Superfex freezes ice cubes; chills crisp salads; keeps food fresh and tasty for days in warmest weather—and in hot winter kitchens. Saves thousands of steps daily, and pays for itself in food savings. Enduring steel construction, porcelain lined. No moving parts.

#### ACCIDENT STATISTICS FOR NEBRASKA

Compiled by the Nebraska Press Association and the Rehabilitation Division of the State Department of Vocational Education.

Report for Two Week Period Ending July 15, 1930				
No. of	Accidents	Deaths	Inj.	Tot.
Motor vehicle	210	14	190	304
Other public	109	12	91	103
Agricultural	75	10	62	72
Industrial	33	2	37	39

Home	47	2	40	42
Total	474	40	520	560

Of the 520 persons injured 29 were permanently disabled.

Accidents for the two-week period including July 4 show a 40% increase over the same period last year with 23% less fatalities, 45% increase in permanent disabilities and 43% increase of injuries.

There were 21 injuries and 7 disabilities from firecrackers. Agriculture had 3 times the injuries and 10 times the fatalities that occurred in the same period in 1929. The opinion is held by many conscientious people that the great majority of drownings occur to swimmers while indulging in the sport. To determine the facts as apply to Nebraska, the following analysis was made of fatalities by drowning during the past 60 weeks that this accident study has been in progress.

We find that while swimming, boating or rescuing drowning persons, 33 swimmers have been drowned. 10 of these died from the result of diving; 3 from illness brought on by taking water into the lungs; 14 suffered cramps and 6 were drowned while attempting to rescue non-swimmers in distress.

42 non-swimmers have been drowned while engaged in some form of aquatic sport. Of 18 other accidental drownings due to floods and accidental falls into water; only one person was a swimmer and he was caught with a cramp.

15 small children have been drowned in tanks or washtubs. Of a total of 108 persons drowned in Nebraska in 60 weeks only 34 have been swimmers.

A Nebraska daily paper has done an outstanding piece of public service by promoting in Lincoln a "learn to swim week." While all communities in the state do not have facilities for a similar activity, yet some phase of accident prevention, which will result in saving human lives, can be sponsored locally by every newspaper in the state.
