for the defendant and assessed his recovery at the two notes and costs of suit. It is from this that the plaintiff is appealing.

Questions and Answers about Conoco Germ Processed Oil with Germ Processed Oil, a pint

Q: WHAT DOES "GERM PROCESS" MEAN?

A: The words "Germ Process" describe the scientific method by which this oil is manufactured. Such processing adds immeasur-ably to the oil's lubricating properties. North American patent rights to this Process are owned by Continental-only CONOCO oils are Germ Processed!

Q: IS IT DIFFERENT FROM OTHER OILS?

A: Yes. It is the only oil of its kind, and does what no other oil can do. The Germ Process gives it the ability to penetrate and combine with metal surfaces in your motor. The Germ Process also gives more "oiliness" than any other oil. Any oil would be better oil if Germ Processed.

Q: WHAT IS THE "HIDDEN QUART?"

A: The "Hidden Quart" is tangible evidence that CONOCO Germ Processed Oil penetrates metal surfaces and gives surer, safer lubrication. During the first CONOCO GERM PROCESSED 30¢ MOTOR OIL a quart 250 to 350 miles after your first fill

to a quart seemingly disappears. On later fills, it does not. That's the Hidden Quart-it stays up in your motor and never drains away! Other oils drain away when your car is idle, leaving vital parts unlubricated during the starting period, when almost half of all motor wear occurs. CONOCO'S Hidden Quart lubricates before your motor starts-cutting down

costly starting wear! Q: WHY SHOULD I CHANGE TO CONOCO GERM PROC-ESSED MOTOR OIL?

A: Because, by cutting down starting wear, it gives your motor longer life, keeps it sweet-running and saves expensive repair bills. Because Germ Processed Oil's extra oiliness makes your ear run better. It forms a stronger pistonring seal, making starting easier and giving more power. It withstands crankcase dilution and high temperatures. CONOCO Germ Processed Motor Oil gives you the safest, surest lubrication you can buy. Change now to this better oil at any CONOCO Red Triangle

station.

A HIDDEN QUART STAYS UP IN YOUR MOTOR AND NEVER DRAINS AWAY
