

AFTER HALF CENTURY

In 1874 a traveler named Rohlf crossed the Libyan desert in the direction of Kufra, which the Italians recently captured from the Senussi tribes. Rohlf wrote a message giving his own name and the date, enclosed it in a bottle, buried it in the sand at a place called Regnid, and returned to civilization. The bottle and the message have now been discovered. The Arctic embalmers its secrets for hundreds of years, the bodies of men in the ice, their writings, their foods, their property; but who would expect such fidelity in the burning sands of the wilderness, where wood and horn and glass and even fingernails split in the heat, and hair falls out?

TRY THIS!
When children won't eat—and won't gain weight

The youngster who has no appetite, probably has *stasis*. A little syrup of figs will soon correct this condition—then watch the child eat—and gain! Mothers should never coax a child to eat. Nature knows best. Remove the cause of a youngster's poor appetite—get rid of *stasis*. Children who don't eat are sluggish. Read what the "California treatment" is doing for sluggish, listless children in every part of the country!

A POUND A WEEK. Your child will eat well from the day and hour you conquer sluggishness. But that girl or boy with furry tongue and a bad breath should not be dosed with salts!

Begin tonight, with enough pure syrup of figs to cleanse the colon thoroughly. Less tomorrow, then every other day, or twice a week, until the appetite, digestion, weight, complexion, tell you the *stasis* is gone. When a cold or other ailment has again clogged the system, syrup of figs will soon set things to right.

When appetite fails, tongue is coated white, eyes are a bilious yellow, California syrup of figs will gently stimulate the colon muscles—and the child you used to coax to eat will fairly devour his food.

The claims made for California Syrup of Figs are true and it will do the same for you—IF you get genuine CALIFORNIA Syrup of Figs. Don't accept any substitute.

Equally Painful

And many a man would rather have a tooth pulled than pay his taxes.

Does Your Stomach Bother?

If you're troubled with distress from stomach and gas, your body run-down—poisons accumulating in the system, there's nothing so good as Dr. Pierce's Golden Medical Discovery.

Read what E. O. Dike of 211 So. 9th St., McCook, Neb., says: "I am a booster for Dr. Pierce's Golden Medical Discovery. When my stomach bothered me and I belched gas, and when I was run down due to a cold, or was troubled with a bronchial cough, 'Discovery' built me up and made me feel like my normal self again."

Write Dr. Pierce's Clinic, Buffalo, N. Y.

WOMAN LOST 20 POUNDS IN 4 WEEKS

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and further more I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce as tens of thousands of men and women know.

For your health's sake ask for and get Kruschen at any drugstore—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

Backache bother you?

A nagging backache, with bladder irregularities and a tired, nervous, depressed feeling may warn of some disordered kidney or bladder condition. Users everywhere rely on Doan's Pills. Praised for more than 50 years by grateful users the country over. Sold by all druggists.

Dozens of Bills Aiming at Expense Cuts Introduced in Iowa 45th General Assembly

Des Moines, Ia.—(AP)—Following are the bills drafted by the interim committee on the reduction of governmental expenditures and introduced into the 45th general assembly.

1. Apply tax rates to assessed values instead of taxable values.
2. Combine two assessment books and one tax list into one record made in duplicate.
3. Assess real estate every four years, instead of biennially.
4. Create county tax budget commission with authority to reduce tax levies.

Limit Increases

5. Limit tax levy increases to changes in assessed valuations which represent the capacity to pay taxes.
6. Amend local tax budget law by requiring that all levies, including those on bond issues, must be published, and strike out provision permitting a per cent additional levy to offset tax shrinkage.
7. Make secondary road levies optional instead of mandatory.
8. Provide that the county treasurer shall withhold registration of any motor vehicle until the owner or applicant shall have paid his delinquent personal taxes.

Remove Exemptions

9. Remove tax exemptions from Iowa public bonds to bring more taxable wealth to the tax books.
10. Amend fire and police pension laws by extending retirement age from 50 to 55 years; service period from 22 to 25 years; pension contributions from one to two per cent of salaries; eliminate all but regular members of fire and police force from pension privileges, and require more complete medical examination.
11. Continue the Elliott bill for two years.
12. Abolish the state census.
13. Reduce printing of numerous state reports and documents and give the state department of printing more discretion regarding printing.
14. Provide that legislature shall make biennial appropriations for all expenditures of Board of Audit and Board of Control; that all tuition, fees and other non-tax receipts must pass through the state treasurer's office, and that Board of Audit comptroller shall audit all institutions accounts.

