### JUDGE HOLMES ASSISTING UNEMPLOYED LABORER

Judge Holmes of Omaha is chairman of a committee of three who are doing considerable work to find employment for those who are out of work at this time.

The Judge and his assistants are sending out the following letter, which is self-explanatory: To the Farmers of the Middle West: Dear Sirs:

As Municipal Judge of the City of Omaha, I am daily brought face to face with the present acute unemployment situation and am going to do what I can in relieving it by offering to send to those of you who could use the services of a man or woman, someone whom I feel is fitted to do your work and who is willing to give you his services for the winter months in exchange for room and board.

Among the hundreds of men I come in contact with are a good percentage, I am sure, who will make willing workers for someone. So if you can use such a man or woman write me fully as to what kind of work you would have him do—dairying, feeding, wood chopping or whatever it may be, and I will try to send you a man suited to your needs.

To guide me in making these selections of men for you, I will be assisted by Henry C. Gissman of Omaha, Neb., and Charles O'Brien of Hamburg, Ia., well-known farmers and dairymen. They are men with a lifetime of experience in dairying and general farming, and have necessarily hired a lot of men and are good judges of farm labor.

We will do our best to send you men that are suited to your work and wish to say there will be no charge on our part for these services either to you or to the men, and the men will come to you with the understanding that they are to receive board and lodging only for their services. Anything that you may give them more than that will be a donation on your part.

Be free to write me fully and be assured that I will appreciate any cooperation you may give me in this plan of unemployment relief.

Please give full directions for these men to find your home. Call JA-7315 or WA-2570, Omaha, any day after 6 p. m.

Yours truly,  
GEO. HOLMES,  
Judge.

### BELOW ZERO JUST ONCE DURING THE PAST YEAR

Why go to California? The weather throughout this part of the state has been almost ideal for a year as far as the cold weather is concerned. Just once—the night of January 14, did the mercury fall to below the zero mark since the night of January 22nd, 1930. The night of January 13, the thermometer registered one degree above zero. We believe that this has been the most pleasant winter that has been experienced here for many years.

### SCOTVILLE DISTRICT HAS MODERN SCHOOL BUILDING

(By County Superintendent) Dedication services were held last Friday evening, January 16th at the Scottville school for the new school building recently completed in District No. 38.

This new building is a fine, modern structure, with a full basement, and standard in every respect. It takes the place of a building that has done service for many years and had really fulfilled its duty to the district. For several years it had been much too small to accommodate the increasing enrollment of the school.

The new building is very spacious and is surely a wonderful addition to any school district. It has a full basement with a modern heating plant and it is arranged with plans for community gatherings and as a playroom for the children.

At 8:00 o'clock, parents, teachers, neighbors, patrons and friends of youth gathered for the formal dedication services.

A short but well rendered program was given by the pupils of the school under the direction of their teacher, Mr. Duane Carson. A quartette composed of Claude Pickering, Duane Carson and the Misses Vera and Wilna Pickering very ably rendered several selections. Instrumental music was furnished by the Pickering orchestra.

At the close of the entertainment program several members of the board and old settlers and teachers of the district were called upon. These included a history of the district by Joseph Schollmeyer, Sr., a report of the new building by Wm. Farrand, the director. Mr. Farrand reports that there is only a very small debt remaining on the building.

V. V. Rosenkrans, an old settler, was an early teacher. His wife also taught in the same school. Grandma Pinkerman also made a few remarks on old times.

Following this the lines of the dedication service were read by County Superintendent, Luella A. Parker, who complimented the school board, patrons and pupils on their fine building. She also presented them with a Standardization plate for the school, which adds District No. 38 to the list of "Standard Schools" in Holt county.

Judge C. J. Malone, the speaker of the evening, gave a short but interesting address in which he brought out the changes in education and times and commended the school board and patrons on their fine achievement.

Following this a short entertainment was given by Mr. Glenn Anderson, lecturer and artist. Mr. Anderson was formerly County Superintendent of Wheeler county and is very much interested in school and education. Mr. Anderson is a chalk artist and entertained the crowd with his crayon drawings of some of the patrons while he gave his talk.

At this time all retired to the basement where a delicious lunch was awaiting them.

At a late hour they departed for their respective homes, pleased and proud of their achievements in this fine structure, and well they may be. It is a building deserving of praise.

Mr. Duane Carson is the teacher, and the school board members are Mr. William Farrand, director; Mr. Chas. Richter, moderator, and Mr. Joseph Schollmeyer, Sr., treasurer.

### HEARING ON COUNTY AGENT QUESTION WEDNESDAY

Whether or not Holt County will have a county agent, will be decided after the hearing before District Judge Dickson which is scheduled to be heard next Wednesday, January 28th.

The Farm Bureau Board presented their petition last fall, asking for a county agent. At a meeting of the old Board soon after the first of the year, the County Board turned down the application for the reason that they were not satisfied that the petition contained a legal number of actual dirt farmers and for the further reason that the finances of the county were low.

The Farm Bureau Board then mandamused the Board and Judge Dickson has set the hearing for Wednesday as stated above.

Mr. Kaczor was born in Germany, October 18th, 1840 and lived to the ripe old age of 90 years, 2 months and 24 days.

Mr. Kaczor came to Canada in 1869 and later moved to Holt county, Nebraska in 1884 where he took a timber claim, fifteen miles north of O'Neill. In 1891 he moved to Boyd county, where he took a homestead five miles north of Spencer. He had made his home there since, except for visits to Holt county.

### DONLIN—HARRINGTON

The wedding of Thomas Donlin and Mrs. Anna Harrington was solemnized at the seven o'clock Mass Thursday morning, January 15, 1931 by Monsignor M. F. Cassidy.

The attendants were Mr. and Mrs. T. J. Coyne of this city.

Mr. and Mrs. Donlin need no introduction to residents of O'Neill and vicinity; they have each resided here for many years, although Mr. Donlin has spent a part of his time on his ranch, north of Gross, Nebraska. Each belong to highly respected families and enjoy a wide circle of friends who are extending congratulations.

The wedding was a secret affair; the immediate relatives of the family were not advised that it was about to take place and only a limited number had any knowledge of the wedding until after the ceremony.

Mr. and Mrs. Donlin are at home in the Donlin residence on north Fourth street.

The Frontier joins the many friends of the contracting parties in extending to them hearty congratulations.

### THINK BONES FOUND AT CENTER THOSE OF PRE-COLUMBIAN INDIANS

(Omaha World-Herald)

George Van Every, of O'Neill, foreman of a crew of workmen building a 10 mile stretch of state highway between Center and Verdigre, thinks skeletons of Indians recently unearthed three and one-half miles west of Center are a small part of an extensive burial mound that may date back to pre-Columbian times.

The bones were unearthed by the blade of a large ditcher. At least eight, and possibly twelve skeletal remains were found. Van Every believes the find a valuable one for those interested in the prehistoric Indian.

"One skull is abnormally large; the jaws are remarkably massive and square. Judging from these and other material facts, I suppose he stood seven feet high and weighed around three hundred pounds.

This burial ground is on ideal site for the purpose. The hill is flat crowned, fairly large, of dense clay material, and isolated.

At first, we thought we had unearthed the bones of a party of Black Hills gold seekers, but squirrels and Indians are the only creatures on earth whose bones are red. Every bone of the hundreds we found near Center have that red hue."

A SPENDTHRIFT is like a cannon ball. He must go on. If he stops his career is gone.
