Out Our Way

WHAT'S ANDY MELLON'S WAY.
R. H. L. in Chicago Tribune. He's first in war and first in peace. He always stands the test; And when he says "No bonus!" We know that that is best. And though old soldiers yearn for cash To keep the wolf away, Our peerless leader never bends; That's Andy Mellon's way.

When hideous war came on the world, And filled us all with fear, We heard his voice say firmly: "Don't worry, I am here!" He took the flag and grabbed a gun. They could not say him nay; "To hell with ships," he cried, "I'll swim!" That's Andy Mellon's way.

At last he reached dear Sunny France, And hitch-hiked to the front; Through shot and shell and shrapnel He bore the battle's brunt. He'd dash right at the enemy, And run 'em round all day, And then he'd chase 'em all the night; That's Andy Mellon's way.

"God's sake!" the Germans wildly cried, As 'round and 'round he dart; "This here ain't war, it's murder; Say, fellow, have a heart!" He caught their bullets in his teeth, He ground 'em into clay, He kicked their cannon right and left; That's Andy Mellon's way.

He chased the crown prince up a tree, Broke Hindenburg's front line; He smacked the shock troops on the snout, And jumped across the Rhine. "Don't shoot!" the Kaiser hollered, "I surrender right away!" The war it ended then and there; That's Andy Mellon's way.

And now throughout our happy land Sweet peace and plenty dwell, And every one is prosperous, Lykell, lykell, lykell. The soldiers they sell apples, Reward enough we say; For we must watch our stocks and bonds; That's Andy Mellon's way.

English Develop New Train Control System

London—(UP)—During the last year British railroads have developed a system of automatic train control. It is understood that the main lines will be equipped during the present year.

The system gives audible warning of the state of the signals to the engineer in his cab. It works continuously and when visibility is bad, or there is fog, the driver is able to "hear" his way.

At the present time one company is conducting magnetic automatic train control tests for increasing safety.

"TRANSMITTING BRAIN"

London—There will be no eavesdropping on trans-Atlantic telephone conversation now as a result of the invention of an electrical "transmitting brain" and "translating brain." One machine takes a telephone conversation and garbles it so that an eavesdropper hears nothing but gibberish. The other rearranges the sounds into intelligible form.

Shaemas O'Sheel in Commonweal. The Irish Free State is one of the few European countries comparatively prosperous. The national debt, including bonds and other obligations, amounts to £22,528,000. The revenue from taxes for the fiscal year 1929-30 was over £24,172,000. Expenditure is kept well within receipts. The place given to education in the Free State budget is notable; in the estimates for the fiscal year ending March 31, 1931, £4,500,000 is earmarked for that service, out of a total of £22,800,000. The Irish budget has balanced from the first. Meanwhile the adverse

Use of a mature, big boned good type boar as shown in the upper left hand picture, raising the pigs in movable hoghouses on clean pasture as shown in the upper right hand picture and the use of mature sows for breeding stock and properly balanced rations enabled Earl Colville, Mahaska county farmer, to raise the hogs shown in the lower picture and win first in the Iowa pig crop contest for 1930 conducted by the Extension Service at Iowa State college. The hogs shown are cross-breeds and averaged 262.8 pounds at six months of age.

Extra Seeds Pay Dividends

The above farmer is happy because by increasing the amount of seed used per acre from 10 bushels, which he had been using, to 20 bushels per acre he increased the potato yield by 100 bushels per acre, according to C. L. Pritch, vegetable specialist in the extension service. At this rate 10 extra seed potatoes in the basket at the left produced the extra yield shown in the basket on the right.

In some places half an inch of the mud remained on the streets. It is said the mud came from the Sahara desert, 1,500 miles away, after being sucked up by a violent storm.

The national loan bonds command a price of 105 in the home market and are at a good premium in Wall street. A recent issue of agricultural credit bonds was oversubscribed at 101 within an hour.

Q. What population must a town have before it is called a city? L. G.

A. The bureau of the census says that the population has nothing to do with the matter of a town being called a city. This is a matter of state legislation. The post office department says that a town must have 10,000 population before it can be given city mail delivery.

How to Escape FLU

- 1 Avoid so far as possible the places where flu germs are most likely to be spread; overcrowded cars and public meeting places; overheated, stuffy rooms.
- 2 Be careful of close contact with others and beware of all coughers and sneezers; breathe through the nose, get fresh air, but avoid drafts or chilling.
- 3 Get lots of rest. Eat plenty of citrus fruits. Keep the bowels open. Take extra precaution to keep in good physical condition, so your system will have high resistance against germs.
- 4 Above all, avoid catching colds. They lower your resistance to the flu germ. Ward them off. At the first sign of any cold, take Bayer Aspirin and remain indoors if possible until your cold is gone. If you have a sore throat, dissolve some Bayer Aspirin tablets in water and gargle; this will relieve the soreness and reduce the inflammation.
- 5 If you have any reason to suspect even a touch of flu, call your doctor at once.

Castoria made especially for CHILDREN

CHILDREN usually hate to take medicine but every child loves the taste of Castoria. And mothers like its action—so gentle, yet so prompt and effective.

Castoria is a never-failing comfort to children and mothers alike because it was formulated expressly for children—to correct their little ills and upsets.

The beauty of it is you can give Castoria to children of all ages with equally sure results. When baby's cry warns of colic, a few drops of Castoria has him soothed; and free from pain, he is asleep again in a jiffy.

In an older child when coated tongue or bad breath tell of constipation, a more liberal dose is

usually all that is needed to cleanse and regulate the bowels.

Your doctor will tell you Castoria deserves a place in the family medicine cabinet until your children are grown. He knows it is safe for the tiniest baby; effective for a child in his teens.
