

New Chevrolets Now Displayed Aid Employment Throughout U. S.

Above: Special Sedan
Right: Head-on View

Chevrolet's new car for 1932, embodying silent Synoro-Mesh transmission in combination with selective free wheeling as standard equipment at no extra cost, and practically every proven automotive advance of recent years, is now displayed at dealer show-rooms throughout the country.

While remaining in the price class in which it won world leadership this year, the new 1932 models offer features heretofore considered exclusive to the high price field, as well as a new front end mounting never before shown on any car.

Called "The Great American Value for 1932," the line offers in support of this slogan a twenty per cent increase in power, faster acceleration, top speeds of 45 to 70 miles an hour, new Fisher bodies with a modern streamline styling, down-draft carburetion, counter-balanced crankshaft, finger-touch front seat adjustment and many other refinements over the 1931 models, which, from the standpoint of public acceptance, were the most successful in the history of the company.

Twenty standard and deluxe models are in the new line, of which the Special Sedan, pictured above, is the aristocrat. The lower view shows the new front end and the massive, powerful appearing hood enclosing the improved engine.

In addition to interest centering on the cars themselves, the announcement at this time has national significance in that activity brought on by production of the new cars is expected, at conservative estimates, to add materially to the earnings of 200,000 people throughout the country just before the holiday season and before the severe winter season sets in.

The company's 21 domestic plants all are busy producing cars as fast as precision manufacturing lines will permit so that deliveries may be made with the least possible delay. More than 30,000 of the new cars already have been built for dealers' showrooms displays, and more than that quantity

are expected to roll off the assembly lines during the present month.

The new car is the first in the low-price field to offer the combination of silent Synoro-Mesh transmission with selective free wheeling as standard equipment at no extra cost. A control button on the instrument panel enables the driver to use the free wheeling device only when he desires, and he is thus able to utilize the full braking power of the engine when desired.

The front end offers a radically changed appearance, with a new type radiator, a radiator grille built integral on all models, a double tie-bar arching gracefully between the fenders, on which are mounted bullet-shaped headlights and a trumpet-type horn just beneath the left headlamp. All models have adjustable hood ports chrome plated on all the sport and deluxe models, and all have cow ventilators controlled from the driver's seat.

With the new streamlined bodies, the external sun visor has been eliminated, and its purpose is now served by an internal visor adjustable to any position in front of the driver. The left front window also has an equalizer built in so that the driver may adjust the window with little effort. On the top rail of the instrument panel is a removable ash tray for the convenience of front seat passengers.

Robe rails, silk assist cords, window shades, arm rests and ash trays on both sides of the rear seat, dome light, foot rests, large door pockets and many other big car refinements are standard with various models in the new line.

On this 21st day of November, A. D. 1931, on filing and reading the petition of the above named bankrupt for discharge, it is

ORDERED, that on the 28th day of December, A. D. 1931, be and the same is hereby fixed as the date on or before which all creditors of, and all other persons interested in said estate and in the matter of the discharge in bankruptcy of the said bankrupt shall, if they desire to oppose the same, file in my said office in Norfolk, Nebraska, in said district, their appearance in writing in opposition to the granting of said discharge, and also, within ten days thereafter, file in my said office specifications of the grounds of said opposition.

WITNESS my hand thereto, at my office in Norfolk, Nebraska, the day and date herein first above written.

FORREST LEAR,
27-5 Referee in Bankruptcy.

WARNER & SONS

NOTICE!

Someone has started the story that the Hanford Produce Company has discontinued buying cream in O'Neill. This is absolutely untrue. THE HANFORD PRODUCE CO. ARE STILL DOING BUSINESS IN O'NEILL the same as they have been for more than twenty years, and we hope you will continue to take your cream to the same old place, THE HANFORD CREAM AND ICE CREAM FACTORY, where the highest cash prices will always be paid for Your Cream and Eggs.

Prompt service, courteous treatment and a square deal to all
