Keep Foods FRIGID-COLD With an Oil Flame!

NOW you can enjoy modern iceless refrigeration, right in your kitchen, with Superfex—the wonderful new refrigerator that creates its own continuous, food-preserving cold by burning a few cents worth of kerosene daily. Cheaper and better than ice. Superfex freezes ice cubes, makes frozen desserts in the hottest weather. It keeps all food fresh, sweet, wholesome for days. Saves you countless steps to refrigeration makeshifts which are neither safe nor sufficient.

No moving parts; nothing to get out of order. Just light it and leave it. Operation for about an hour and a half generates 24 to 36 hours' dependable refrigeration; the burners go out automatically. Strong steel construction, porcelain lined. Superfex soon pays for itself in food, time and work saved.
