocked down by the hail and wind of a week ago. Several showers have fallen in the past week which are a help to the crops in general and gardens in particular. A party was held at the Sam Robertson home, Friday afternoon, the occasion being Lois Jean's seventh birthday anniversary; those present were Laverne and Helen Borg, Thelma Young, Florence and Lavonne Walters, Roxie May and Betty Jane Puckett, Doris Robertson and Vivian Thomas. A small, green louse has been discovered on some of the oats in this vicinity. It causes the stocks of grain to dry up as if from lack of moisture but the amount of sunshine and moisture this season should insure a good oats crop. The farmers are sincerely hoping that this pest will not extend to other crops. Archie Findley has found a dandy swimming hole in his grandfather's pasture. Recently he equipped it with a diving board, which attracts much attention. Sunday afternoon a group of boys rode their bronchos down and spent most of the afternoon swimming and diving.