Abolish Survey

15. Abolish the state geological survey as nonessential and save \$13,600 yearly.
16. Abolish the finance committee of the state board of education.
17. Restrict convention and conference trips by state officers or representatives of any quasi public associations.
18. Repeal the mandatory outside audit of state educational, penal and other institutions because of Bill No. 25, which provides for concurrent audit by resident comptroller under Board of Audit.
19. Remove tax exemptions from real estate owned by any educational institution and held for pecuniary profit.
20. Provide mailing room in Capitol building with installation of metering machines.
21. Create a special joint legislative committee to investigate, inquire into and examine the administration and conduct of various state departments, bureaus and commissions, and to make a thorough study and investigation of state, county, township, city and town governments for the reduction of the expenditures of public funds.

Would Reduce Salaries

22. Reduce statutory salaries of state officers.
23. Reduce mileage allowance to public officials (including sheriffs) to 5 cents a mile.
24. Extend the terms of office, which can be extended by legislative enactment, from two years to four years.
25. Renew drivers' license for another two years to save expense of re-issuing them.
26. Forbid use of publicly owned autos by public officials for private purposes.

Favors Uniform System

27. Provide for uniform county blanks and record books, and for the purchase of the same through the State Printing board.
28. Itemized mileage and trip expense items be required of peace officers.
29. Impose penalty on county official for spending more than the department appropriation by supervisors.
30. Provide for centralized county purchasing and competitive bidding on prospective purchases.
31. Reduce the \$2 per person per week pauper allowance to \$1.50.
32. Transfer issuance of dog, fishing and hunting licenses to county treasurers' office to be combined with auto license division.
33. Abolish office of coroner and transfer duties to sheriff.
34. Abolish duties of the county

Wild Life Is Cared For in All Weather

Harrisburg, Pa.—(UP)—Game animals and birds of Pennsylvania are taken care of by the Boards of Game Commission in "mild weather as well as cold," according to officials of the board.

Early snows in all sections of the state recently covered completely the usual food sources for animals and birds, but the feeding campaign, intensified during that period, was not lessened when

recorder and transfer his duties to the clerk of courts.

35. Reduce board of supervisors to three members in all counties.
36. Make expenditures for school libraries discretionary instead of mandatory.
37. Make all school records uniform and comparable with one another to ascertain which schools have abnormal costs.
38. Abolish the position of school treasurer and transfer the duties of such officer to the county treasurer.
39. Provide for optional centralized school purchasing through county board of education, thus permitting schools to take advantage of wholesale prices by quantity buying.

Increase School Zones

40. Increase pupil transportation zone from one to two miles and other restrictions calculated to permit a reduction in the 2 million dollar yearly school transportation expense.
41. Eliminate certain mandatory subjects from school courses.
42. Make establishment of kindergarten optional instead of mandatory.
43. Restrict the establishment or continuing of small high schools.
44. Amend teachers' salary law by reducing certain minimum rates of pay.
45. Provide for audit of school districts upon request of county superintendent or certain number of taxpayers.
46. Provide arrangements for paying for tuition and transportation of pupils from another school district.

Reduce Tuition Fees

47. Provide arrangements for transferring children to another school when school is closed for lack of pupils.
48. Reduce maximum high school tuition from \$12 to \$10 per month.
49. Provide for biennial school elections instead of annual.
50. Provide for reimbursement to school districts which are deprived of taxes from lands owned by some other taxing sub-division.
51. Prohibit the signing of a teacher's contract in a district having less than 10 pupils of school age.
52. Amend local budget law by requiring that rural school districts must hold public hearings on tax budgets like all other taxing subdivisions.
53. Prevent unnecessary and expensive trips by sheriffs out of the state to bring back defendants by requiring approval of district judge for such trip.

Increase Powers of Judges

54. Give judges full discretionary power to excuse jurors.
55. Provide for dismissal of cases at end of 18 months for lack of attention or trial unless good cause is shown.
56. Eliminate the printing of the bar docket.
57. Limit time of argument of attorneys.
58. Demand the filing of bond to cover cost of removal suits for removal of public officers.
59. Provide for serving original notice with copy of petition attached and default if no answer is filed in 20 days.
60. Provide for a jury of six to 12 on demand, and a deposit to cover part of cost of jury trial.
61. Enlarge the power of the Chief Justice of the Supreme Court to transfer District Court judges.
62. General revision clerk's fee schedule.
63. Forbid the collecting of witness fees by any public officials on a salary.
64. Permit the clerk to waive appraisalment on inheritance tax purposes.
65. Require claims for unclaimed fees to be made within three years.
66. Reduce the statutory salaries of city officials.
67. Fix the time for the publication of legal and official notices the number of official newspapers and the designation thereof.
68. Revision of tax sale notices service and cost thereof.
69. Reduce the amount of penalty to be paid in redemption of property from tax sale.
70. Publication of proposed amendments to the Constitution and of public measures be changed from one week to one month.
71. Adjustment of publishing proceedings of boards of supervisors.
72. Changes in attorneys' fees in injunction and nuisance cases

Issuance of Marriage Licenses Increased 84

Logan, Utah.—(UP)—Leap year closed with an increase of 84 marriage license issued from the Logan office.

