

Learn what a difference six cylinders make

Step out of any other low-priced car into a Chevrolet, and learn the difference six cylinders make.

"Idle" the engine—and the whole car remains steady. Open the throttle—the power flows evenly. Accelerate—throttle down—go fifteen or fifty—and this smoothness stays with you whatever you do. It's actually built into the motor—and objectionable vibration never even starts!

Yet smoothness is only one of many six-cylinder advantages. There's greater quietness, because noisy vibration is gone. There's greater comfort, because built-in smoothness doesn't tire you out. There's greater flexibility, because the power-impulses of a six overlap. And a six is much easier to handle!

If you raise the hood of a Chevrolet and watch the engine running so smoothly, you'll realize that six cylinders also mean greater dependability.

And remember when you do—that no other car is so economical to operate as the Chevrolet Six.

in smoothness
quietness
flexibility
handling ease
riding comfort
dependability
economy
long life

JOHN O'NEILL DIES SUD- DENLY AT CASPER, WYO.

(Casper, Wyo. Tribune-Herald) A chronic heart ailment caused the death of F. J. O'Neill, it was announced Friday afternoon by Coroner Lew M. Gay, following an autopsy during the morning. No inquest will be held because the death was due to natural causes, it was stated.

F. J. O'Neill, 35, foreman of the service department of the Nolan Chevrolet Company, was found dead in bed at his room at 225 South Park street late Thursday afternoon. Although it is not definitely known, it is believed that he died about four o'clock. He had been failing in health for some time.

Mr. O'Neill, a member of the Knights of Columbus, came to Casper about eight years ago from Nebraska and has been service manager for the Nolan Chevrolet Company for the past six years.

Surviving him are his mother Mrs. Mamie O'Neill, Anncar, Neb.; two sisters, Mrs. Blake Benson, Maple Grove and Mrs. Paul Walker, Aruba, Dutch West Indies, South America; his wife, Mrs. Evelyn O'Neill, who has been visiting in Pittsburgh, Pa., and who is enroute to Casper; two brothers, Arthur, Anncar, Nebraska, and Carroll, Norfolk, Nebraska, who is also enroute to Casper.

Funeral arrangements are being withheld, pending the arrival of relatives. The body is being cared for at the Gay mortuary.

The body arrived in O'Neill from Casper last Sunday morning; funeral services were held from St. Patrick's church Monday morning with Father B. J. Leahy officiating.

Mr. O'Neill was born May 18, 1896 at Leonia, Holt county, Nebraska, and died August 13, 1931, aged 35 years, 2 months and 25 days. His early life was spent on a farm near Anncar, Nebraska. In the spring of 1922 he went to Casper, Wyoming, where he resided until his death.

MRS. M. O. SIMMONS

Melvina Ormston was born December 30, 1847, in Orange county, New York, and died at Yankton, South Dakota, on August 14, 1931, at the age of 83 years, 7 months and 14 days.

In 1866 she married F. W. Thomas. To this union two children were born, a son, J. O. Thomas, Ithica, Michigan, and a daughter, Mrs. Nellie Simmons, O'Neill, Nebraska.

In 1882 she married Dr. J. Simmons, of North Bend, Nebraska; he died in O'Neill, Nebraska, in 1905.

She was ever ready to care for the sick and help in every way possible. In her youth she united with the Presbyterian church.

She leaves to mourn her demise one son and one daughter; one sister, Mrs. M. G. Baldwin, Flint, Michigan;

one brother, Sam Ormston, Holly-wood, Michigan; 14 grand-children and 19 great grand-children.

She moved with her parents to Holly, Michigan, as a child, where she was united in marriage to Mr. Thomas; in 1871 she moved with her husband to Saunders county, Nebraska; she continued her residence in Nebraska until her death.

Funeral services were held from the Methodist church in O'Neill on Monday afternoon conducted by Rev. Benj. Kuhler; burial was in Prospect Hill cemetery.

Those from away who were her to attend the funeral services were Mr. and Mrs. Will Wagsman, Yankton, South Dakota; Mrs. R. B. Miller and son Charles, Martin, South Dakota; Mrs. Pearl Devine, Tooele, Utah; Mr. and Mrs. Mike Peterson, Norfolk Nebraska.

ARTHUR BOEHME

Arthur Boehme, formerly of this city, died in a hospital in Amarillo, Texas, August 11th. The body was brought to Atkinson for burial last Saturday.

