

HOW JOHN SAVES MONEY... AND LIKES IT...!

In hard times it's possible to make a husband save money. But it's hard to make him like it. I've found a way. John used to smoke at least a package of ready-made cigarettes a day. I suggested that he roll his own, when hard times came. He sneered at the idea. "I bought a package of Target and made John try it. Now he says he won't smoke anything else, because Target is real cigarette tobacco, just like the ready-mades use. He says those forty gummy papers you get free with every package would make any dub a good cigarette roller. "Well, John's happy, and I'm happy, and we save at least 50¢ a week."

AND GET THIS: The U. S. Government Tax on 20 cigarettes amounts to 6¢. On 20 cigarettes you roll from Target Tobacco the tax is just about 1¢. No wonder you get such value for a dime!

Oh, My!

Little Jimmie, four years old, is spending the winter with his mother and little brother Bobbie, in a small city in Florida. He is having trouble with the name of the big town, Miami, as to him the first syllable is a possessive, which he will not accept for himself. In response to the request, "Say Miami," he responds with "You-am-I." His mother hopes he will get the idea adjusted by the time the novelty wears off.—Indianapolis News.

Another Ax to Grind

The Elder—Aren't you glad to have that insurance man join our congregation?

The Preacher—I'm not sure; I hear he's sold policies to all the other clergymen in town.

Dr. Pierce's Pellets are best for liver, bowels and stomach. One little Pellet for a laxative—three for a cathartic.—Adv.

"How long have you been a life saver?" "I began as a small buoy."

HAUNT ROYAL WAITING ROOM

Unused Windsor Station Apartment for Rent at \$250 Year

Windsor, England—(UP)—A mere \$250 (par) a year will rent a suite of royal apartments here in the shadow of Windsor Castle. They are lofty rooms, emblazoned with heraldic devices and haunted by the memories of Wellington, the Prince Consort, and Queen Victoria, herself. They are the former magnificent suite of waiting rooms at Windsor railway station specially built and allotted for the reception and comfort of royalty.

Rooms Unused Royalty use the rooms no more, for when the king and queen come to Windsor they usually travel by road. Since the death of Queen Victoria the rooms have been kept under lock and key. Now a "To Let" notice is in the window.

In the wall of No. 3 platform of the station is an unobtrusive door. A rusty key grates in the lock, and one crosses the threshold of the apartments which great courtiers of the past had entered to bow before a little woman in black.

Decayed splendor meets the eye everywhere. Long streams of cobwebs festoon the elaborately plastered ceilings from which once hung magnificent candelabra.

Dust lies thick on a magnificent Tudor fireplace in one of the inner rooms. Here, before a roaring log fire, Queen Victoria had warmed herself after enduring the discomforts of early railway travel 80 years ago. Here the gallant Disraeli had advanced to kiss her hand and whisper compliments.

Outside, huge iron-wrought gates, creaking on their hinges from disuse, still bear the royal arms and V. R. monogram.

Lamb in Curry Sauce

An excellent way to serve leftover roast lamb is in a curry sauce

- TOMORROW'S MENU
Breakfast: Steamed figs with oatmeal, cream, reheated cinnamon rolls, milk, coffee.
Luncheon: Calves' liver with spinach, mushroom sauce, whole wheat bread, cabbage and fruit salad, chocolate rolls, milk tea.
Dinner: Veal cutlet, buttered Brussels sprouts, cress and apple salad, marshmallow pudding, milk, coffee.

with a rice border. Such a combination precludes potatoes in the menu. Remember, however, that rice is lacking in the minerals found in potatoes and choose an extra vegetable or salad particularly rich in iron.

Montana's Big Gas Project Starts in Spring

Butte, Mont.—(UP)—The greatest Montana construction project since the pioneering of the transcontinental railroads—the tapping of northern Montana gas fields for the industries and cities of southern Montana—will get underway this spring.
Contracts were signed recently between the Anacosta Copper Mining Company and the Montana

— THIS CURIOUS WORLD —

sley, 1 carrot, 2 tablespoons butter, 2 tablespoons flour, 2 cups stock, 1 tablespoon curry powder, 1 teaspoon salt, 1-4 teaspoon pepper.

Break the bones of the roast and put into a kettle with onion peeled and sliced, celery tops, sliced cut in cubes, parsley and turnip carrot. Cover with cold water and simmer from 30 to 60 minutes. Strain and measure. There should be 2 cupsful. Melt butter and stir in flour and curry powder sifted together. Cook and stir until mixture bubbles. Slowly add stock, stirring constantly. Bring to the boiling point and add diced meat. Heat thoroughly and serve in a border of hot cooked rice.