In 1931, 603 licenses were issued and during the last year, 687 wedding certificates were registered.

November was the heaviest month of the year, even passing June, when 86 were issued, compared with November's 96. The Idaho "Gin Marriage" law was believed to have been largely responsible for the jump.

milder weather set in, said the commissioners.

They pointed out that hunters from southern counties often do not realize the weather conditions which may prevail in their favorite grounds and that a day's cold rain in southern Pennsylvania may bury the more northern sections in a foot of snow.

Rural mail carriers are now permitted to carry grain and other feed on their routes.

Turkeys living in their natural state roost in trees.

LINDY TROPHIES FILL BUILDING

Additional Tokens of Admiration Sent to \$1,000,000 Exhibit

St. Louis.—(UP)—The affections and admiration of people of every land for Charles A. Lindbergh, trans-Atlantic flier, find expression here in 2,500 trophies, valued at approximately \$1,000,000.

The museum, which occupies a great portion of the Jefferson Memorial building, in Forest park, is said to be the only one in the world devoted to tributes for a living man.

From almost every country the tributes to his courage and skill have come. Among them are jewels from kings and simple, inexpensive gifts of school children.

Lindbergh's Favorite

The favorite of Colonel Lindbergh, his friends say, is a model of the "Spirit of St. Louis," the plane he flew from New York to Paris. It is carved from a single diamond and stands between a pair of silver globes made in 1700. This trophy, valued at \$50,000, was presented Colonel Lindbergh by William Randolph Hearst, the publisher. Colonel Lindbergh has seen the collection only four times, the last on New Year's day, 1930.

More than five million have viewed the trophies. Before the register was closed to all but the most distinguished visitors, it was signed by people from every state and from almost every nation.

Famous Signatures

Most of the famous figures of aviation, including the pioneers, Orville Wright and Glenn Curtis, have signed the register. Others include the French fliers, Coste and Bellonte; Ruth Nichols, Charles Dolfus, Frank Hawks, H. E. Honeywell and Major Albert Bond Lambert.

The exhibit is being added to constantly, until the problem of properly displaying the trophies has become a serious one. Colonel Lindbergh wrote recently that he was sending five additional cases containing hundreds of articles sent directly to him.

Most Deer and Bear Were Killed in State Forests

Harrisburg, Pa.—(UP)—During the past hunting season many of the deer and bear killed in Pennsylvania were in the state forests, reports compiled here reveal.

The State forests comprise one-tenth of the total area of forest land in the state, and supply nearly a half the deer and one-third the bear killed annually. In these areas legitimate hunting is encouraged by Pennsylvania.

Development of the extensive road and trail system makes the state forests more accessible each year, and these facilities open vast areas to hunters. When the forest lands were acquired, practically all were cut and burned over, remote areas being inaccessible and seldom visited.

At the present time more than 2,500 miles of roads and 3,000 miles of trails traverse the state forests and are maintained by the Department of Forests and Waters for their efficient management.

High School Boys Build Divers Suit

Detroit.—(UP)—Two Fordson high school boys explored the bottom of the school swimming pool recently in a home-made diving apparatus.

The boys, George and Edward Vincent, fashioned their diving helmet from a hot water tank, 85 pounds of lead, an old telephone and a squirt gun, device to keep the mist off the windows. They plan to use it in search of "treasure" in the Detroit river next summer.

DIVERSIFIED PHILOSOPHY.

And if you don't like France right now

And think her conduct rank, At least in matter of those debts, Her failure has been franc.

Twas for his health that Insult left!

And what a lot of woe He might have spared the rest of us, By leaving years ago.

Oh, that some day we might peruse Some sprightly little tale, In which all holding company guys, Were holding out in jail.

That Alice dines with Dolly now, Goes but, again to show The dietary virtues of That post-election crow.

That thirteen is unlucky, soon The future may reveal; For just that many states, you'll note, Can raise hob with repeal.

—Sam Page.

Woodchopper Is Injured By Tree After Warning

Wabash, Ind.—(UP)—Frank Goldsberry was told by his father-in-law, D. F. Brewer to watch out for cottonwood trees because they split and fall without warning.

