Candidates who desire to present their views to the voters of Holt county, and familiarize the voters with their names and aspirations, can find no better medium than thru the columns of The Frontier. The Frontier visits more homes in Holt county each week than any other paper in the county and it is unexcelled as an advertising medium. If you want the nomination that you have filed for, a liberal use of this paper's advertising columns will be of great assistance to you.

# **Economic Highlights**

The most interesting news of the week comes from across the water. A great deal that is of tremendous international importance has happened in Europe.

All Europe fears war, is preparing for it on the one hand while statesmen make long and empty speeches concerning peace on the other. Main thorn in the side of most European powers is Germany-and today, when you speak of Germany, you speak of Hitler, the ironhanded dictator. Under the treaty of Versailles, most foughtabout document signed in this century, Germany is allowed no army that amounts to anything, is prohibited from making or obtaining offensive military weapons such as tanks, fighting airplanes, big guns. It is an open secret that Germany, under Hitler, has successfully abrogated the treaty thru various dodges. For example, famous storm troops are supposedly a fraternal order, and do not technically come under the classification of an army. As a matter of fact, they are well-trained, well equipped, thoroughly disciplined fighting men. No man living has made a more spectacular rise than Hitler. Ten years ago he was in prison for starting an abortive revolution against the republican German government of the time. Sentenced to a long term, he was pardoned, in the belief that he was small political fry, could do no harm. Today he is more powerful and more ruthless than even Mussolini and Stalin. His slightest word is law, and the faintest criticism of his policies is cause for arrest, concentration in one of the camps for politicalprisoners he has created in various parts of Germany-and possibly, execution. Most European powers would give much to see the Hitler government collapse-the Nazi movement is gaining ground ominously in other countries. And the rumor of late has been that the German people, traditionally independent and intelligent, are tiring home: Mary, Leone and Leroy Spindof him. It is an unquestioned fact that he no longer enjoys the vast pop- McAfee and Melvin and Velma Johrularity he once did, and that groups ing, are forming with the objective of eliminating him. It is an important sign of the trend that he is growing constantly harsher in supressing opposing opinion-all dictators do that when their power is on the wane. Hitler's answer to revolt came on Saturday, June 30, and Sunday, July for a trip to San Diego, Calif., where 1. The answer can be expressed in one ominous word: Terrorism. Kurt Von Schleicher, once Chancellor of Germany, the position Hitler now holds, was shot with his wife. The charge was resisting arrest-but few will believe that. Other famous Germans were slaughtered or imprisoned. Innumerable ordinary German citizens who were on the anti-Hitler side, were killed. High officers in Hitler's own storm troops met a like fate, because they were not zealous enough in supporting him. The result is that Germany, at this writing, is on the verge of revolution -it's a case in which anything can happen. And what happens may have much to do with deciding the future of the world, and determine whether or not there is to be another great war. Until the German crisis is settled one way or the other, lights will burn late in chancellories in all the great powers.

many classes of society, Repeal of prohibition was, according to the hope- visited at Gus Karel's Sunday. ful, expected to do away with the boot-

The Federal government has no jurisdiction over liquor, save in home to Tekamah after a visit here the matters of tax evasion and pro- with home folks. tecting dry states.

Still another problem is presented by the quality of "repeal liquor." Bonded whiskey is exceedingly expensiveabout seven dollars a quart. Most of the blends now on the market are a poor grade, many believe them to be inferior to pre-repeal moonshine. The public has been skeptical, and has bought much less legal liquor than was anticipated.

The afternoon was ualized idea of government spending spent in playing games and eating ice cream. Everyone present had a good -and states, counties and cities have been even worse offenders than the federal government itself. It is an unquestioned fact that investors are Mrs. Fred Lorenz, Sr., is quite ill

putting money into tax-free bonds, where it does nothing for the sake of industry, because of the fear that taxation will continue to take most of the profit out of private business. Jobs are lost, factories are closed, homes and farms are foreclosed, industrial development is brought abruptly to a halt-because of high taxes.

These are facts, not hot air. Cost of government is our greatest and fastest growing problem.