Veal Cutlet

One cup cooked rice, 1 pound veal steak, 4 slices tomato, 1 1/2 cups white sauce, 1 cup sliced fresh mushrooms, 1 teaspoon minced sourcel, 1 hard cooked egg.
Cut the steak into four fillets, making them as round as possible. Roll in dried bread or cracker crumbs, dip in egg and roll again in crumbs. Brown in a hot frying pan in fat, the cover and cook over a low fire until tender. In the meantime make the white sauce and saute the mushrooms in butter for 10 minutes. Add mushrooms, minced pickle and chopped white of egg to white sauce. Make the rice in four round patty cakes. On each bed of rice place a cooked cutlet. Put a slice of tomato on each cutlet and top with a bit of sliced egg yolk. Surround with the sauce and serve at once.

Calves Liver and Spinach
Three-fourths pound liver, 1 slice stale bread, 4 tablespoons cream, 1 onion, 2 pounds spinach, 1 teaspoon salt, 1-4 teaspoon pepper, 1 teaspoon grated horseradish, 2 hard cooked eggs.
Cook liver in boiling water for 15 minutes. Drain and put through Power Company and Louis B. (Tip) O'Neil.

The program includes the expenditure of between \$10,000,000 and \$12,000,000 in pipeline construction, and additional millions will be spent in laying a distribution system between southern Montana cities and in erecting booster stations.
While the bulk of the gas will be used by the copper industry at the Anacosta operations, the cities of Butte, Anaconda, Deer Lodge, Livingston and Bozeman will be served also.

"FATIGUE? I just postpone it!"

"No, I don't have 'nerves.' You can't have them, and hold this sort of position. My head used to throb around three o'clock, and certain days, of course, were worse than others.

"Then I learned to rely on Bayer Aspirin."
The sure cure for any headache is rest. But sometimes we must postpone it. That's when Bayer Aspirin saves the day. Two tablets, and the nagging pain is gone until you are home. And once you are comfortable, the pain seldom returns!

Keep Bayer Aspirin handy. Don't put it away, or put off taking it. Fighting a headache to finish the day may be heroic, but it is also a little foolish. So is sacrificing a night's sleep because you've an annoying cold, or irritated throat, or grumbling tooth, neuralgia, neuritis. These tablets always relieve. They don't depress the heart, and may be taken freely. That is medical opinion. It is a fact established by the last twenty years of medical practice.

The only caution to be observed is when you are buying aspirin. Bayer is genuine. Tablets with the Bayer cross are safe.

Scientists Fight Pests

With Natural Enemies

Entomologists, it is reported, are gradually changing their method of warfare against our insect foes. Instead of attempting to discover effective insecticides, they are now seeking methods of causing insects to war against each other. Fortunately the insect world is never really at peace at any time. The tremendous reproductive powers of this form of life are offset by the bugs, flies and birds which prey upon them.

The best way to keep the coddling moth under control, it has been found, is through a tiny wasp and likewise the mealy bug is best kept under control by its natural enemies.

Instead of searching for insecticides, therefore, the search is for the natural enemies of the pest it is desired to combat and these are then imported or increased by protection from their natural enemies in turn.

Rocks in Demand

An unprecedented demand for rocks for ornate gardens of Cleveland residences has brought a new source of revenue to many farmers in the northern Ohio district. Boulders, which formerly were only sources of annoyance, are being carefully selected and sold to companies which do a flourishing brokerage business with home owner.

Double Trouble

"I've lost an umbrella," said the fussy fellow.
"What kind of a handle did it have?" asked the information clerk.
"I don't know," sighed the man, "I only borrowed it yesterday."

Food for thought

Men and women find that those recurrent spring colds reduce their alertness of mind and body. To avoid such nuisances, doctors advise them to increase their bodies' store of Vitamin A. It is recognized that Scott's Emulsion of Cod Liver Oil contains a wealth of this valuable protective vitamin... as well as Vitamin D, so indispensable for sound bones and teeth. Children and adults find the emulsion an easy, pleasant way of taking cod liver oil. Scott & Bowne, Bloomfield, N. J. Sales Representative, Harold F. Ritchie & Co., Inc., New York.

Slight Warning Given of Deadly Poison Gas

Carbon monoxide poisoning is one of the greatest dangers of modern life. The gas, given off by almost all forms of combustion, has no smell and gives no ordinary warning, but two symptoms have been noted which may be valuable.

First, there may be a slight swelling and hardening of the small arteries which one can feel beating in the temples; second, there is often a slight weakness of the muscles in the back of the legs.

In treating a case the victim should not be moved more than necessary; the air must be fresh and should not be cold; the patient should be kept absolutely quiet until recovery is complete. Artificial respiration is necessary if breathing has ceased, but the most important thing is prompt use of a modern inhalation apparatus using oxygen and a little carbon dioxide.—World's Work.

Memories

They were confiding together. "Yes," said the aged professor, "I suppose even at Christmas, when the world is gay and glad, these come to a man's sad and solemn thoughts."

The young man nodded. "Yes," he replied, "And the saddest are those that come to a fellow when he reads of the marriage of a girl to whom last Christmas he gave a diamond ring and on which he is still paying the wretched installments."