A short time later, Goldsberry, who had gone out to chop down some timber, was brought in with a broken ankle and internal injuries suffered when one of the cotton wood trees split and fell on him.

RADIOTIC

PRETTY METHOD OF INITIALING LINEN

Filet crochet embroidery is a smart new style of initialing household linens. The method of doing this work is extremely simple. The filet crochet consists of plain square mesh made in the size and shape wanted for the article to be lettered. On this the initials are run in a weaving or darning stitch, following a filet or cross stitch pattern. Each square in the design occupies one square of the filet. The work progresses by counted stitches.

Directions.

The crocheted piece is positioned and basted on the linen, care being taken to have the squares exactly even. Buttonhole along all edges, taking stitches through the linen and over the outside row of crochet stitches. Put two or three of these buttonhole stitches between bars of the work. The linen back of the crochet can be cut away after the embroidery is done, or before. The former way is recommended, since the filet is held firmly in position by

the backing, as the needle is run over and under the bars. Also the working medium will naturally lie smooth and flat. However, if the worker prefers, the material can be cut away first.

Method of Embroidery.

Start the working medium with a buttonhole stitch over the bar marking the outside limit of the weaving stitch. Leave a short length of the medium and work over it in the running stitches, thus further securing the thread end. Finish off the medium in the same way, with a buttonhole stitch, running the thread through the weaving previously done, before cutting it off.

Color Work.

The embroidery is done by counted squares following the pattern. The charm of this filet embroidery consists not alone in the even flow of the embroidery medium over and under the bars of the crocheted mesh, but in the color work permissible. For example, on a towel the filet can be in the color of the border and the working medium be mercerized white cotton, making the initialing and background carry out the scheme of towel and border. Or the filet can be in white and the embroidery medium match the hue of the border. On colored linens an interesting scheme consists of white filet crochet, embroidered in a medium the color of the textile. To get the full decorative value of filet embroidery, the working medium for the embroidery should be in contrast to the color of the filet.

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 60 years ago. They regulate liver and bowels.—Ad.

Weakness Somewhere

You are not "tempted" unless there is a weak spot in you.

Sioux City Ptg. Co., No. 5-1933

Mother of 7—Still Young

THE woman who gives her organs the right stimulant need not worry about growing old.

Her system doesn't stagnate; her face doesn't age. She has the health and "pep" that come from a lively liver and strong, active bowels.

When you're sluggish and the system needs help, don't take a lot of "patent medicines." There's a famous doctor's prescription for just such cases, and every druggist keeps this standard preparation. It is made from fresh laxative herbs, active senna, and pure pepsin. Just ask for Dr. Caldwell's syrup pepsin. Take a little every day or so, until every organ in your body feels the big improvement.

The next time you have a bilious headache, or feel all bound-up, take this delicious syrup instead of the

usual cathartic. You'll be rid of all that poisonous waste, and you haven't weakened the bowels. You'll have a better appetite, and feel better in every way. The constant use of cathartics is often the cause of a sallow complexion and lines in the face. And so unnecessary!

Would you like to break yourself of the cathartic habit? At the same time building health and vigor that protects you from frequent sick spells, headaches, and colds? Get a big bottle of Dr. Caldwell's syrup pepsin today. Use often enough to avoid those attacks of constipation. When you feel weak and run-down or a coated tongue or bad breath warns you the bowels need to be stimulated. Give it to children instead of strong laxatives that sap their strength. It isn't expensive.

CATARRH

Can Now Be Washed Away

Get a little nasal douche and an economical bottle of SINASIPTEC from your druggist and in a few minutes you can start to wash away every trace of matter caused by nasal catarrh. Keep using SINASIPTEC in warm water and soon all stiffness disappears, catarrh pressure is gone and your nose, head and throat feel marvelously clear. Tear this out. SINASIPTEC is pronounced Sina-sip-tec.

ACIDITY

NEW FACTS ABOUT HEADACHES, SLEEPLESSNESS, DEBILITY, ETC. Acidity is a danger signal. Don't be satisfied merely to correct the condition in your stomach. Your entire system is concerned. Take GOLD MEDAL HAARLEM OIL CAPSULES. They stimulate your kidneys so that they free your whole body of more acids. See if they don't relieve ALL your acidity troubles. Insist on GOLD MEDAL 35¢.

Your Advertising Dollar

buys something more than space and circulation in the columns of this newspaper. It buys space and circulation plus the favorable consideration of our readers for this newspaper and its advertising patrons.

Let us tell you more about it