Arthur R. Boehme, son of Mr. and Mrs. Conrad Boehme was born at Atkinson, September 3, 1882. In 1925 he married Mrs. Mayme Hatfield, of O'Neill and moved to Amarillo where he has since resided.

He is survived by his wife; three sisters, Mrs. Louella Aiken and Mrs. Frank Wallen, of Portland, Ore., and Mrs. Ruth Robinson, Omaha; two brothers, George, Newville, N. D., and Richard, of Newport.

GALE SPRY

Gale Spry, aged fifteen, son of M. W. Spry, of Aphen postoffice, passed away this evening in a hospital in Stuart, Nebraska, as a result of injuries received when he was kicked by a horse Wednesday morning.

Gale was working the horse on a mower; the horse kicked its foot over a tug; Gale was unhooking the tug when the horse kicked him.

Gale was rushed to the hospital but nothing could be done to stay the hand of death.

Biglin Brothers went to Stuart and brought the body to their undertaking parlors.

Funeral arrangements have not been made.

EDUCATIONAL NOTES

The pre-opening meeting for the Rural Teachers of Holt County will be held at the O'Neill Public School in O'Neill on Saturday afternoon, August 29th. At this time supplies will be given out and important instructions regarding the year's work will be given. All rural teachers are expected to be present at this meeting.

Due to the fact that the Holt county Fair in O'Neill will be held on September 1-2-3-4 before the schools of the county are organized, there will be no school parade at the Fair

on Children's day. However, school children will be admitted to the Fair free of charge on Children's day, Wednesday, September 2nd.

COUNTY AGENT NOTES

County Extension Agent

Cane and Sudan Grass Poisoning
Dr. L. Van Es, of the University of Nebraska Agricultural College sends the following words of warning to Nebraska live stock men:

Attention is called to the fact that within the last few weeks, the poisoning of cattle in sorghum and sudan grass pastures has been rather frequent occurrence. When these forage plants have their growth and development arrested by such adverse conditions as drouth, frost or by being injured and trampled upon in the course of grazing, they are apt to form prussic acid in quantities sufficient to kill animals. Owing to the very poisoning character of this substance, the animals which consume a fatal dose succumb suddenly and there is little or nothing to be expected from the medical treatment of such animals. The hazard which accompanies the turning of animals, cattle in particular, into sorghum and sudan pastures at this time, should induce farmers to proceed with caution. If this prudent must be used, it is therefore urged to try out the safety of the pasture by admitting one or more animals of inferior value before risking a more valuable herd. In the event that nothing happens to the trial animals within a week or two the pasture may be utilized with a relative, although not with absolute safety. Pastures under suspicion of being unsafe should be cut, in the hope that favorable growing conditions may bring forth a safe forage. The cut forage may be utilized as hay. Even the latter may not be safe and its feeding should be postponed as long as possible. It also should be fed to a few animals in order to test its safety before exposing a large number of valuable stock to a possible danger.

Control of Melon Aphis or Plant Lice
The melon aphis or plant lice seem to be doing considerable damage to cucumber and melon vines. These aphids may be controlled by spraying with nicotine sulphate, which usually sells under the name of "Blackleaf 40." Complete directions for use come with this poison. Another method of control is spraying with 6 to 9 parts of kerosene emulsion. Kerosene emulsion may be made at home by heating one-half pound of hard soap or one quart of soft soap in one gallon of water until the soap is dissolved. Remove from fire and add gradually two gallons of kerosene, stirring constantly. Thoroughly mix by pumping back and forth with a spray pump until a creamy emulsion is produced. This is then diluted with 6 to 9 parts of water. The melon aphid is a sucking insect which works on the under side of the leaves

and is killed by direct contact with a poison. It is necessary in applying the sprays that the solution is forced onto the bodies of the aphids. This can be accomplished by using a force sprayer or by turning the vines over so as to get the solution on the under sides of the leaves.

Accessories for the House

Holt county club women are going to learn more about accessories for the house next fall and winter through the club project. Miss Helen Rocke of the Agricultural College will conduct the accessories for the house project here this year. The project is devised for club women in giving suggestions on the selection of making table linens, bedding, curtains, spreads, and other accessories necessary to the comfortable home. The women will also learn about the qualities of various textiles. The first leader training meeting of the year will be given in September. Miss Rocke will explain the program for the year.

CARD OF THANKS

We desire to express our sincere appreciation to our kind neighbors and friends for their sympathy and for their offers of assistance during our late bereavement, the illness and death of our beloved daughter and sister, Alice.
